

## Modern American History Edition Guided Answers

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Respected Christian educator, Dr. James Stobaugh, offers an entire year of high school American history curriculum in an easy to teach and comprehensive volume. American History: Observations & Assessments from Early Settlement to Today employs clear objectives and challenging assignments for the tenth grade student. From before the birth of our republic to the principles of liberty, American history trends, philosophies, and events are thoroughly explored. The following components are covered for the student: Critical thinking - Examinations of historical theories, terms, and concepts - History makers who changed the course of America - Overviews and insights into world views. Students will complete this course knowing the Christian influences that created a beacon of hope and opportunity that still draws millions to the United States of America.

How did mothers transform from parents of secondary importance in the colonies to having their multiple and complex roles connected to the well-being of the nation? In the first comprehensive history of motherhood in the United States, Jodi Vandenberg-Daves explores how tensions over the maternal role have been part and parcel of the development of American society. Modern Motherhood travels through redefinitions of motherhood over time, as mothers encountered a growing cadre of medical and psychological experts, increased their labor force participation, gained the right to vote, agitated for more resources to perform their maternal duties, and demonstrated their vast resourcefulness in providing for and nurturing their families. Navigating rigid gender role prescriptions and a crescendo of mother-blame by the middle of the twentieth century, mothers continued to innovate new ways to combine labor force participation and domestic responsibilities. By the 1960s, they were poised to challenge male expertise, in areas ranging from welfare and abortion rights to childbirth practices and the confinement of women to maternal roles. In the twenty-first century, Americans continue to struggle with maternal contradictions, as we pit an idealized role for mothers in children's development against the social and economic realities of privatized caregiving, a paltry public policy structure, and mothers' extensive employment outside the home. Building on decades of scholarship and spanning a wide range of topics, Vandenberg-Daves tells an

inclusive tale of African American, Native American, Asian American, working class, rural, and other hitherto ignored families, exploring sources ranging from sermons, medical advice, diaries and letters to the speeches of impassioned maternal activists. Chapter topics include: inventing a new role for mothers; contradictions of moral motherhood; medicalizing the maternal body; science, expertise, and advice to mothers; uplifting and controlling mothers; modern reproduction; mothers' resilience and adaptation; the middle-class wife and mother; mother power and mother angst; and mothers' changing lives and continuous caregiving. While the discussion has been part of all eras of American history, the discussion of the meaning of modern motherhood is far from over. It's the revolutionary American history study guide just for middle school students from the brains behind Brain Quest. Everything You Need to Ace American History . . . covers Native Americans to the war in Iraq. There are units on Colonial America; the Revolutionary War and the founding of a new nation; Jefferson and the expansion west; the Civil War and Reconstruction; and all of the notable events of the 20th century—World Wars, the Depression, the Civil Rights movement, and much more. The BIG FAT NOTEBOOK™ series is built on a simple and irresistible conceit—borrowing the notes from the smartest kid in class. There are five books in all, and each is the only book you need for each main subject taught in middle school: Math, Science, American History, English Language Arts, and World History. Inside the reader will find every subject's key concepts, easily digested and summarized: Critical ideas highlighted in neon colors. Definitions explained. Doodles that illuminate tricky concepts in marker. Mnemonics for memorable shortcuts. And quizzes to recap it all. The BIG FAT NOTEBOOKS meet Common Core State Standards, Next Generation Science Standards, and state history standards, and are vetted by National and State Teacher of the Year Award-winning teachers. They make learning fun, and are the perfect next step for every kid who grew up on Brain Quest.

In the twentieth century, countless Americans claimed gay, lesbian, bisexual, and transgender identities, forming a movement to secure social as well as political equality. This collection of essays considers the history as well as the historiography of the queer identities and struggles that developed in the United States in the midst of widespread upheaval and change. Whether the subject is an individual life story, a community study, or an aspect of public policy, these essays illuminate the ways in which individuals in various locales understood the nature of their desires and the possibilities of resisting dominant views of normality and deviance. Theoretically informed, but accessible, the essays shed light too on the difficulties of writing history when documentary evidence is sparse or coded. Taken together these essays suggest that while some individuals and social networks might never emerge from the shadows, the persistent exploration of the past for their traces is an integral part of the on-going struggle for queer rights.

