Red is the neighborhood "wishtree"—people write their wishes on pieces of cloth and tie them to Red's branches. Along with a crow named Bongo and other animals who seek refuge in Red's hollows, this wishtree watches over the neighborhood. When a new family moves in, not everyone is welcoming, and Red's experience as a wishtree is more important than ever. understanding and called on a higher power when faced with the realities of combat. God in the Foxhole is a stunning collection of true personal accounts from generations of American soldiers whose faith, in the words of author Charles W. Sasser, "has been born, reborn, tested, sustained, verified, or transformed under fire." A renowned master of combat journalism and a former Green Beret, Sasser has gathered an immensely moving collection of war stories like no other -- stories of spirituality, conversion, and miracles from the battlefield. Be they Christian, Jewish, Muslim, or atheist, churched since childhood or touched by the divine for the first time, here are the riveting experiences of army privates, bomber pilots, navy lieutenants, marines, prisoners of war, medics, nurses, chaplains, and others who, under desperate circumstances and with every reason to fear for their lives, found unknown strength, courage, and heroism through their remarkable faith. These inspiring accounts transcend the explainable to become stunning portraits of survival and belief: the angelic vision that brought inner peace to an exhausted helicopter door gunner in Vietnam...the makeshift full-immersion baptisms of eleven soldiers on Palm Sunday in Iraq, 2004...two enemies -- a Nazi priest and an American G.I. -- who served Communion Mass in a Belgian sanctuary in 1944...the prescient letter from a Civil War army major to his beloved wife, one week before his death at Bull Run...the 21st-century toddler with a jaw-dropping spiritual connection to a war hero of Iwo Jima...and dozens more. A war chronicle like no other, God in the Foxhole affirms, for military buffs and readers from all walks of life, the power of faith in the face of adversity. First released in 1995, this spiritual classic continues to be a best-seller, as thousands each year accept Marjorie Thompson's invitation to the Christian spiritual life. Seven stunning stories of speculative fiction by the author of *A Boy and His Dog*. In a post-apocalyptic world, four men and one woman are all that remain of the human race, brought to near extinction by an artificial intelligence. Programmed to wage war on behalf of its creators, the AI became self-aware and turned against humanity. The five survivors are prisoners, kept alive and subjected to brutal torture by the hateful and sadistic machine in an endless cycle of violence. This story and six more groundbreaking and inventive tales that probe the depths of mortal experience prove why Grand Master of Science Fiction Harlan Ellison has earned the many accolades to his credit and remains one of the most original voices in American literature. *I Have No Mouth and I Must Scream* also includes "Big Sam Was My Friend," "Eyes of Dust," "World of the Myth," "Lonelyache," Hugo Award finalist "Delusion for a Dragon Slayer," and Hugo and Nebula Award finalist "Pretty Maggie Moneyeyes."

He appears to have been born with phenomenal powers, which he used in childhood and has employed constantly and openly ever since. The author, a westener devoted to science and logic, spent many months with Satya Sai Baba to substantiate these miracles. God sees the poor as blessed. Rich and Reneé Stearns show us why. "Cabin In The Woods" is a collection of true-life adventures with spiritual insights for young people. It focuses around the time my parents moved our family to a rural, Connecticut town called Cheshire. We took up residence in an old, rustic cabin sitting deep in the woods. There was no running water, no bathroom, no heat and no electricity, only a huge stone fireplace for cooking. But, it was there during that first summer that my parents began to build their "dream house." For me, it was the adventure of a lifetime, and the things I learned about life and God were immeasurable. From living in a pine bark cabin to building a house in the woods; from cornering wild woodchucks to getting squirted by skunks; from raising dogs to chasing weasels. I'd like to share these early, "cabin adventures" with young people of all ages to enjoy. Julia Buckley needs a miracle. Like a third of the UK population, she has a chronic pain condition. According to her doctors, it can't be cured. She doesn't believe them. She does believe in miracles, though. It's just a question of tracking one down. Julia's search for a cure takes her on a global quest, exploring the boundaries between science, psychology and faith with practitioners on the fringes of conventional, traditional and alternative medicine. From neuroplastic brain rewiring in San Francisco to medical marijuana in Colorado, Haitian vodou rituals to Brazilian 'spiritual surgery', she's willing to try anything. Can miracles happen? And more importantly, what happens next if they do? Raising vital questions about the modern medical system, this is also a story about identity in a system historically skewed against 'hysterical' female patients, and the struggle to retain a sense of self under the medical gaze. Heal Me explains why modern medicine's current approach to chronic pain is failing patients. It explores the importance of faith, hope and cynicism, and examines our relationships with our doctors, our beliefs and ourselves.

