

My Vision Challenges In The Race For Excellence

#1 NEW YORK TIMES BESTSELLER • ONE OF ESSENCE'S 50 MOST IMPACTFUL BLACK BOOKS OF THE PAST 50 YEARS In this iconic memoir of his early days, Barack Obama “guides us straight to the intersection of the most serious questions of identity, class, and race” (The Washington Post Book World). “Quite extraordinary.”—Toni Morrison In this lyrical, unsentimental, and compelling memoir, the son of a black African father and a white American mother searches for a workable meaning to his life as a black American. It begins in New York, where Barack Obama learns that his father—a figure he knows more as a myth than as a man—has been killed in a car accident. This sudden death inspires an emotional odyssey—first to a small town in Kansas, from which he retraces the migration of his mother’s family to Hawaii, and then to Kenya, where he meets the African side of his family, confronts the bitter truth of his father’s life, and at last reconciles his divided inheritance. Praise for *Dreams from My Father* “Beautifully crafted . . . moving and candid . . . This book belongs on the shelf beside works like James McBride’s *The Color of Water* and Gregory Howard Williams’s *Life on the Color Line* as a tale of living astride America’s racial categories.”—Scott Turow “Provocative . . . Persuasively describes the phenomenon of belonging to two different worlds, and thus belonging to neither.”—The New York Times Book Review “Obama’s writing is incisive yet forgiving. This is a book worth savoring.”—Alex Kotlowitz, author of *There Are No Children Here* “One of the most powerful books of self-discovery I’ve ever read, all the more so for its illuminating insights into the problems not only of race, class, and color, but of culture and ethnicity. It is also beautifully written, skillfully layered, and paced like a good novel.”—Charlayne Hunter-Gault, author of *In My Place* “*Dreams from My Father* is an exquisite, sensitive study of this wonderful young author’s journey into adulthood, his search for community and his place in it, his quest for an understanding of his roots, and his discovery of the poetry of human life. Perceptive and wise, this book will tell you something about yourself whether you are black or white.”—Marian Wright Edelman

Can blockchain solve your biggest business problem? While the world is transfixed by bitcoin mania, your competitors are tuning out the noise and making strategic bets on blockchain. Your rivals are effortlessly tracking every last link in their supply chains. They're making bureaucratic paper trails obsolete while keeping their customers' data safer and discovering new ways to use this next foundational technology to sustain their competitive advantage. What should you be doing with blockchain now to ensure that your business is poised for success? "Blockchain: The Insights You Need from Harvard Business Review" brings you today's most essential thinking on blockchain, explains how to get the right initiatives started at your company, and prepares you to seize the opportunity of the coming blockchain wave. Business is changing. Will you adapt or be left behind? Get up to speed and deepen your understanding of the topics that are shaping your company's future with the Insights You Need from Harvard Business Review series. Featuring HBR's smartest thinking on fast-moving issues--blockchain, cybersecurity, AI, and more--each book provides the foundational introduction and practical case studies your organization needs to compete today and collects the best research, interviews, and analysis to get it ready for tomorrow. You can't afford to ignore how these issues will transform the

landscape of business and society. The Insights You Need series will help you grasp these critical ideas--and prepare you and your company for the future.

An expert in Arab Gulf politics offers a revealing analysis of the region's stunning rise to global power and the challenges it confronts today. Once just sleepy desert sheikdoms, the Arab Gulf states of Saudi Arabia, Oman, the United Arab Emirates, Qatar, Bahrain, and Kuwait now exert unprecedented influence on international affairs—the result of their almost unimaginable riches in oil and gas. In this accessible study, Gulf politics expert Rory Miller examines the achievements of these countries since the 1973 global oil crisis. He also investigates how the shrewd Arab Gulf rulers who have overcome crisis after crisis meet the unpredictable future. The Arab Gulf region has become a global hub for travel, tourism, sports, culture, trade, and finance. But can the autocratic regimes maintain stability at home and influence abroad as they deal with the demands of social and democratic reform? Miller considers an array of factors—Islamism, terrorism, the Arab Spring, volatile oil prices, global power dynamics, and others—to assess the region's future possibilities.