Fourteen essays examine the unexpected relationships between government

power and intimate life in the last 150 years of United States history. The last few decades have seen a surge of historical scholarship that analyzes state power and expands our understanding of governmental authority and the ways we experience it. At the same time, studies of the history of intimate life—marriage, sexuality, child-rearing, and family—also have blossomed. Yet these two literatures have not been considered together in a sustained way. This book, edited and introduced by three preeminent American historians, aims to close this gap, offering powerful analyses of the relationship between state power and intimate experience in the United States from the Civil War to the present. The fourteen essays that make up *Intimate States* argue that “intimate governance”—the binding of private daily experience to the apparatus of the state—should be central to our understanding of modern American history. Our personal experiences have been controlled and arranged by the state in ways we often don’t even see, the authors and editors argue; correspondingly, contemporary government has been profoundly shaped by its approaches and responses to the contours of intimate life, and its power has become so deeply embedded into daily social life that it is largely indistinguishable from society itself. *Intimate States* makes a persuasive case that the state is always with us, even in our most seemingly private moments.

The *Take a Stand!* series teaches students how to be historians. They learn not what to think or memorize, but how to analyze the events of the past. This unique approach makes the student an active participation in the analysis of the past. This is the best of critical thinking, Socratic discussion, and analytical writing in history. The *Take a Stand!* series is not a set of textbooks, but rather thinking, reading, speaking, and writing guides. *Take a Stand!* shows the student how to be a historian. You will need to use history texts and documents to complete the *Take a Stand!* method. History Content: United States Became a World Power, Immigration, The Role of Religion in American Life, U.S. Imperialism, Civil Liberties in the 1920s, the Great Depression, The New Deal, World War II in the Pacific, The Cold War in the United States, The Civil Rights Movement, Nixon and Watergate, Technology as a Cause for Change Thinking and Writing Skills: Fact or Opinion? Judgment, Supporting Evidence, Primary or Secondary Analysis, Using Quotes, Paraphrasing, Thesis Statement, Conclusion, Outline for a One-Paragraph Essay, Rough Draft for a One-Paragraph Essay, Taking Notes, Thesis Statement for a Five Paragraph Essay, Rough Draft for a Five Paragraph Essay, Revising, Documenting Sources in a Text, Works Cited, Typing Guidelines, The Cover Page and Checklist, Thesis Statement for a Multi-Page Essay, Counter argument, Analyzing Primary Sources, Cause and Effect, Compare and Contrast, One-Paragraph Grading Rubric, Five-Paragraph Grading Rubric, Multi-Page Grading Rubric.

This encyclopedia covers American right-wing extremist groups and extremism from the 1930s to the present day, including neo-Nazis, the Ku Klux Klan, and various anti-government organizations. • Chronological presentation of the

specific groups and organizations provides historical insight into the development of right-wing extremism • Provides an up-to-date bibliography for further reading • Thorough cross-referencing of sources

Making the Modern American Fiscal State chronicles the rise of the US system of direct and progressive taxation.

The award-winning author of *Founding Brothers* and *The Quartet* now gives us a deeply insightful examination of the relevance of the views of George Washington, Thomas Jefferson, James Madison, and John Adams to some of the most divisive issues in America today. The story of history is a ceaseless conversation between past and present, and in *American Dialogue* Joseph J. Ellis focuses the conversation on the often-asked question "What would the Founding Fathers think?" He examines four of our most seminal historical figures through the prism of particular topics, using the perspective of the present to shed light on their views and, in turn, to make clear how their now centuries-old ideas illuminate the disturbing impasse of today's political conflicts. He discusses Jefferson and the issue of racism, Adams and the specter of economic inequality, Washington and American imperialism, Madison and the doctrine of original intent. Through these juxtapositions--and in his hallmark dramatic and compelling narrative voice--Ellis illuminates the obstacles and pitfalls paralyzing contemporary discussions of these fundamentally important issues.

