questions to make connections between topics, then apply this to exam-style questions at the end of each chapter. Get exam-ready with confidence: differentiated questions including 'Bronze, Silver, Gold' in each chapter, and a mixed problem-solving section for each book, will guide and help you to develop the skills you need for your exams. Designed to be used flexibly, the practice books are fully mapped to the scheme of work and textbooks so you can use them seamlessly in and out of the classroom and all year round. Use them lesson by lesson, topic by topic, for homework, revision and more - the choice is yours. Great value practice materials that are cheaper than photocopying, saves more time than independently sourcing questions and answers, and are all in one place.

This book contains 6 exam practice papers and it is aimed at year 10 end of year GCSE preparation mathematics examinations. These papers are written according to the year 10 & GCSE mathematics syllabuses mainly for schools in The United Kingdom. However, they can still be used as practice for other exams for 14 to 15 year old students as well. Each section contains 3 exam papers labelled as paper 1, paper 2 & paper 3 similar to the actual exam.

textbook, together with detailed mark schemes to make assessment easy. Two versions of each question are provided. One allows pupils to write their answers in the spaces provided and the other requires pupils to have separate writing paper. Questions can be grouped according to needs. Master grids are provided to cut and paste tests together in a consistent format to use the resource in any order. Chapter tests can be grouped to form a module test after chapters. End-of-chapter examinations can also be produced in this way. A free non-calculator supplement organized by unit/chapter is also included in this resource. Indexes the Times and its supplements.

This report summarizes the findings from both Army and Navy evaluations of the Personal Electronics Aid for Maintenance (PEAM), which is a prototype electronic technical information delivery system capable of displaying step-by-step procedural information to technicians during their performance of maintenance tasks. The results demonstrate a nearly 6:1 advantage of PEAM (and its emulation on other microcomputers over traditional, paper-based approaches to troubleshooting tasks, as well as a nearly 2:1 advantage in other tasks. The advantage was measured in terms of average errors per task. The report offers a set of enhanced functional characteristics based on lessons learned and supports electronic technical information delivery as a system for potentially reducing maintenance errors. Keywords: Maintenance; Maintenance aid; Job performance aid;