This book explores the nature of Britain-based artists' engagement with the transformations of their environment since the early days of the Industrial Revolution. At a time of pressing ecological concerns, the international group of contributors provide a series of case studies that reconsider the nature–culture divide and aim at identifying the contours of a national narrative that stretches from enclosed lands to rising seas. By adopting a longer historical view, this book hopes to enrich current debates concerning art's engagement with recording and questioning the impact of human activity on the environment. The book will be of interest to scholars working in art history, contemporary art, environmental humanities, and British studies.

Innovations and Challenges in Applied Linguistics from the Global South provides an original appraisal of the latest innovations and challenges in applied linguistics from the perspective of the Global South. Global South perspectives are encapsulated in struggles for basic, economic, political and social transformation in an inequitable world, and are not confined to the geographical South. Taking a critical perspective on Southern theories, demonstrating why it is important to view the world from Southern perspectives and why such positions must be open to critical investigation, this book: charts the impacts of these theories on approaches to multilingualism, language learning, language in education, literacy and diversity, language rights and language policy; provides broad historical and geographical understandings of the movement towards a Southern perspective and draws on Indigenous and Southern ways of thinking that challenge mainstream viewpoints; seeks to develop alternative understandings of applied linguistics, expand the intellectual repertoires of the discipline, and challenge the complicities between applied linguistics, colonialism, and capitalism. Written by two renowned scholars in the field, Innovations and Challenges in Applied Linguistics from the Global South is key reading for advanced students and researchers of applied linguistics, multilingualism, language and education, language policy and planning, and language and identity.

This thought-provoking collection examines the challenge of teacher shortages that is of international concern. It presents multiple perspectives, and explores the commonalities and differences in approaches from around the world to understand possible

solutions for the current teacher workforce crisis. Acknowledging that solutions to attract and retain teachers vary by country, region and in some cases locality, the contributors scrutinise a range of workforce planning interventions at local and government level, including financial incentives and early career support. The book draws on different perspectives to understand a range of problems that negatively affect teacher recruitment and retention, unpicking key challenges, including links between the disadvantages of location and access to teachers for coastal and rural schools, rising pupil numbers, declining school budgets and the role of professional learning in raising teacher status. Abundant in critiques, research-informed positions and context-specific discussions about the impact of teacher workforce supply and shortages, this book will be valuable reading for teacher educators, educational leaders, education policy makers and academics in the field.

At age eight, Elexis "Lex" Gillette, learned he would never see again. Little did he know the devastating news was the beginning of a fascinating adventure that would lead him to athletic competitions all over the world. With the encouragement and support of a dynamic and resolute mother who was determined for her son to function independently in the sighted world, Lex attended public schools in Raleigh, NC. In high school, Lex met Coach Brian Whitmer and was introduced to a life-changing track and field event... ..the long jump "Fly!" is more than the story of an athlete. The chapters not only tell great stories but also convey important, inspirational messages. This is a book for all ages. It inspires, entertains, and informs as it encourages everyone to "Fly!"

Bilingualism Across the Lifespan explores the opportunities and challenges that are inherent in conducting cognitive research in an increasingly global and multilingual society. Divided into three sections, the book highlights the multifaceted and complex nature of bilingualism. The first section focuses on what every cognitive psychologist ought to know about bilingualism: the impact of bilingualism on cognition across the lifespan, the idea that bilinguals are not a special case, and the importance of bilingualism in cognitive research beyond language. The second section focuses on challenges inherent in bilingual research: diversity of bilingual experience, the assessment of proficiency, and finding matched comparison groups and materials. Finally, the book considers opportunities that are created when bilingualism is incorporated into the cognitive research enterprise. It illustrates how researchers of bilingualism leverage theory, methodology, and findings from single-language research, incorporate uniquely bilingual processes or representations, and target populations of bilinguals that help to establish universal properties. Bringing together leading international contributors, the book provides the reader with a better understanding of the nature of bilingualism and bilingual research as it relates to human cognition. It will be an essential read for all researchers and upper-level students of bilingualism and cognitive psychology more generally.

