America's leading religious scholar and public intellectual introduces lay readers to the Qur'an with a measured, powerful reading of the ancient text Garry Wills has spent a lifetime thinking and writing about Christianity. In *What the Qur'an Meant*, Wills invites readers to join him as he embarks on a timely and necessary reconsideration of the Qur'an, leading us through perplexing passages with insight and erudition. What does the Qur'an actually say about veiling women? Does it justify religious war? There was a time when ordinary Americans did not have to know much about Islam. That is no longer the case. We blundered into the longest war in our history without knowing basic facts about the Islamic civilization with which we were dealing. We are constantly fed false information about Islam--claims that it is essentially a religion of violence, that its sacred book is a handbook for terrorists. There is no way to assess these claims unless we have at least some knowledge of the Qur'an. In this book Wills, as a non-Muslim with an open mind, reads the Qur'an with sympathy but with rigor, trying to discover why other non-Muslims--such as Pope Francis--find it an inspiring book, worthy to guide people down through the centuries. There are many traditions that add to and distort and blunt the actual words of the text. What Wills does resembles the work of art restorers who clean away accumulated layers of dust to find the original meaning. He compares the Qur'an with other sacred books, the Old Testament and the New Testament, to show many parallels between them. There are also parallel difficulties of interpretation, which call for patient exploration--and which offer some thrills of discovery. *What the Qur'an Meant* is the opening of a conversation on one of the world's most practiced religions.

Providing an analysis of the complete story of Mary in its liturgical, narrative and rhetorical contexts, this literary reading is a prerequisite to any textual reading of the Qur'an whether juristic, theological, or otherwise. Intertextuality between the Old Testament, New Testament and the Qur'an. The Qur'an is an oral event, linguistic phenomenon and great literature. So the application of modern literary theories is essential to have full comprehension of the history of the development of literary forms from pre-Islamic period such as poetry, story telling, speech-giving to the present. In addition, there is a need, from a feminist perspective, to understand in depth why a Christian mother figure such as Mary was important in early Islam and in the different stages of the development of the Qur'an as a communication process between Muhammad and the early Muslim community. Introducing modern literary theories, gender perspective and feminist criticism into Qur'anic scholarship for the first time, this book will be an invaluable resource for scholars and researchers of Islamic Studies, Qur'anic and New Testament Studies, Comparative Literature and Feminist Theology.

This pioneering study examines the process of reasoning in Islamic law. Some of the key questions addressed here include whether sacred law operates differently from secular law, why laws change or stay the same and how different cultural and historical settings impact the development of legal rulings. In order to explore these questions, the author examines the decisions of thirty jurists from the largest legal tradition in Islam: the Hanafi school of law. He traces their rulings on the question of women and communal prayer across a very broad period of time - from the eighth to the eighteenth century - to demonstrate how jurists interpreted the law and reconciled their decisions with the scripture and the sayings of the Prophet. The result is a fascinating overview of how Islamic law has evolved and the thinking behind individual rulings.

A “timely and provocative” biography of Islam’s foundational text: “The history of the book is a map of the world we live in today” (Tribune-Review). Few books in history have been as poorly understood as the Qur’an. Sent down in a series of revelations to the Prophet Muhammad, the Qur’an is the unmediated word of Allah: a ritual, political, and legal authority; an ethical and spiritual guide; and a literary masterpiece that inspires devotion, passion, fear, and sometimes incomprehension. In *The Qur’an*, historian and Islamic Studies professor Bruce Lawrence shows precisely how the Qur’an is the embodiment of Islam. He describes the origins of the faith in seventh-century Arabia and explains why the Qur’an is memorized and recited by devout Muslims. Lawrence also discusses the Qur’an’s commentators and doubters and assesses its tremendous influence on today’s societies and politics. Above all, Lawrence emphasizes that the Qur’an is a sacred book of signs that cannot be reduced to a single, obvious message. It is a book that demands interpretation and one that can be properly understood only through its long and storied history. “An important work for those seeking to understand—and defend—Islam.” —Kirkus Reviews

They knew us before we began to walk upright. Shamans called them guardians, mythmakers called them tricksters, pagans called them gods, churchmen called them demons, folklorists called them shape-shifters. They’ve obligingly taken any role we’ve assigned them, and, while needing nothing from us, have accepted whatever we thought was their due – love, hate, fear, worship, condemnation, neglect, oblivion. Even in modern times, when their existence is doubted or denied, they continue to extend invitations to those who would travel a different road, a road not found on any of our cultural maps. But now, perceiving us as a threat to life itself, they issue their invitations with a dark purpose of their own. In this dazzling metaphysical thriller, four who put themselves in the hands of these all-but-forgotten Others venture across a sinister American landscape hidden from normal view, finding their way to interlocking destinies of death, terror, transcendental rapture, and shattering enlightenment.
