The Japanese in MangaLand series from JPT introduced language learners to an innovative, entertaining and educationally-sound way of learning Japanese through the use of manga. Now, this same approach is applied to the often-daunting task of mastering kanji - the Chinese ideograms - in Kanji in MangaLand, the first of a 3-volume course covering the 1,006 basic kanji characters. Aimed at Western students aged 12 - 25, the Kanji in MangaLand program differs from traditional methods in that it uses distinct drawings for the "parts" that form each kanji character; then it shows a manga-style illustration to help the student connect the shapes and the meaning. In addition, the books present information on compound words, stroke order, meaning and such unique features as identifying similar-looking kanji and alternative or older shapes for the same character. Kanji in MangaLand Levels 1 & 2 includes 21 lessons. The first seven of these cover all 80 kanji characters learnt by Japanese children in their first primary school year. Lessons 8-21 cover the 160 kanji studied in the next year. In every lesson, the student will learn 8 to 12 kanji and then move on to the exercise section, which features one page of manga using all the characters learnt in that lesson; a page of different types of exercises; and a page with the correct answers, translations and a summary of the new drawing-compounds that will appear in the next lesson. The book also has two special exercise parts - one at the end of each level - as well as indexes of kanji and reading. With manga sales booming - in 2006, they approached \$200 million - and interest in learning Japanese skyrocketing as well, the Kanji in MangaLand series is the perfect blend of entertainment and solid language instruction to make learning fun and effective.

The second teaches the usage rules that allow students to write all Japanese sounds, providing more opportunities for practice. This is a fun and entertaining beginner level children's Japanese language book (9 years old and up) that is also appropriate for adults. I'm Learning Japanese takes a light-hearted approach to the Japanese language by using fun anime-style manga characters to teach Japanese. However, it does not scrimp on content and covers everything from Japanese kanji, kana and grammar to Japanese culture and customs. The book starts out with the main characters, Emily, Nico and Teo sitting on the grass after school, minding their own business, when—unbelievable!—a giant talking fox dressed in a kimono appears. Explaining that he knows magic, speaks 3,000 languages and is respected as a sensei (master), he wonders if the three kids are ready to learn Japanese from him. During the next 128 amusing pages, the three friends learn to speak Japanese, read Japanese and write Japanese...along with taking breaks to try Japanese hot-spring baths, sumo wrestling, Zen meditation and more. Focusing on exactly what the 9 to 13-year-old learner wants to know, this book is carefully set up to allow them to learn Japanese independently, at their own speed, without an adult's help. Every page of I'm Learning Japanese! is in full color and the illustrated comic book-approach, with its speech bubbles and funny side remarks, makes the learning seem to fly. It gives preteens a fun grounding in the language and one that's accurate and practical. Nothing they learn here is "watered down" or will ever need to be unlearned, should they continue on with their Japanese language studies in school or later in life.
