When poor Boston girl Stephanie is abandoned by her abusive mother and taken in by Annie's Beverly Hills family, she feels anything but home. Her dark complexion and accent stick out like a sore thumb in the golden-hued world of blondes and extravagance. These are girls who seem to live life in fastforward, while Stephanie is stuck on pause. Yet when a new rival moves to town, threatening Annie's queen-bee status, Stephanie finds herself taking sides in a battle she never even knew existed, and that feeling invisible is a wound that can only be healed by standing up for who she is. Brilliant newcomer Mary Hanlon Stone delivers a compulsively readable insider's view of growing up in a world where money and privilege don't always glitter. History of pastor's ministry in one place. Mysterious, revealing and prophetic, this historically relevant modern thriller explores religious authority while providing a wild ride of international intrigue and danger. Principles of Physics is a well-established popular textbook which has been completely revised and updated.

For American artists of the 19th century, Paris offered famous teachers, willing models, cheap lodgings, and museums filled with art. The Lure of Paris is the first book to investigate so thoroughly the experiences of these American artists. Exhaustively researched and lavishly illustrated, this groundbreaking study will be requisite for collectors, scholars and everyone curious about America's cultural history.

Further, Deeper, Weirder Explorations of Fringe Culture
The second volume of this highly successful exploration of fringe culture delves into the worlds of fashion, UFOlogy, conspiracy theory and other milieux too numerous to mention and too good to be true (but they are).

Attempting to reconcile the law's need for workable rules of evidence with the views of scientific validity and reliability. What is scientific knowledge and when is it reliable? These deceptively simple questions have been the source of endless controversy. In 1993, the Supreme Court handed down a landmark ruling on the use of scientific evidence in federal courts. Federal judges may admit expert scientific evidence only if it merits the label scientific knowledge. The testimony must be scientifically reliable and valid. This book is organized around the criteria set out in the 1993 ruling. Following a general overview, the authors look at issues of fit--whether a plausible theory relates specific facts to the larger factual issues in contention; philosophical concepts such as the falsifiability of scientific claims; scientific error; reliability in science, particularly in fields such as epidemiology and toxicology; the meaning of scientific validity; peer review and the problem of boundary setting; and the risks of confusion and prejudice when presenting science to a jury. The book's conclusion attempts to reconcile the law's need for workable rules of evidence with the views of scientific validity and reliability that emerge from science and other disciplines.

For decades, polygamous families have been forced to hide their lifestyle. But this first-ever memoir of a polygamous family is a riveting inside look at a world we can hardly imagine, revealing the extraordinary workings of one family's day-to-day life. In this intimate story, the Dargers explain why they chose this path despite the pressures of keeping their relationships secret and the jealousy and personal challenges that naturally ensue; why they believe polygamy should be an accepted lifestyle; and, ultimately, why they hope that by revealing their way of life in public, laws that criminalize polygamy might change. Despite the risk of legal action, the Dargers know that it's time to counteract Hollywood's sensational interpretation and the general public's misunderstanding of polygamy with the truth.

How do you ignore a ghost? Sparrow Delaney absolutely, positively does not want to be a medium like her six older sisters, her mother, and her grandmother. She does not want to see, hear, smell, or talk to ghosts. If she sticks to her rules and doesn't let anyone know that she can do all those things—everywhere, all the time—Sparrow just might pass as a normal tenth grader at her new high school. She makes a new best friend and meets an irritatingly appealing guy in her history class. But when another boy catches her eye, all Sparrow's dreams of being ordinary go up in smoke. Because this boy is a dead one—a persistent, charming, infuriating ghost, who won't let her be until she agrees to help him Move On.

From the award-winning author of *Babyji* comes an utterly seductive tale of an aging writer whose involvement with a young woman forces him to face the eternal question of love. Prem Rustum, a famous but reclusive Indian author, has spent most of his life consumed with writing. Feeling the weight of his seventy-five years, he resolves to put down his pen and live a little. He ventures online where he finds Maya, an aspiring young novelist who has boldly posted her admiration for Prem's work. Captivated by her charm, Prem decides on impulse to join her in the City of Light. During the summer that follows, Maya brings Prem into direct confrontation with his mortality and desires through the awakening of new longings and the rekindling of old ones. Written with sureness of style and tempo, *That Summer in Paris* reflects on how art informs love, and love, literature. Packed with puzzles and activities: odd one out, counting and

"The rise and fall of kings and nations!"--Cover.

