emptying into the sea, water holds all the knowledge and experience it has acquired. As phenomenal as it may seem, water carries its whole history, just as we carry ours. It carries secrets, too. In *The Secret Life of Water*, bestselling author Masaru Emoto guides us along water's remarkable journey through our planet and continues his work to reveal water's secret life to humankind. He shows how we can apply its wisdom to our own lives, and how, by learning to respect and appreciate water, we can better confront the challenges that face the twenty-first century—and rejuvenate the planet. This book outlines the beginning of Dr. Emoto's work, how he came upon his idea of photographing water crystals, how the environment influences water, problems with contamination, and quality. He then moves onto pictures of the crystals when subjected to sounds, music, and voices. Printed in English 2005.

Messages from the Sea is a collection of letters and notes found washed ashore on beaches and bobbing in water, in corked bottles and wax-sealed boxes, carved onto wreckage and in the bellies of sharks. They tell of foundering ships,

missing ocean liners and shipwrecked sailors, and contain moving farewells, romantic declarations and intriguing confessions. Some solve the mysteries of lost vessels and crews, while others create new mysteries yet to be solved. Dating from a lost era of seafaring, they demonstrate the brave, lonely and fragile nature of life on the ocean waves. Included among these 100 messages are: a clue to the fate of the missing White Star liner Naronic; a murder confession found in a bottle off the White Cliffs of Dover; an update from John Franklin's lost Arctic expedition; a poem about a newborn baby found inside an 11ft shark; an unlikely apology from fleeing fraudster Violet Charlesworth; evidence for the unnecessary loss of the steamship London with 220 souls; the truth behind the mysterious grave robbery of the Earl of Crawford; and a message from the deck of the sinking Titanic.

Environmentalists worry about too much carbon dioxide, but what's too little? What if global financiers manipulated the global warming crisis to gain control over humanity's resources, freedoms, and population? What if someone with the financial and technical abilities decided mankind was a virus and used carbon dioxide trapping technology to plunge population levels by crashing life-essential CO₂ to new lows? These are questions Anna Picard must face in *The Carbon Trap*, the first book in *The Carbon Series*. At the height of the global warming crisis, the United Nations attempts to control all carbon emissions, and authorizes a series of programs it deems necessary to save humanity. A progressive US government enthusiastically endorses the UN Carbon Trapping program, and to help pay for it, will impose carbon taxes, draconian regulations, and... it will secretly sell Alaska. Anna Picard is an amoral fixer, an employee of Agenda 21 member and global financier Alexis Swanson had trained to help recruit his corporate army and neutralize his enemies. It

is her job to unleash a global hacker network to help destroy the carbon based industries and funnel insider-trading profits to Swanson. One of her recruits is Dr. Sven Johansson, a brilliant geneticist and President of Snath Biotechnology, who designs life forms to trap CO2. But Sven has more ambitious plans. At a UN conference in the Maldives held to impose draconian carbon regulations, not everyone is happy, some industrial executives realize data has been falsified. To protect her scheme, Anna frames one of the execs for murder. Her plans are complicated when she falls in love with Dr. Pete Heyward, the son of the man she framed for murder. Pete is a US Marine amputee who sees past her malevolent deeds and tries to rejuvenate the morality of her youth. After a series of genetically modified carbon trapping life forms is unleashed upon the Earth, Anna must confront the evils she helped unleash, and prevent an even bigger disaster from unfolding that would destroy most life on Earth. This is a high-tech ecological thriller that takes the reader from the Maldives, to the French Riviera, and the heartland of Texas. It introduces cutting edge technologies and concepts, used for the first time in a novel, that reveal striking implications for society.

"Byrne ... considered that it might be easier to learn geometry if colors were substituted for the letters usually used to designate the angles and lines of geometric figures. Instead of referring to, say, 'angle ABC,' Byrne's text substituted a blue or yellow or red section equivalent to similarly colored sections in the theorem's main diagram."--Friedman.

Those of us who are waiting and watching for the imminent coming of the Lord JESUS CHRIST are constantly saying that the world will be on fire at His coming. We forget the fact that in many ways the world is on fire already. I believe we have in some way missed this point. This world of ours is on fire right now nationally. There is no great nation on earth that is fully at peace, not even our own United States of America. Think of the strikes, of the race problems, of the awful and many difficulties that beset us in our land. Multiply them by the tremendous burdens that are weighing down every

other nation and you will see that I am justified in saying that the world is on fire. Think of England. Think of France. Think of Spain. Think of Germany and Japan. Think of the internal conflicts waging in Asia.