An insightful and uplifting memoir about a young Haitian girl in post-earthquake Haiti, and the profound, life-changing effect she had on one journalist's life. In January 2010, a devastating earthquake struck Haiti, killing hundreds of thousands of people and paralyzing the country. Catherine Porter, a newly minted international reporter, was on the ground in the immediate aftermath. Moments after she arrived in Haiti, Catherine found her first story. A ragtag group of volunteers told her about a “miracle child”—a two-year-old girl who had

survived six days under the rubble and emerged virtually unscathed. Catherine found the girl the next day. Her family was a mystery; her future uncertain. Her name was Lovely. She seemed a symbol of Haiti—both hopeful and despairing. When Catherine learned that Lovely had been reunited with her family, she did what any journalist would do and followed the story. The cardinal rule of journalism is to remain objective and not become personally involved in the stories you report. But Catherine broke that rule on the last day of her second trip to Haiti. That day, Catherine made the simple decision to enroll Lovely in school, and to pay for it with money she and her readers donated. Over the next five years, Catherine would visit Lovely and her family seventeen times, while also reporting on the country's struggles to harness the international rush of aid. Each trip, Catherine's relationship with Lovely and her family became more involved and more complicated. Trying to balance her instincts as a mother and a journalist, and increasingly conscious of the costs involved, Catherine found herself struggling to align her worldview with the realities of Haiti after the earthquake. Although her dual roles as donor and journalist were constantly at odds, as one piled up expectations and the other documented failures, a third role had emerged and quietly become the most important: that of a friend. *A Girl Named Lovely* is about the reverberations of a single decision—in Lovely's life

and in Catherine's. It recounts a journalist's voyage into the poorest country in the Western hemisphere, hit by the greatest natural disaster in modern history, and the fraught, messy realities of international aid. It is about hope, kindness, heartbreak, and the modest but meaningful difference one person can make. Held prisoner deep in the Louisiana bayou, Rosie's guardian arrives and they're able to find a way out. Now, evil is stirred up in the swamplands and Rosie must quickly learn her craft. During her journey she comes into her powers and makes a huge mistake that could destroy someone she loves. Meanwhile, Julian is dealing with his own demons when he discovers Rosie is closer than he realized. He's come to terms with his curse but fights it and begins to turn once again. Even knowing the dire consequences, Julian decides to speak an ancient Voodoo Haitian Mamba to stop his change. Rosie and Julian reunite and regardless of their individual struggles they must work together to save those they love.

On Sunday April 27, 2003, 27-year old Aron Ralston set off for a day's hiking in the Utah canyons. Dressed in a t-shirt and shorts, Ralston, a seasoned climber, figured he'd hike for a few hours and then head off to work. 40 miles from the nearest paved road, he found himself on top of an 800-pound boulder. As he slid down and off of the boulder it shifted, trapping his right hand against the canyon

wall. No one knew where he was; he had little water; he wasn't dressed correctly; and the boulder wasn't going anywhere. He remained trapped for five days in the canyon: hypothermic at night, de-hydrated and hallucinating by day. Finally, he faced the most terrible decision of his life: braking the bones in his wrist by snapping them against the boulder, he hacked through the skin, and finally succeeded in amputating his right hand and wrist. The ordeal, however, was only beginning. He still faced a 60-foot rappell to freedom, and a walk of several hours back to his car - along the way, he miraculously met a family of hikers, and with his arms tourniqued, and blood-loss almost critical, they heard above them the whir of helicopter blades; just in time, Aron was rescued and rushed to hospital. Since that day, Aron has had a remarkable recovery. He is back out on the mountains, with an artificial limb; he speaks to select groups on his ordeal and rescue; and amazingly, he is upbeat, positive, and an inspiration to all who meet him. This is the account of those five days, of the years that led up to them, and where he goes from here. It is narrative non-fiction at its most compelling. A stunning inside look at how and why the foundations upon which China has built the world's second largest economy, have started to crumble. Over the course of a decade spent reporting on the ground in China as a financial journalist, Dinny McMahon gradually came to the conclusion that the widely held

belief in China's inevitable economic ascent is dangerously wrong. In this unprecedented deep dive, McMahon shows how, lurking behind the illusion of prosperity, China's economic growth has been built on a staggering mountain of debt. While stories of newly built but empty cities, white elephant state projects, and a byzantine shadow banking system, have all become a regular fixture in the press in recent years, McMahon goes beyond the headlines to explain how such waste has been allowed to flourish, and why one of the most powerful governments in the world has been at a loss to stop it. Through the stories of ordinary Chinese citizens, McMahon tries to make sense of the unique—and often bizarre—mechanics of the Chinese economy, whether it be the state's addiction to appropriating land from poor farmers; or why a Chinese entrepreneur decided it was cheaper to move his yarn factory to South Carolina; or why ambitious Chinese mayors build ghost cities; or why the Chinese bureaucracy was able to stare down Beijing's attempts to break up the state's pointless monopoly over the distribution of table salt. Debt, entrenched vested interests, a frenzy of speculation, and an aging population are all pushing China toward an economic reckoning. China's Great Wall of Debt unravels an incredibly complex and opaque economy, one whose fortunes—for better or worse—will shape the globe like never before.

