Writing in Tongues examines the complexities of translating Yiddish literature at a time when the Yiddish language is in decline. After the Holocaust, Soviet repression, and American assimilation, the survival of traditional Yiddish literature depends on translation, yet a few Yiddish classics have been translated repeatedly while many others have been ignored. Anita Norich traces historical and aesthetic shifts through versions of these canonical texts, and she argues that these works and their translations form an enlightening conversation about Jewish history and identity. Profiles fourteen athletes whose victories in the sporting arena or high profiles in the news could not translate into happiness in their personal lives.

A heartwarming, funny and provocative memoir of a woman navigating clashing cultures during her decades-long friendship with an Orthodox Jewish family, new in paperback When 20-year-old student J. S. Margot took a tutoring job in 1987, little did she know it would open up an entire world. In the family's Orthodox Jewish household she would encounter endless rules - 'never come on a Friday, never shake hands with a man' - and quirks she had not seen before: tiny tubes on the doorposts, separate fridges for meat and dairy products. Her initial response was puzzlement and occasionally anger, but as she taught the children and fiercely debated with the family, she also began to learn from them. Full of funny misunderstandings and unexpected connections, Mazel Tov is a heartwarming, provocative and disarmingly honest memoir of clashing cultures and unusual friendships - and of how, where adults build walls, sometimes only children can dissolve them.

In France, 1940, an unlikely pair team up to evade the approaching Nazis. Little Jacobowsky, a Polish Jewish intellectual, has been one step ahead of the Nazis for years. Stjerbinsky is an aristocratic, anti-Semitic Polish colonel who's trying to get to England. Jacobowsky has a car but can't drive; the colonel can. And so begins their adventurous journey - set against a backdrop of lively and lovely songs and dances - that takes them to a carnival, a Jewish wedding, and, when the car breaks down, onto a train. Accompanying them is Marianne, the colonel's girlfriend with whom Jacobowsky falls in love. But it is not to be.

A young Jewish girl and her family welcome a new baby boy with a bris, and in another story, welcome a new baby girl with a brit bat, or naming ceremony.

The Music of Multicultural America explores the intersection of performance, identity, and community in a wide range of musical expressions. Fifteen essays explore traditions that range from the Klezmer revival in New York, to Arab music in Detroit, to West Indian steelbands in Brooklyn, to Kathak music and dance in California, to Irish music in Boston, to powwows in the midwestern plains, to Hispanic and native musics of the Southwest borderlands. Many chapters demonstrate the processes involved in supporting, promoting, and reviving community music. Others highlight the ways in which such American institutions as city festivals or state and national folklife agencies come into play. Thirteen themes and processes outlined in the introduction unify the

collection's fifteen case studies and suggest organizing frameworks for student projects. Due to the diversity of music profiled in the book--Mexican mariachi, African American gospel, Asian West Coast jazz, women's punk, French-American Cajun, and Anglo-American sacred harp--and to the methodology of fieldwork, ethnography, and academic activism described by the authors, the book is perfect for courses in ethnomusicology, world music, anthropology, folklore, and American studies. Audio and visual materials that support each chapter are freely available on the ATMuse website, supported by the Archives of Traditional Music at Indiana University.

In *Mazel Tov*, celebrity journalist Jill Rappaport and photographer Linda Solomon offer an intimate glimpse of the bar or bat mitzvahs of some of the most talented people in entertainment, politics and business. This remarkable book brings together stories and never-before-seen family photos of a variety of public figures, as they look back on their thirteen-year-old selves and reminisce about the celebration that marked their transition into adulthood. The wonderfully candid interviews in *Mazel Tov* document deeply poignant, and often hilariously awkward, moments in these very public lives.

Interviewees include Jeremy Piven, Senator Joseph Lieberman, Marlee Matlin, Richard Dreyfuss, Ronald Perelman, Howie Mandel, Gene Shalit, Harvey Fierstein, Judy Gold, Larry King, Donny Deutsch, Michael Kors, Charles Grodin, Josh and Andy Bernstein, and many others. Their experiences run the gamut: Kirk Douglas decided to be bar mitzvahed twice, while others, like Noah Wyle, always wanted one but never had the chance. There are stories of bar mitzvahs, bat mitzvahs, confirmations, and the only documented "bark" mitzvah, held in honor of two beloved pets. Though the stories vary greatly in their detail, they all express a common appreciation for values and traditions that have been passed down through the generations. Illustrated with photos pulled from family albums as well as contemporary portraits, *Mazel Tov* is an appealing tribute to the enduring bonds of faith and family.

New York City has long been a generative nexus for the transnational Latin music scene.

Currently, there is no other place in the Americas where such large numbers of people from throughout the Caribbean come together to make music. In this book, Benjamin Lapidus seeks to recognize all of those musicians under one mighty musical sound, especially those who have historically gone unnoticed. Based on archival research, oral histories, interviews, and musicological analysis, Lapidus examines how interethnic collaboration among musicians, composers, dancers, instrument builders, and music teachers in New York City set a standard for the study, creation, performance, and innovation of Latin music. Musicians specializing in Spanish Caribbean music in New York cultivated a sound that was grounded in tradition, including classical, jazz, and Spanish Caribbean folkloric music. For the first time, Lapidus studies this sound in detail and in its context. He offers a fresh understanding of how musicians made and formally transmitted Spanish Caribbean popular music in New York City from 1940 to 1990. Without diminishing the historical facts of segregation and racism the musicians experienced, Lapidus treats music as a unifying force. By giving recognition to those musicians who helped bridge the gap between cultural and musical backgrounds, he recognizes the impact of entire ethnic groups who helped change music in New York. The study of these individual musicians through interviews and musical transcriptions helps to characterize the specific and identifiable New York City Latin music aesthetic that has come to be emulated internationally.