In the spring of 2010, Harvard Business School's graduating class asked HBS professor Clay Christensen to address them—but not on how to apply his principles and thinking to their post-HBS careers. The students wanted to know how to apply his wisdom to their personal lives. He shared with them a set of guidelines that have helped him find meaning in his own life, which led to this now-classic article. Although Christensen's thinking is rooted in his deep religious faith, these are strategies anyone can use. Since 1922, Harvard Business Review has been a leading source of breakthrough ideas

in management practice. The Harvard Business Review Classics series now offers you the opportunity to make these seminal pieces a part of your permanent management library. Each highly readable volume contains a groundbreaking idea that continues to shape best practices and inspire countless managers around the world.

The Mekong River is a vital and valuable resource, with huge development potential for the six states through which it flows. Given the significant asymmetry of power between those states, however, there is a real risk that some might utilise it to the detriment of others. Without a sense of regional belonging, it is difficult to imagine that these states and their constituent communities will take regional imperatives to heart, participate in joint regulatory frameworks, or adopt behaviours for upstream-downstream and lateral cooperation over the appropriation and use of their shared resources. How effectively has closer interdependence of the Mekong countries accommodated the development of a political-social-cultural space conducive to the growth of a regional "we-ness" among not only political elites, but also the general public? The contributors to this volume approach this question from a range of directions, including the impacts of tourism, regional development programmes, the Mekong Power Grid, and Sino-US rivalry. This edited volume presents valuable insights for scholars of international relations, Asian studies, development studies, environment studies, policy studies, and human geography.

My Vision Challenges in the Race for Excellence My Vision CHALLENGES IN THE RACE FOR EXCELLENCE. City of Gold Dubai and the Dream of Capitalism St. Martin's Press

Beginning with the destruction of Jerusalem and continuing through the persecutions of Christians in the Roman Empire, the apostasy of the Dark Ages, the shining light of the Reformation, and the worldwide religious awakening of the nineteenth century, this volume traces the conflict into the future, to the Second Coming of Jesus and the glories of the earth made new. In this concluding volume, the author powerfully points out the principles involved in the impending conflict and how each person can stand firmly for God and His truth.

With 30 years of experience behind him, David Horner knows the pitfalls of a life in ministry. In *7 Challenges Pastors Face*, Horner shows you how to - balance the demands of your calling - sharpen your vision - grow a team - cultivate humility Developing a well-balanced approach to responsibilities and passions will equip you to thrive in the face of the many challenges of ministry. This book can show you the way.

Award-winning journalist Jim Krane charts the history of Dubai from its earliest days, considers the influence of the family who has ruled it since the nineteenth century, and looks at the effect of the global economic downturn on a place that many tout as a blueprint for a more stable Middle East The city of Dubai, one of the seven United Arab Emirates, is everything the Arab world isn't: a freewheeling capitalist oasis where the market rules and history is swept aside. Until the

credit crunch knocked it flat, Dubai was the fastest-growing city in the world, with a roaring economy that outpaced China's while luring more tourists than all of India. It's one of the world's safest places, a stone's throw from its most dangerous. In *City of Gold*, Jim Krane, who reported for the AP from Dubai, brings us a boots-on-the-ground look at this fascinating place by walking its streets, talking to its business titans, its prostitutes, and the hard-bitten men who built its fanciful skyline. He delves into the city's history, paints an intimate portrait of the ruling Maktoum family, and ponders where the city is headed. Dubai literally came out of nowhere. It was a poor and dusty village in the 1960s. Now it's been transformed into the quintessential metropolis of the future through the vision of clever sheikhs, Western capitalists, and a river of investor money that poured in from around the globe. What has emerged is a tolerant and cosmopolitan city awash in architectural landmarks, luxury resorts, and Disneyfied kitsch. It's at once home to America's most prestigious companies and universities and a magnet for the Middle East's intelligentsia. Dubai's dream of capitalism has also created a deeply stratified city that is one of the world's worst polluters. Wild growth has clogged its streets and left its citizens a tiny minority in a sea of foreigners. Jim Krane considers all of this and casts a critical eye on the toll that the global economic downturn has taken. While many think Dubai's glory days have passed, insiders like Jim Krane who got to know the city and its creators firsthand realize there's much more to come in the City of Gold, a place that, in just a few years, has made itself known to nearly every person on earth.

