By focusing attention on individuals rather than on aggregates, this book takes a novel approach to studying criminal behavior. It develops a framework for collecting information about individual criminal careers and their parameters, reviews existing knowledge about criminal career dimensions, presents models of offending patterns, and describes how criminal career information can be used to develop and refine criminal justice policies. In addition, an agenda for future research on criminal careers is presented. Crime is one of the major challenges to any new democracy. Violence often increases after the lifting of authoritarian control, or in the aftermath of regime change. But how can a fledgling democracy fight crime without violating the fragile rights of its citizens? In *Transformation and Trouble*, accomplished theorist and criminal justice scholar Diana Gordon critically examines South Africa's efforts to strike the perilous balance between democratic participation and social control. South Africa has made great progress in pursuing the Western ideals of participatory justice and due process. Yet Gordon finds that popular concerns about crime have fostered the growth of a punitive criminal justice system that undermines the country's rights-oriented political culture.

*Transformation and Trouble* calls for South Africa to reaffirm its commitment to public empowerment by reforming its criminal justice system-an approach, she argues, that would strengthen the country's new democracy. "An eloquent, critical, but ultimately optimistic, analysis of the democratization of crime and justice in post-apartheid South Africa." --Bill Dixon, School of Criminology, Education, Sociology and Social Work, Keele University "A must read for understanding contemporary South Africa's agonizing dilemmas as it struggles to reconcile crime control with democratic values." --Jerome H. Skolnick, New York University School of Law "Gordon's vast experience with criminal justice illuminates her cautionary tale of the search for a new way in south Africa." --Paul Chevigny, New York University Diana Gordon is Professor Emerita of Political Science and Senior Research Scholar, City University of New York.

Key questions in contemporary South African criminology are examined in these essays, including Why is crime such a persistent problem? and How have crime control practices altered in response to the challenges of the post-apartheid era?. Teachers, researchers, policy advisors, and practitioners challenge some of the received wisdom re-emerging in a discipline in danger of both forgetting its own history, and of misunderstanding the role of critical social science in a democratic South Africa.

This classic book serves as a starting point for any serious discussion of welfare reform. *Losing Ground* argues that the ambitious social programs of the 1960s and 1970s actually made matters worse for its supposed beneficiaries, the poor and minorities.

Charles Murray startled readers by recommending that we abolish welfare reform, but his position launched a debate culminating in President Clinton's proposal "to end welfare as we know it."

Criminological theory dating back one hundred years has been aware of the need to develop a neurobiology of extroversion, impulsivity, frontal-lobe dysfunction, and aggressive behavior, yet in the twentieth century criminologists have largely forsaken this psychobiological legacy. The Neurobiology of Criminal Behavior looks at this legacy with reference to a variety of neurobiological methodologies currently in vogue. The authors are all distinguished researchers who have contributed considerably to their respective fields of psychiatry, psychology, psychobiology, and neuroscience.

These Proceedings are the work of researchers contributing to the 10th International Conference on Cyber Warfare and Security ICCWS 2015, co hosted this year by the University of Venda and The Council for Scientific and Industrial Research. This handbook explores criminal law systems from around the world, with the express aim of stimulating comparison and discussion. General principles of criminal liability receive prominent coverage in each essay—including discussions of rationales for punishment, the role and design of criminal codes, the general structure of criminal liability, accounts of mens rea, and the rights that criminal law is designed to protect—before the authors turn to more specific offenses like homicide, theft, sexual offenses, victimless crimes, and terrorism. This key reference covers all of the world's major legal systems—common, civil, Asian, and Islamic law traditions—with essays on sixteen countries on six different continents. The introduction places each country within traditional distinctions among legal systems and explores noteworthy similarities and differences among the countries covered, providing an ideal entry into the fascinating range of criminal law systems in use the world over.

"The book is an important text for undergraduate courses with a comparative focus such as Comparative Criminal Justice, Introduction to Criminology, and Introduction to Criminal Justice in departments of criminology, criminal justice, and sociology."--BOOK JACKET.

The field of data mining is receiving significant attention in today's information-rich society, where data is available from different sources and formats, in large volumes, and no longer constitutes a bottleneck for knowledge acquisition. This rich information has paved the way for novel

areas of research, particularly in the crime data analysis realm. Data Mining Trends and Applications in Criminal Science and Investigations presents scientific concepts and frameworks of data mining and analytics implementation and uses across various domains, such as public safety, criminal investigations, intrusion detection, crime scene analysis, and suspect modeling. Exploring the diverse ways that data is revolutionizing the field of criminal science, this publication meets the research needs of law enforcement professionals, data analysts, investigators, researchers, and graduate-level students.

The title is divided into three sections, namely theory and policy, practice and the future of victimology in South Africa. This tell-all memoir reveals the details behind Sunday Times journalist Mzilikazi wa Afrika's exposure of the R1.7 billion lease scandal between police commissioner Bheki Cele and property tycoon Roux Shabangu, for which he was infamously arrested in 2010. It is also the riveting account of how a neglected boy in an unknown village became one of South Africa's most awarded investigative reporters and found himself at the receiving end of the corruption that had defeated those he helped put in power. Fearless in the face of corrupt authorities with sinister political motives, and fervent about justice, Wa Afrika's life was characterised by resistance to oppression and inequality from an early age. Destined to defend and uphold the principles of democracy, his story is the inspiring tale of an ordinary man, armed with a pen, who challenged the proverbial giant.

**#1 NEW YORK TIMES BESTSELLER** • More than one million copies sold! A “brilliant” (Lupita Nyong’o, Time), “poignant” (Entertainment Weekly), “soul-nourishing” (USA Today) memoir about coming of age during the twilight of apartheid “Noah’s childhood stories are told with all the hilarity and intellect that characterizes his comedy, while illuminating a dark and brutal period in South Africa’s history that must never be forgotten.”—Esquire Winner of the Thurber Prize for American Humor and an NAACP Image Award • Named one of the best books of the year by The New York Time, USA Today, San Francisco Chronicle, NPR, Esquire, Newsday, and Booklist Trevor Noah’s unlikely path from apartheid South Africa to the desk of The Daily Show began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents’ indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa’s tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. Born a Crime is the story of a

mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man's relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother's unconventional, unconditional love.

Essentials of Community Corrections offers you a concise and practical perspective on community corrections while emphasizing successful offender reentry through strong community partnerships. Author Robert D. Hanser draws on his expertise with offender treatment planning, special needs populations, and the comparative criminal justice fields to present you with a complete introduction to community corrections today. Cross-National Perspective boxes demonstrate common themes in community corrections around the world, as well as different approaches used in other countries. Applied Exercises encourage you to reflect on your understanding of each chapter's content and to demonstrate your competence in using the information, techniques, and processes that you have learned. Food for Thought features at the end of each chapter guide your through a recent research study related to community corrections and include follow-up questions to help you think critically.

In this text, the editors analyze the diverse situations that police forces operate under and the challenges that they face in different kinds of democracies. This cross-cultural comparison of various systems highlights the universal observation that police are an anomaly in a democracy and explores how various influences—for example, large-scale social violence, a zeal for crime fighting, and vulnerability to temptation—often find police incapable of behaving in a democratic manner. Challenges of Policing Democracies goes beyond just showing the similarities and differences of the policing challenges democratic societies face, it also examines the responses and remedies adopted by police in various countries at different levels of democratic achievement and how every society struggles with the challenges of preserving democratic values without sacrificing the effectiveness of policing.