2017 Audie Winner: Inspirational/Faith-Based Non-Fiction Audiobook and Earphones Award from Audiofile Magazine The Awakening of HK Derryberry is the inspiring story of how one man was willing to step out of his upper middle-class world into the life of a young, disabled boy with a dismal future. Little did Jim Bradford know the transformational potential of that friendship—for HK and himself. HK Derryberry came into the world with the odds stacked heavily against him. He was taken from his unmarried mother's womb three months prematurely when she was killed in a car wreck. After ninety-six days of seesawing between life and death, HK's grandmother took him home. One Saturday morning Jim Bradford, a successful businessman in his mid-fifties, happens into Mrs. Winner's Chicken and Biscuits and sees a nine-year-old's head pressed down against a black plastic boom box with a crooked antenna and three strips of silver duct tape stretched across the battery cover. He can't help but notice the long, white plastic braces on each of the child's legs. Mr. Bradford learns that HK's grandmother is forced to bring him to the fast-food restaurant where she works, leaving him to sit alone all day at a small table, with only his boom box for company. On subsequent Saturdays Jim feels drawn back to the restaurant to meet with HK and begins spending every weekend with him. Eventually it becomes apparent that buried beneath HK's severe disabilities is one

He is diagnosed with Highly Superior Autobiographical Memory (HSAM), which involves superlative powers of recollection that enable him to remember everything that has happened to him since the age of three. Less than one hundred people have been diagnosed with HSAM, but none of them have the physical disabilities of HK Derryberry.

God is preparing a spiritual tsunami to sweep the nations and reclaim our culture for Christ, says author Johnny Enlow. He describes seven culture-shaping areas of influence over each society—media, government, education, economy, family, religion, and celebration (arts and entertainment)—that are the keys to taking a nation for the kingdom of God. The purpose of this book is to draw the church’s attention to these areas; help each individual determine his or her specific assignment in this mission; and then to offer insight into the nature of the battles involved in this “spiritual tsunami,” as the author calls it.

"It took months of God waking me up in the middle of the night before I realized I was the one He was calling to leave my comfortable American life and move to Haiti." Miracle on Voodoo Mountain is the inspirational memoir of an accomplished and driven 24-year old who quit her job, sold everything, and moved to Haiti, by herself—all without a clear plan of action. Megan Boudreaux had visited Haiti on a few humanitarian trips but each trip multiplied the sense that someone needed to address the devastation—especially with the children, many of whom were kept as household slaves on the poverty-stricken and earthquake-devastated Caribbean island. God guided her every step as she moved blindly to a foreign land without knowing the language, the people, or the future. From becoming the adoptive mother of former child slaves, to receiving the divine gift of the Haitian Creole language, to starting, building, and running a school for more than 500 children, "the amazingness of what God did after I made the choice to be obedient is incredible," said Megan. Three years later, six acres on Bellevue Mountain in Gressier is the home of the nonprofit Respire Haiti at the former site of voodoo worship, and in the area that many still come to make animal sacrifices, Megan and her staff of nearly 200 are transforming this community as they educate, feed, and address the needs.

when she witnessed the agony many Haitian women experienced when poverty -not lack of love-forced them to give up their children to orphanages, she was outraged. Soon, a new mission blossomed. As she came to better understand and appreciate the people of Haiti, Shelley had a vision of creating jobs that would help some parents earn an income so that they could support their babies and raise them to become productive adults. ...". Shelley's absolute passion and commitment for the human right to a dignified livelihood ... is palpable." -Jennifer Gootman, vice president, Social Consciousness & Innovation, West Elm Despite her own domestic challenges and, at times, the doubts about God's providence that arose after witnessing the devastation caused by earthquakes and hurricanes, Shelley's trial-and-error approach took hold. First, she taught a small group of mothers how to make artisanal products that she now markets worldwide. But she did not stop there. " ... what she's made of herself, as this unflinching story reveals, is a servant ... if this book doesn't inspire you, nothing will." -Mary Fisher, American activist and author Papillon Enterprise, which began as Apparent Project, now has a global reach that has been recognized and praised by Oprah, Vogue Magazine, The Gap, and designer Donna Karan. But there were many sacrifices and defeats along the way. As Shelley sought to reshape the economic landscape of a small nation in dire need of help, she also restored her own ravaged beliefs so that she and her family could emerge stronger and with their faith intact. This memoir is ideal for women of all faiths who know in their hearts that the cruel world can be transformed by love. For men, this unique search for truth sheds light on the undeniable power of the feminine spirit.