In Learning with Information Systems the author takes the developing world as the context and through a series of case studies develops a commonly used systems analysis methodology. He demonstrates how this methodology can evolve and adapt as new ideas become prominent. Issues of sustainability of information systems, participation in systems design and user ownership of systems are all examined. This book does not attempt to be prescriptive for all contexts nor does it focus on any particular technology. It addresses the essential questions and promises practical approaches which will help in the avoidance of the worst forms of disaster associated with the planning of information systems for developing countries.

A study of the first half of the biblical book of Ezekiel with commentary on what his message could mean for the church in the twentieth century.

We have the capability to win in the Middle East. The only question is whether we have the resolve. At the start of the Civil War, many Northerners anticipated a quick victory. The New York Times predicted victory in 30

days. By 1863, the war was being denounced in Congress as an utter, disastrous, and most bloody failure, while President Lincoln and his administration were despised for their incompetence. "There never was such a shambling, half-and-half set of incapables collected in one government, before or since the world began," a Liberal senator said in disgust. To-day President Lincoln is considered to be the best of all our Presidents. Just as then, we have to choose between resolve and retreat, with no guarantees about how it will end. All we can be sure of is that the stakes once again are liberty and decency versus tyranny and terror. We are fighting an enemy that feeds on weakness and expects us to lose heart. The world for generations to come will remember if we flinch. The aggressive measures the President took after 9/11/2001, have kept us safe. As a consequence, Liberals have the luxury and freedom of being able to hate him. History will see it differently. Liberals see a monster instead of a political opponent and multilayered issues as evil.

When Obama stated that if elected, he would keep his Blackberry, debate echoed through Washington and among the ranks of the Secret Service. What would it be like to have a president who could Twitter, send text messages, and navigate the web with ease? What would it be like to receive a text message from inside the Oval Office and, most importantly, what would it say? Now, for the first time, We The People are privy to our new leader's epistolary back-and-forths on his wily hand-held device. We're about to discover that his emails (and the replies, from his wife and daughters, Biden, Palen, Rush,

go of the past. When it comes back to haunt her - literally - she's forced to face her regrets, even as she tries to decide whether to believe her high school sweetheart's crazy stories about ghosts and drug cartels. Can Sylvie let go of the past and embrace the future? And can Dillon keep his mom alive long enough for her to live happily ever after with his dad?

Passions are high in education, and this edited volume offers bold new ways to conceive of the affective intensities shaping our present historical moment.

Concerns over school practices deemed "ineffective," "disruptive," "irrational," or even "promising" are matters modulated by and through feelings, such as, optimism, shame, enhanced concentration, or empathy. The recent turn to affect offers vibrant methodological and theoretical material for an educational present marked by high stakes rhetoric, heated debate, teacher and student vulnerabilities, and extreme educational measures.

Affect studies are a part of new materialist and post-humanist turns, and this volume connects these new theoretical directions within education. This comprehensive volume on affect crosses educational subfields and responds to the transdisciplinary interest in thinking through pedagogy, education, and feeling. This comprehensive reader addresses affect in education from a wide range of styles, topics, and perspectives.

This collection offers an introduction to theory, empirical research studies, interviews with affect studies scholars, and an assessment of the current and future significance of affect studies in education. Contributors utilize a range of theoretical and interpretive approaches to thinking with

Intensely private radio personality Art Bell, who lives in the middle of the desert 65 miles west of Las Vegas--where he broadcasts his radio shows--finally comes forward with his fascinating autobiography.

When a bad day at work culminates in losing out on a promotion, Jim Sanders shifts into his animal form to let off steam. Then his bad day turns into a bad night--while prowling his Atlantic City neighborhood as a large gray house cat, he's caught in a torrential downpour. What little luck he has washes down the gutter when his new boss, Andrew Wright, catches him taking shelter on his porch, brings him inside, and starts calling him Mr. Frosty. As a feline, Jim becomes the inadvertent confessor for his boss's lonely son, Tony, a victim of schoolyard bullying. As a human, he feels drawn to Andrew, a man he wanted to resent. Finding love was never part of Jim's plan for the future--not with his bizarre secret--yet suddenly he finds himself navigating that minefield anyway.