#1 NEW YORK TIMES, WALL STREET JOURNAL, AND BOSTON GLOBE BESTSELLER • One of the most acclaimed books of our time: an unforgettable memoir about a young woman who, kept out of school, leaves her survivalist family and goes on to earn a PhD from Cambridge University “An amazing story, and truly inspiring. It’s even better than you’ve heard.”—Bill Gates NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW • ONE OF PRESIDENT BARACK OBAMA’S FAVORITE BOOKS OF THE YEAR • BILL GATES’S HOLIDAY READING LIST • FINALIST: National Book Critics Circle’s Award In Autobiography and John Leonard Prize For Best First Book • PEN/Jean Stein Book Award • Los Angeles Times Book Prize Born to survivalists in the mountains of Idaho, Tara Westover was seventeen the first time she set foot in a classroom. Her family was so isolated from mainstream society that there was no one to ensure the children received an education, and no one to intervene when one of Tara’s older brothers became violent. When another brother got himself into college, Tara decided to try a new kind of life. Her quest for knowledge transformed her, taking her over oceans and across continents, to Harvard and to Cambridge University. Only then would she wonder if she’d traveled too far, if there was still a way home. “Beautiful and propulsive . . . Despite the singularity of [Westover’s] childhood, the questions her book poses are universal: How much of ourselves should we give to those we love? And how much must we betray them to grow up?”—Vogue **NAMED ONE**

Planting and leading a new church is not easy. There are the inevitable setbacks and challenges that come with launching anything new. And the process will test and try a leader's faith, as they face discouragement, loneliness, and failure. In this book, pastor and seasoned church leader Wayne Cordeiro speaks the truth in love, offering wisdom and insight to prepare leaders as they face the difficulties and hardships of church planting, while providing encouragement and inspiration for the journey. "Sifted" is based on Jesus' encouragement to Peter in Luke 22 to keep his faith and minister to others from his weakness. An experienced practitioner, Wayne shares the things he wishes he'd known when he was starting a new church. With additional stories from other prominent, seasoned leaders, each chapter includes a thought provoking, challenge question to develop a heart that is surrendered to God, focused on "being and becoming" versus "doing and accomplishing." Wayne writes about a healthy integration and balance of personal care and leadership amidst the difficulties of the church planting journey. Loneliness and discouragement are normal in church planting, but God cares more about our journey of faith and who we are becoming than our worldly accomplishments and the churches we build. Church planting is an ongoing process of surrender, personal growth and character development. The book will challenge leaders to persevere and rededicate themselves to their calling, their marriage, and their family. Instead of a "how to" book on models and methods, this is a combination of a self-assessment book that challenges leaders' scorecards of success, encourages leaders to realize that they are not alone in what they are experiencing, and provides wisdom for the long haul to position younger leaders for a life of ministry and finish strong.

Take The 7 Habits of Highly Effective People to an Entirely New Level Your Leadership Skills Are About to Change. Millions have read the all-time global best seller The 7 Habits of Highly Effective People by Stephen R. Covey. Both leaders and individuals have been inspired and transformed by its universal principles of effectiveness, including Scott Jeffrey Miller. Miller, a student and personal friend of Stephen R. Covey, is now the new millennial voice of FranklinCovey leadership. Scott Jeffrey Miller knows what it's like to fail. He was demoted from his first leadership position after only three weeks?and that's just one of several messy management experiences on his two-decade journey to leadership success. Scott's not alone. Everyone fails. But something sets Scott apart: his transparency and willingness to openly share his story in a way that is forthright, relatable and applicable. Thirty leadership challenges you can apply now. In Miller's Management Mess to Leadership Success you'll find 30 leadership challenges that can, when applied, change the way you manage yourself, lead others, and produce results. The wisdom in Scott's book was learned through hard knocks and was honed by Stephen R. Covey and the FranklinCovey team through years of research and corporate training experience. Illustrated with Scott's real-life experiences, these challenges will teach

you how to: • Lead difficult conversations and celebrate success • Inspire trust, actively listen, and challenge paradigms • Put the right people in the right roles • Create a clear and actionable vision for your team • Accomplish your organization's Wildly Important Goals® • Get the right results?in the right way • Become the leader you would follow Fans of The 7 Habits of Highly Effective People who have read and liked Radical Candor, Dare to Lead, and Mastering Leadership will love Scott Miller's Management Mess to Leadership Success: 30 Leadership Challenges to Be The Leader You Would Follow.