It's the revolutionary world history study guide just for middle school students from the brains behind Brain Quest. *Everything You Need to Ace World History . . .* kicks off with the Paleolithic Era and transports the reader to ancient civilizations—from Africa and beyond; the middle ages across the world; the Renaissance; the age of exploration and colonialism, revolutions, and the modern world and the wars and movements that shaped it. The BIG FAT NOTEBOOK™ series is built on a simple and irresistible conceit—borrowing the notes from the smartest kid in class. There are five books in all, and each is the only one book you need for each main subject taught in middle school: Math, Science, American History, English, and World History. Inside the reader will find every subject's key concepts, easily digested and summarized: Critical ideas highlighted in marker colors. Definitions explained. Doodles that illuminate tricky concepts. Mnemonics for a memorable shortcut. And quizzes to recap it all. The BIG FAT NOTEBOOKS meet Common Core State Standards, Next Generation Science Standards, and state history standards, and are vetted by National and State Teacher of the Year Award-winning teachers. They make learning fun, and are the perfect next step for every kid who grew up on Brain Quest.

Contains rules and advice for improved effectiveness in written and oral English and a section explaining common grammatical errors

This book extends what we know about the development of civil rights and the role of the NAACP in American politics. Through a sweeping archival analysis of the NAACP's battle against lynching and mob violence from 1909 to 1923, this book examines how the NAACP raised public awareness, won over American

presidents, secured the support of Congress, and won a landmark criminal procedure case in front of the Supreme Court.

The Take a Stand! series teaches students how to be historians. They learn not what to think or memorize, but how to analyze the events of the past. This unique approach makes the student an active participation in the analysis of the past. This is the best of critical thinking, Socratic discussion, and analytical writing in history. The Take a Stand! series is not a set of textbooks, but rather thinking, reading, speaking, and writing guides. Take a Stand! shows the student how to be a historian. You will need to use history texts and documents to complete the Take a Stand! method. History Content: Western Political Thought, The Age of Revolution, The Age of Napoleon, The Industrial Revolution, The Age of Imperialism, Causes of World War I, Effects of World War I, The Rise of Totalitarianism, World War II - Causes of Appeasement, The Cold War in Europe, 1945-1960, The Cold War in Asia, Africa, and Latin America, 1945-1980 Thinking and Writing Skills: Fact or Opinion? Judgment, Supporting Evidence, Primary or Secondary Analysis, Using Quotes, Paraphrasing, Thesis Statement, Conclusion, Outline for a One-Paragraph Essay, Rough Draft for a One-Paragraph Essay, Taking Notes, Thesis Statement for a Five Paragraph Essay, Rough Draft for a Five Paragraph Essay, Revising, Documenting Sources in a Text, Works Cited, Typing Guidelines, The Cover Page and Checklist, Thesis Statement for a Multi-Page Essay, Counter argument, Analyzing Primary Sources, Cause and Effect, Compare and Contrast, One-Paragraph Grading Rubric, Five-Paragraph Grading Rubric, Multi-Page Grading Rubric.

This guide will give you an overview of American history from early, Native American history to modern times. It covers the milestones of the country's history, provides biographical sketches of the most important figures of each era, gives a chronologies of the nation's leaders, and defines key historical terms. From Colonization to the Space Race, this is the story of America's successes and failures. Learn how the Civil War, Emancipation Proclamation, Industrialization, Labor Movement, WWI, Prohibition, the Great Depression, WWII, the Cold War, and the Space Race molded a nation. Start your journey through American History today with *US History: An Overview of the Most Important People & Events*. The History of United States: From Indians to Contemporary History of America, 4th Edition. Get Your Copy Today!