Katrina's Grace: Wind, Water and Wisdom takes us on Sandra's journey of recovery from Hurricane Katrina. Join her from a pre-hurricane fall that left her helpless and found her at her daughter's home waiting and wondering what was happening in Gulfport, to first sight of her destroyed home, car, and treasures. The journey continues through a lifetime of memories as lost treasures were unearthed, to the streams of volunteers who came to help her wade through the upheaval, build a temporary living space, and care for her neighbors and others in the community. As we read Sandra's story, we remember our own grief and loss after

Katrina or similar disaster experiences. This story speaks not only to the survivors, but to disaster responders who come to pick up the pieces yet don't hear the rest of the story of those with whom they shared an hour or a week, and finally they and all readers are able to feel the pain around the disasters where they served. Additionally, it provides insight for volunteers going into disaster work. A powerful yet sensitive story of dwelling in Grace and the incredible gifts of Grace from nature; from those who prayed, sent gifts, and came; and from living memories. Weaving reflections on lost treasures with journal excerpts, poetry, stories of those who came to help, sent needed materials and supplies, and also prayed, Sandra Price presents stories from a heart-breaking disaster. Katrina's Grace invites us into the depth of Sandra's soul and on into the depth of our own souls. As we read her story, we remember our own disasters and weep, laugh and ponder. And we can understand why Sandra said of Katrina, "I wouldn't have missed it for the world." Everything you need to know to look after yourself to bring about and maintain perfect health, prosperity, wealth, happiness, quality of life and longevity. In contrast, polluted water, or water exposed to negative thoughts, forms incomplete, asymmetrical patterns with dull colors. that isn't enough. Jess decides – while everything is changing in her life – that she doesn't want to go on living in the city, that she wants to return to Awatangi. Part of her hopes some physical distance between them may help things with Kate, and part of her – frustrated and upset – simply wants to leave Kate behind. In Awatangi, Jess meets Keri, a local lawyer who has also recently returned home. Like Jess, Keri surfs, and like Jess, she seems to feel some attachment to her family roots in Awatangi. Jess is drawn to Keri, but forces herself not to let anything happen. Despite everything, Kate is still Jess's closest friend, and she has loved Kate all her life. She feels she has to give the situation with Kate as long as she can to work itself out. Awatangi is about coping with feelings for a close friend that are not returned, set in a small holiday township on the West Coast of the South Island of New Zealand. It is an exploration of getting what you've always wanted and it not being enough, of being in love with one person and wanting another, and of finding out that life doesn't always turn out as expected.

(black & white) After swimming with wild dolphins, Adena Tryon began receiving messages from angelic dolphin beings called Stella Maris (Starlights of the Sea). This book shares their light messages, dolphin wisdom, the medicine of the divine feminine, and healing blessings for humanity. Stella Maris first speaks as a collective. They explain the concept of Starseeds and speak of the Stella Maris High Council, which also includes Mother Mary, Quan Yin, and Queen A'Mara. Then, individual Stella Maris members share light messages, healing activations, and scrolls of affirmations. The book concludes with a Beauty Way invitation. Visionary art from Florencia Burton synchronizes with the words of Stella Maris, creating a truly transformative experience. The common language that the people of the world have been seeking is found in water crystals. Water speaks for what is in our mind. Water awakens the subconscious memory in each person. . . . I now know why water is indispensable to the phenomenon of life, and why alternative therapies exist and why they're effective. Water helped me understand religion and prayer and gave me a clue to understanding the nature of energy. It helped me understand the relationship between humanity and the cosmos. It gave me a clue to help me understand what dimensionality is. I could come one step closer to understanding the eternal theme of humanity that asks where we come from, why we are here, and what happens when we die. Thus, for the release of this, the third volume in my series of *The Message from Water*, I decided to choose what the world most urgently needs at present as a theme. That is, of course, the need to eliminate war and terrorism throughout the world. The theme I have chosen is prayer.' When I thought about it more deeply, I realized that prayer is most effectively sent when each person in the world raises their energy of love by imagining a scene where the peoples of the world are living in peace. I've been taught this through the process of asking water many questions. For this reason, the title of this book is *Love Thyself*.' First you must shine with positive, high-spirited vibrations, and be full of love. In order to do that, I think it's important to love, thank, and respect yourself. If that's the case, then each of those vibrations will be sent out into the world and the cosmos, and the great symphony of that harmonic vibration will wrap our planet

in waves of love that serve to cherish our Heaven-granted lives. This is the message from water.