A meditation on the trauma and possibility of searching for connection in a world that enforces bland norms of gender, sexual, and social conformity. When you turn the music off, and suddenly you feel an unbearable sadness, that means turn the music back on, right? When you still feel the sadness, even with the music, that means there's something wrong with this music. Sometimes I feel like sex without context isn't sex at all. And sometimes I feel like sex without context is what sex should always be.--The Freezer Door The Freezer Door records the ebb and flow of desire in daily life. Crossing through loneliness in search of communal pleasure in Seattle, Mattilda Bernstein Sycamore exposes the failure and persistence of queer dreams, the hypocritical allure of gay male sexual culture, and the stranglehold of the suburban

imagination over city life. Ferocious and tender, *The Freezer Door* offers a complex meditation on the trauma and possibility of searching for connection in a world that relentlessly enforces bland norms of gender, sexual, and social conformity while claiming to celebrate diversity. Everyone has difficult moments in life. But everyone also has the ability to overcome hardships—and to not only survive but thrive. Discover how to realize your own potential with “one of the most inspiring and motivating books of our time” (Wes Moore, *New York Times* bestselling author). In the face of impossible odds—maybe the devastating consequences of a personal loss, the pain of a collapsed career, the struggle against a powerful disease, or a destructive and toxic relationship—how do you keep going? We may wonder if we have the strength to survive this ordeal before us. Dr. Sampson Davis and Sharlee Jeter want to prove that we do. No strangers to adversity themselves, Dr. Sampson Davis and Sharlee Jeter created *The Stuff Movement* by interviewing dozens of survivors to discover how they triumphed over their challenges. These inspirational interviews reveal eleven core elements—founded on attributes we all possess—that empower us to not only survive through hardship, but also thrive. You already have the Stuff. Now learn to use it. “Sampson and Sharlee’s message of the power of positivity, hard work, and resilience is one that we need to hear right now” (Chris Gardner, #1 *New York Times* bestselling author) and you can join the conversation at TheStuffMovement.com. Featuring stories from John O’Leary (*On Fire*), Mercy Alexander, Rich Ruffalo, Mindee Hardin, Glenn and Cara O’Neill, Sean Swarner, Traci Micheline, Wess Stafford (*Too Small to Ignore*), Austin Hatch, Debra Peppers, Christine Magnus Moore, Martha Hawkins, Ali Stroker (*Glee*), Susan Scott Krabacher, Deval Patrick, and more.

Divorce was a foreign term to me. I never knew I would be experiencing the loss of the person who I thought I would spend the rest of my life with and dealing with the challenges of migrating to a new country away from my family and loved ones. This book is about how she turned this experience to help newly divorced or single women learn to live a life as a divorcee in a new country and learning to be independent of a husband or partner in this world. Learning to stand on your own two feet and be independent here alone is scary but I know I can do it. After Migrating to be with the man she dated for several years, she moved to America to marry the love of her life but as soon as she landed things changed and life turn upside down. This book is a true life experience that every woman needs to know about in order to learn to thrive on her own two feet. I wrote this book to help you navigate the stormy sea of being divorced or single in a new country. You will learn how to become more trusting in God than man. Learning how to be financially smart with your budget and spending as you will need money to survive in this country. I was on the verge of giving up daily but I found refuge in God and had a few friends and family I had encouraged me to keep on going. I started to rebuild and made up my mind and wrote down my goals on my vision board and executed each one. Life is hard after a divorce or breakup. It is important to remember you were a person before a ring on your finger, you are someone's daughter and also a child of the most high God, so pick up the pieces, "Fuck him and keep it moving."