However, returning to 'normal' became impossible and Katie 'quit life' - college, designer clothes, her little yellow convertible and her boyfriend - for good, remaining in Uganda. In the early days she felt as though she were trying to empty the ocean with an eyedropper, but has learnt that she is not called to change the world in itself, but to change the world for one person at a time. By the age of 22 Katie had adopted 14 girls and founded Amizima Ministries which currently has sponsors for over 600 children and a feeding program for Uganda's poorest citizens - so it is no wonder she feels Jesus wrecked her life, shattered it to pieces, and put it back together making it more beautiful than it was before.

A thrilling chronicle of the tragedy-ridden history of climbing the world's most difficult and unpredictable mountain, by the bestselling authors of *The Mountain* and *No Shortcuts to the Top* Ed Viesturs, one of the world's premier high-altitude mountaineers, explores the remarkable history of K2 and of those who have attempted to conquer it. At the same time, he probes the mountain's most memorable sagas in order to illustrate lessons about the fundamental questions mountaineering raises—questions of risk, ambition, loyalty to one's teammates, self-sacrifice, and the price of glory. Viesturs knows the mountain firsthand. He and renowned alpinist Scott Fischer climbed it in 1992 and got caught in an avalanche that sent them sliding to almost certain death before Ed managed to get into a self-arrest position with his ice ax and stop both his fall and Scott's. Focusing on seven of the mountain's most dramatic campaigns, from his own troubled ascent to the 2008 tragedy, Viesturs crafts an edge-of-your-seat narrative that climbers and armchair travelers alike will find unforgettably compelling. This is Frankie San's story. Born in Tokyo to a Buddhist family, Frankie San's childhood was marked by sickness and quarantine, parental divorce, and fighting for Japan in WWII at 14 years of age. Experiencing major depression, he tried to end his life – but God had a better plan. Light filled Frankie San's heart and soul after an American missionary introduced him to Jesus Christ. Through miraculously opened doors, Frankie San traveled to the United States to attend seminary. He overcame cultural and language barriers and prayed for direction for his future. Direction came in the form of busses filled with prisoners. When Frankie learned where the busses took their prisoners, he surprised the director with his request to visit the prison and perplexed him when he wanted to remain. What happened next was incredible love confirmed by action, as Frankie literally believed and followed through on those famous words from Scripture: Inasmuch as ye have done it unto one of the least of these my brethren, ye have done it unto me (Matthew 25:40). Frankie San's life and testimony is unique, heartwarming, and inspiring. You'll be challenged to love those who can give nothing back, to truly trust Christ as you follow Him, and to persevere despite overwhelming odds. If it's not too late for prisoners on death row, it's not too late for you and me. Follow me, said Jesus, and I will make you fishers of men.

In 2019, America is bordering on financial collapse after engaging in a third conflict in Iraq. On the home front, the president has provided funding for stem cell research, but medical success is overshadowed after corporate greed intervenes. The intention to benefit those with the greatest need quickly disappears as the replication process is used to clone all major organs. With the advent of cloning, the inevitable occurs when Americas population reaches the saturation point. A chip is now implanted into all citizens, which signals when someone reaches the mandatory age of death. Years left on a chip are for sale, and the hunt for new chips is on. Meanwhile, overseas, the war rages, where people die irrespective of age. Lieutenant Roger DeMarco must put an end to the murder of entire innocent Iraqi villages by those who would harvest the enemy and civilians alike. Doctors are caught on opposing sides of science, and even a reality TV star becomes of national interest when he sells his chip and plans to slowly kill himself in a parade of hedonism. the body when evaluating new drugs. Dr. Joe does more than simply explore the history and the physiology of the placebo effect. He asks the question: "Is it possible to teach the principles of the placebo, and without relying on any external substance, produce the same internal changes in a person's health and ultimately in his or her life?" Then he shares scientific evidence (including color brain scans) of amazing healings from his workshops, in which participants learn his model of personal transformation, based on practical applications of the so-called placebo effect. The book ends with a "how-to" meditation for changing beliefs and perceptions that hold us back—the first step in healing. *You Are the Placebo* combines the latest research in neuroscience, biology, psychology, hypnosis, behavioral conditioning, and quantum physics to demystify the workings of the placebo effect . . . and show how the seemingly impossible can become possible.