The non-jazz improvisation series is a concept that germinated in Dick Weissman's mind while he was attending music school. He wrote a 15-piece arrangement of the old square dance tune, Cripple Creek, and wanted the trombone to take a solo as part of the arrangement. When the trombonist kept playing a bebop solo that was totally unsuitable for the chart, Dick realized that - in addition to the many musicians who do not improvise - there are even jazz musicians who don't know how to improvise outside the limits of their own stylistic backgrounds. The non-jazz improvisation series mostly includes new original tunes that are intended to show how to improvise in many musical styles, including;BluesCountryAmerican folkLatin-AmericanWorld music including South American, Eastern European and AsianOdd meters (playing in a variety of time signatures)New AgeClassicalFolk-RockIn short, the books are an encyclopedia of virtually every musical style, excluding jazz.

"This book reconstructs the transnational history of the category "Latin American music" during the first half of the 20th century, from a longer perspective that begins in the 19th century and extends the narrative until the present. It analyzes intellectual, commercial, state, musicological and diplomatic actors that created and elaborated this category. It shows music as a key field for the dissemination

of a cultural idea of Latin America in the 1930s. It studies multiple music-related actors, such as intellectuals, musicologists, policy-makers, popular artists, radio operators, and diplomats in Argentina, Mexico, Brazil, the United States, and different parts of Europe. It proposes a regionalist approach to Latin American and global history, by showing individual nations as both agents and result of transnational forces—imperial, economic, and ideological. It argues that Latin America is the sedimentation of over two centuries of regionalist projects, and studies the place of music regionalism in that history"--

The music of clarinetists Naftule Brandwein and Dave Tarras is iconic of American klezmer music. Their legacy has had an enduring impact on the development of the popular world music genre.

This lively chronicle of the years 1847–1947—the century when the Jewish people changed how we see the world—is “[a] thrilling and tragic history...especially good on the ironies and chain-reaction intimacies that make a people and a past” (The Wall Street Journal). In a hundred-year period, a handful of men and women changed the world. Many of them are well known—Marx, Freud, Proust, Einstein, Kafka. Others have vanished from collective memory despite their enduring importance in our daily lives. Without Karl Landsteiner, for instance, there would be no blood transfusions or major surgery. Without Paul Ehrlich, no chemotherapy. Without Siegfried Marcus, no motor car. Without Rosalind Franklin, genetic science would look very different. Without Fritz Haber, there would not be enough food to sustain life on earth. What do these visionaries have in common? They all had Jewish origins. They all had a gift for thinking in wholly original, even earth-shattering ways. In 1847, the Jewish people made up less

than 0.25% of the world's population, and yet they saw what others could not. How? Why? Norman Lebrecht has devoted half of his life to pondering and researching the mindset of the Jewish intellectuals, writers, scientists, and thinkers who turned the tides of history and shaped the world today as we know it. In *Genius & Anxiety*, Lebrecht begins with the Communist Manifesto in 1847 and ends in 1947, when Israel was founded. This robust, magnificent, beautifully designed volume is "an urgent and moving history" (*The Spectator*, UK) and a celebration of Jewish genius and contribution.

*Music in the American Diasporic Wedding* explores the complex cultural adaptations, preservations, and fusions that occur in weddings between couples and families of diverse origins. Discussing weddings as a site of negotiations between generations, traditions, and religions, the essays gathered here argue that music is the mediating force between the young and the old, ritual and entertainment, and immigrant lore and assimilation. The contributors examine such colorful integrations as klezmer-tinged Mandarin tunes at a Jewish and Taiwanese American wedding, a wedding services industry in Chicago's South

Asian community featuring a diversity of wedding music options, and Puerto Rican cultural activists dancing down the aisles of New York's St. Cecilia's church to the thunder of drums and maracas and rapping their marriage vows. These essays show us what wedding music and performance tell us about complex multiethnic diasporic identities and remind us that how we listen to and celebrate otherness defines who we are.

This volume brings together for the first time book chapters, articles and position pieces from the debates on music and identity, which seek to answer classic questions such as: how has music shaped the ways in which we understand our identities and those of others? In what ways has scholarly writing about music dealt with identity politics since the Second World War? Both classic and more recent contributions are included, as well as material on related issues such as music's role as a resource in making and performing identities and music scholarship's ambivalent relationship with scholarly activism and identity politics. The essays approach the music-identity relationship from a wide range of methodological perspectives, ranging from critical historiography and archival studies, psychoanalysis, gender and sexuality studies, to ethnography and anthropology, and social and cultural theories drawn from sociology; and from continental philosophy and Marxist theories of class to a range of globalization theories. The collection draws on the work of Anglophone scholars from all over the globe, and deals with a wide range of musics and cultures, from the Americas, Australasia, Europe, the Middle East and Africa. This unique collection of key texts, which deal not just with questions of gender, sexuality and race, but also with other socially-mediated identities such as social class, disability, national identity and accounts and analyses of inter-group encounters, is an invaluable resource for music scholars and researchers and those working in any discipline

that deals with identity or identity politics.

In this account of the creative effort that went into setting cartoons of the 1930s through the 1950s to music, the author examines how this shaped the animated characters and stories that have become embedded in American culture.