An exploration of how technology and best intentions collide in the heat of war A New York Times Book Review Editors' Choice In *The Bomber Mafia*, Malcolm Gladwell weaves together the stories of a Dutch genius and his homemade computer, a band of brothers in central Alabama, a British psychopath, and pyromaniacal chemists at Harvard to examine one of the greatest moral challenges in modern American history. Most military thinkers in the years leading up to World War II saw the airplane as an afterthought. But a small band of idealistic strategists, the "Bomber Mafia," asked: What if precision bombing could cripple the enemy and make war far less lethal? In contrast, the bombing of Tokyo on the deadliest night of the war was the brainchild of General Curtis LeMay, whose brutal pragmatism and scorched-earth tactics in Japan cost thousands of civilian lives, but may have spared even more by averting a planned US invasion. In *The Bomber Mafia*, Gladwell asks, "Was it worth it?" Things might have gone differently had LeMay's predecessor, General Haywood Hansell, remained in charge. Hansell believed in precision bombing, but when he and Curtis LeMay squared off for a leadership handover in the jungles of Guam, LeMay emerged victorious, leading to the darkest night of World War II. *The Bomber Mafia* is a riveting tale of persistence, innovation, and the incalculable wages of war.

On Wall Street, in the culture of high tech, in American government: Libertarianism—the simple but radical idea that the only purpose of government is to protect its citizens and their property against direct violence and threat—has become an extremely influential strain of thought. But while many books talk about libertarian ideas, none until now has explored the history of this uniquely American movement—where and who it came from, how it evolved, and what impact it has had on our country. In this revelatory book, based on original research and interviews with more than 100 key sources, Brian Doherty traces the evolution of the movement through the unconventional life stories of its most influential leaders—Ludwig von Mises, F.A. Hayek, Ayn Rand, Murray Rothbard, and Milton Friedman—and through the personal battles, character flaws, love affairs, and historical events that altered its course. And by doing so, he provides a fascinating new perspective on American history—from the New Deal through the culture wars of the 1960s to today's most divisive political issues. Neither an exposé nor a political polemic, this entertaining historical narrative will enlighten anyone interested in American politics.

In this Second Edition of this radical social history of America from Columbus to the present, Howard Zinn includes substantial coverage of the Carter, Reagan and Bush years and an Afterword on the Clinton presidency. Its commitment and vigorous style

mean it will be compelling reading for under-graduate and post-graduate students and scholars in American social history and American studies, as well as the general reader.

How has a game brought together Americans and defined separate ethnic communities? This book tells the first history of mahjong and its meaning in American culture. Click-click-click. The sound of mahjong tiles connects American expatriates in Shanghai, Jazz Age white Americans, urban Chinese Americans in the 1930s, incarcerated Japanese Americans in wartime, Jewish American suburban mothers, and Air Force officers' wives in the postwar era. *Mahjong: A Chinese Game and the Making of Modern American Culture* illustrates how the spaces between tiles and the moments between games have fostered distinct social cultures in the United States. This mass-produced game crossed the Pacific, creating waves of popularity over the twentieth century. Annelise Heinz narrates the history of this game to show how it has created a variety of meanings, among them American modernity, Chinese American heritage, and Jewish American women's culture. As it traveled from China to the United States and caught on with Hollywood starlets, high society, middle-class housewives, and immigrants alike, mahjong became a quintessentially American game. Heinz also reveals the ways in which women leveraged a game to gain access to respectable leisure. The result was the forging of friendships that lasted decades and the creation of organizations that raised funds for the war effort and philanthropy. No other game has signified both belonging and standing apart in American culture. Drawing on photographs, advertising, popular media, and dozens of oral histories, Heinz's rich and colorful account offers the first history of the wildly popular game of mahjong.

Ghosts. Railroads. Sing Sing. Sex machines. These are just a few of the phenomena that appear in John Lardas Modern's pioneering account of religion and society in nineteenth-century America. This book uncovers surprising connections between secular ideology and the rise of technologies that opened up new ways of being religious. Exploring the eruptions of religion in New York's penny presses, the budding fields of anthropology and phrenology, and *Moby-Dick*, Modern challenges the strict separation between the religious and the secular that remains integral to discussions about religion today. Modern frames his study around the dread, wonder, paranoia, and manic confidence of being haunted, arguing that experiences and explanations of enchantment fueled secularism's emergence. The awareness of spectral energies coincided with attempts to tame the unruly fruits of secularism—in the cultivation of a spiritual self among Unitarians, for instance, or in John Murray Spear's erotic longings for a perpetual motion machine. Combining rigorous theoretical inquiry with beguiling historical arcana, Modern unsettles long-held views of religion and the methods of narrating its past.