He was famous for telling stories. He could always make the story interesting. He had a way of seeing the best or funniest of every situation. Pulled from a wide variety of inspirational moments, Table Scraps is a compilation of poems that captures the heartache, hope, and imagination of author William D. Shumate's journey through life. Whether it's the love of a beautiful woman, the grief of losing a parent, or the simple joy of walking by a sea at night, these poems speak to the common human condition and remind us that we are all in this together. With subheadings like "Heartache Hope & Understanding," "The Aftermath and Gradual Recovery," "Learning to Live Again," "Love," and "Daughters," these lyrical verses capture the ordinary moments in life, as well as the most painful ones, using rich metaphors to speak to the larger issues we all face. But despite the occasional dark subject matter, these poems are woven together with the common theme that life's trials can be overcome with faith, hope, and love. Filled with beautiful imagery, heart-wrenching honesty, and sobering insights, this collection is sure to bring a smile, a tear...and the reminder that love should be cherished every day.

The Hidden Messages in Water introduced readers to the revolutionary work of Japanese scientist Masaru Emoto who discovered that molecules of water are affected by thoughts, words, and feelings, as can be seen in his dramatic photographs of water crystals. As a companion to the book, the Water Crystal Oracle includes forty-eight beautiful water crystal images to enhance your life and balance your well-being in many ways.

The Secret Intelligence of Water takes a quantum leap from the spring board of Masaru Emoto's microscopic work with ice crystals. Through macroscopic photography, and a groundbreaking new technique, researcher Veda Austin, allows us to view water as an intelligent force, with the power to respond to human consciousness in ways never before thought possible. Focused on the stage between liquid and ice, Veda has spent the last eight years photographing water in a state of 'creation'. She uses influences such as words, thoughts, pictures or music pre freezing, and then captures water's liquid crystal response minutes later. For example, an

image of a hand will appear in the ice after the thought of a hand was sent to the water.... even simple words have manifested into form! These amazing results suggest that water is intentionally communicating through artistic, intelligent design. The substantial visual evidence seen in this book supports the indigenous knowledge systems across the planet, that regard water as a living being. Veda believes that an emotional connection to water is key to creating change in the way we treat our natural world. She says, "If we think water can feel, we will care for it. If we think it is intelligent, we will learn from it."

Jonah Ranger was restoring an antique 1955 Chevy when he heard a woman's voice on the car radio pleading for help. She said her name was Alice Davenport, and a man was holding her captive, forcing her into a grueling workout routine so she'd be a proper challenge when he hunted her like big game on his private estate. As they talked, her voice shifted from the radio to inside Jonah's head. Born with telepathic abilities, he'd helped Decorah Security rescue kidnap victims, but never had he felt this personal connection to one of them. Calling on psychic resources he didn't know he possessed, Jonah was able to project himself to Alice's location, where he could hold her in his arms, touch her, kiss her, and plan. Dr. Masaru Emoto's stunning water-crystal photographs have enchanted millions of people in his many books. His groundbreaking work has shown that thoughts and words have a direct effect on water- crystal formation, and since our bodies are mostly water, our thoughts and words certainly affect not only ourselves but the world around us. In *The Secret of Water*, Dr. Emoto brings water's message of love, peace, and hope to the next generation in his first children's book. Entertaining and educational, this book offers an understanding of water that will encourage parents and children alike to value and give thanks to our most precious

resource. In 2003 the United Nations proclaimed the years 2005 to 2015 as its International Water for Life Decade, which urges citizens of the world to take individual responsibility to learn all about water. In a time wrought with environmental catastrophes and natural disasters, The Secret of Water shows the necessity of protecting water and offers a message of hope and empowerment. Help us shift consciousness Masaru Emoto has photographed thousands of water crystals throughout his years of research, yet few have been as beautiful and life affirming as those formed from the words “love and gratitude.” In The Miracle of Water, Dr. Emoto demonstrates how water’s unique role in transporting the natural vibration of these words can help you welcome change and live a more positive and happy life. This thoughtful book includes new and extraordinary water-crystal photographs that provide convincing reasons for all of us to choose positive words and strive for perfect resonance for a more healthy, peaceful, and happy life.