The bestselling *Politically Incorrect Guide to American History* reveals facts that you won't be--or never were--taught in school, tells you about the "Books You're Not Supposed to Read," and gives you all the information you need to battle and confound left-wing professors, neighbors, and friends.

This book is a comprehensive overview of the history and culture of the peoples who are now known as the First Americans. Author Walter C. Fleming covers the many different tribes that stretched from the Atlantic to the Pacific, including compelling biographies of their greatest leaders. He examines the beliefs, customs, legends and

the myriad contributions Native Americans have given to modern society, and details the often tragic history of their conquest by European invaders, their treatment—both historical and recent—under the U.S. government, and the harsh reality of life on today's reservations.

A guide to proper American English word usage, grammar, pronunciation, and style features examples of good and bad usage from the media.

From slavery to Jim Crow segregation, racism has a long, deeply rooted history in the United States. *The History of Racism in America* explores this history and how these inequalities are still visible today. Easy-to-read text, vivid images, and helpful back matter give readers a clear look at this subject. Features include a table of contents, infographics, a glossary, additional resources, and an index. Aligned to Common Core Standards and correlated to state standards. Core Library is an imprint of Abdo Publishing, a division of ABDO.

Every day Americans make decisions about their privacy: what to share, how much to expose to whom. Securing the boundary between private affairs and public identity has become a central task of citizenship. Sarah Igo pursues this elusive social value across the twentieth century, as individuals asked how they should be known by their own society.

This Oxford Handbook comprehensively examines the field of Latin American history. *The Republic of Color* delves deep into the history of color science in the United States to unearth its origins and examine the scope of its influence on the industrial transformation of turn-of-the-century America. For a nation in the grip of profound economic, cultural, and demographic crises, the standardization of color became a means of social reform—a way of sculpting the American population into one more amenable to the needs of the emerging industrial order. Delineating color was also a way to characterize the vagaries of human nature, and to create ideal structures through which those humans would act in a newly modern American republic. Michael Rossi's compelling history goes far beyond the culture of the visual to show readers how the control and regulation of color shaped the social contours of modern America—and redefined the way we see the world.

For the past three decades, many history professors have allowed their biases to distort the way America's past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America's patriots and the achievements of "dead white men." As a result, more emphasis is placed on Harriet Tubman than on George Washington; more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima; more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin. *A Patriot's History of the United States* corrects those doctrinaire biases. In this groundbreaking book, America's discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty, and private property that make this nation uniquely successful. This book offers a long-overdue acknowledgment of America's true and proud history.

"I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," *Leaves of Grass* *The American Yawp* is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an

accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, The American Yawp incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of The American Yawp will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. The American Yawp traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, The American Yawp gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

This hugely influential work marked a turning point in US history and culture, arguing that the nation's expansion into the Great West was directly linked to its unique spirit: a rugged individualism forged at the juncture between civilization and wilderness, which – for better or worse – lies at the heart of American identity today. Throughout history, some books have changed the world. They have transformed the way we see ourselves – and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives – and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.

A comprehensive reference to Asian American history reveals the key events and personalities while also exploring the historical debates that rage around their interpretation.

"To an astonishing extent, the 1920s resemble our own era, at the turn of the twenty-first century; in many ways that decade was a precursor of modern excesses....Much of what we consider contemporary actually began in the Twenties." -- from the Introduction The images of the 1920s have been indelibly imprinted on the American imagination: jazz, bootleggers, flappers, talkies, the Model T Ford, Babe Ruth, Charles Lindbergh's history-making flight over the Atlantic. But it was also the era of the hard-won vote for women, racial injustice, censorship, widespread social conflict, and the birth of organized crime.

Bookended by the easy living of the Jazz Age, when the booze and money flowed seemingly without end, and the crash of '29 that led to breadlines and a level of human suffering not seen since World War I, *New World Coming* is a lively, entertaining, and all-encompassing chronological account of an age that

defined America. Chronicling what he views as the most consequential decade of the past century, Nathan Miller -- an award-winning journalist and five-time Pulitzer nominee -- paints a vivid portrait of the 1920s, focusing on the men and women who shaped that extraordinary time, including, ironically, three of America's most conservative presidents: Harding, Coolidge, and Hoover. In the Twenties, the American people soared higher and fell lower than they ever had before. As unprecedented economic prosperity and sweeping social change dazzled the public, the sensibilities and restrictions of the nineteenth century vanished, and many of the institutions, ideas, and preoccupations of our own age emerged. With scandal, sex, and crime the lifeblood of the tabloids, the contemporary culture of celebrity and sensationalism took root and journalism became popular entertainment. By discarding Victorian idealism and embracing twentieth-century skepticism, America became, for the first time, thoroughly modernized. There is hardly a dimension of our present world, from government to popular culture, that doesn't trace its roots to the 1920s, and few decades are more intriguing or significant today. The first comprehensive view of the era since *Only Yesterday*, Frederick Lewis Allen's 1931 classic, *New World Coming* reveals this remarkable age from the vantage point of nearly a century later. It's all here -- the images and the icons, the celebrities and the legends -- in a book that will resonate with history readers, 1920s aficionados, and Americans everywhere. The *Take a Stand!* series teaches students how to be historians. They learn not what to think or memorize, but how to analyze the events of the past. This unique approach makes the student an active participation in the analysis of the past. This is the best of critical thinking, Socratic discussion, and analytical writing in history. The *Take a Stand!* series is not a set of textbooks, but rather thinking, reading, speaking, and writing guides. *Take a Stand!* shows the student how to be a historian. You will need to use history texts and documents to complete the *Take a Stand!* method. The Teacher's Edition has all of the pages of the Student's book and contains answers to the research activities. Included also is a series of lessons for the teacher on how to teach *Take a Stand!*, how to lead the Socratic Discussion, and how to assign and grade writing assignments in history. Thinking and Writing Skills: Fact or Opinion? Judgment, Supporting Evidence, Primary or Secondary Analysis, Using Quotes, Paraphrasing, Thesis Statement, Conclusion, Outline for a One-Paragraph Essay, Rough Draft for a One-Paragraph Essay, Taking Notes, Thesis Statement for a Five Paragraph Essay, Rough Draft for a Five Paragraph Essay, Revising, Documenting Sources in a Text, Works Cited, Typing Guidelines, The Cover Page and Checklist, Thesis Statement for a Multi-Page Essay, Counter argument, Analyzing Primary Sources, Cause and Effect, Compare and Contrast, One-Paragraph Grading Rubric, Five-Paragraph Grading Rubric, Multi-Page Grading Rubric. This text provides in-depth balanced content covering the beginnings of U.S. history through the present.

"The Conservative Collection" reinforces fundamental holdings of the Right. A

strong, free, and thriving America requires us to value our founding principles and apply them in a modern world. Yet constant assaults on the very philosophies that birthed American exceptionalism jeopardize our sustained superiority. It, therefore, falls upon Conservatives to reenergize, inform, and strengthen the citizenry with the truths and successes stemming from conservatism. We need a strong America, one which will continue to be the home of liberty and prosperity. Discussed within "The Conservative Collection" are eleven areas of conservative concern: Conservative History, Individual Liberty, The Legislature, The Executive, The Judiciary, Economic Strength, Educational Strength, Military Strength, Personal Responsibility, International Leadership, and Moving America Forward. In our unique nation of states, built upon the pillars of liberty and opportunity, we are responsible for protecting the blessings of freedom and ensuring our future welfare; "The Conservative Collection" looks to aid others in achieving those most-noble duties. A series of short essays complete this work, divided between the book's eleven sections. Not only does "The Conservative Collection" focus significant attention toward government and politics but also on character development and individual maturity. All Americans (Conservative or otherwise) must be leaders in a turbulent world-something not accomplished without purpose and principle.