This important collection of anecdotes and reminiscences from Sheikh Mohammed bin Rashid Al Maktoum is published to mark the occasion of his fifty years in public service, which began with his appointment as Dubai's Minister of Defence in 1968. These stories tell of the vision behind Dubai's meteoric growth from a small and bustling trading port to an international metropolis at the heart of global business. They record the evolution of the United Arab Emirates from a shared ideal to a nation where more than 195 nationalities live and work in peace, harmony and prosperity. And they reveal insights from a man whose drive, determination and will to succeed have become legendary. Within these stories lies the heart of Sheikh Mohammed the statesman, the equestrian, the poet and the leader. They are written with the intent to inspire and inform new generations of readers, and to celebrate the achievements of this young and vibrant nation and the people who shaped it. This celebration of a life in service is unavoidably incomplete. As Sheikh Mohammed himself indicates, there is still so much left to

do. As a record of the first fifty years alone, however, it forms part of a remarkable legacy. Other titles written by Sheikh Mohammed and published by Explorer include Zayed, Reflections on Happiness & Positivity, Flashes of Verse and Two Great Leaders.

Biblical solutions to dozens of the toughest challenges leaders face today. Concise, to-the-point, and highly useable, How to Lead by THE BOOK presents a series of personal and business challenges recognizable to leaders, then deals with each through insight, personal experience, and a discussion of why conventional approaches often fail. In this practical and inspiring guide, you'll discover proven methods and advice to shape young leaders, stretch veteran leaders, become a better communicator, maintain your work-life balance, deal with dishonesty among competitors, and much more. Shows why typical approaches to leadership problems often fail, while biblical wisdom succeeds Covers both day-to-day dilemmas and larger questions of management, accountability, and vision From the bestselling author of How to Run Your Business by THE BOOK, Up Your Business, and If You Don't Make Waves You'll Drown What is the number one downfall for leaders? When is the best time to make a decision? How do you hold others accountable? How do you survive success with your principles intact? What does the Bible say about time management? Get the answers to these and many more practical business questions when you discover the winning wisdom of How to Lead by THE BOOK.

The updated edition of the bestselling book that has changed millions of lives with its insights into the growth mindset “Through clever research studies and engaging writing, Dweck illuminates how our beliefs about our capabilities exert tremendous influence on how we learn and which paths we take in life.”—Bill Gates, GatesNotes After decades of research, world-renowned Stanford University psychologist Carol S. Dweck, Ph.D., discovered a simple but groundbreaking idea: the power of mindset. In this brilliant book, she shows how success in school, work, sports, the arts, and almost every area of human endeavor can be dramatically influenced by how we think about our talents and abilities. People with a fixed mindset—those who believe that abilities are fixed—are less likely to flourish than those with a growth mindset—those who believe that abilities can be developed. Mindset reveals how great parents, teachers, managers, and athletes can put this idea to use to foster outstanding accomplishment. In this edition, Dweck offers new insights into her now famous and broadly embraced concept. She introduces a phenomenon she calls false growth mindset and guides people toward adopting a deeper, truer growth mindset. She also expands the mindset concept beyond the individual, applying it to the cultures of groups and organizations. With the right mindset, you can motivate those you lead, teach, and love—to transform their lives and your own.

A trustworthy and respected guide for pastors and church leadership in the post-quarantine world, providing hope and vision for the future of your congregation. From thousands of surveys of church leaders and in-person consultations, Thom Rainer and his Church Answers team have gathered the essential wisdom you will need to face the challenges and opportunities that the quarantine crisis creates for the local church, including: New and better ways to lead the gathered church A wide-open door for growing the digital church A moment to rethink the facilities New strategies for church growth . . . and much more! This book is, in effect, your personal church consultant, helping you plan and prepare for the future. In the midst of heartbreak, tragedy, and struggle due to Covid-19, here's hope, wisdom, encouragement and vision. This book is valuable for those looking for local church and pastor resources to enhance church leadership, grow your church, and serve digital and online church communities in the post-quarantine world. As a former pastor and founder of Church Answers, Thom S. Rainer is intimately familiar with the ever-

present demands that pastors face. He has spent a lifetime committed to the growth and health of the local church. The current publishing environment has experienced a drastic change in the way content is created, delivered, and acquired, particularly for libraries. With the increasing importance of digital publishing, more than half the titles published in the United States are self-published. With this growth in self-published materials, librarians, publishers, and vendors have been forced to rethink channels of production, distribution, and access as it applies to the new content. *Self-Publishing and Collection Development: Opportunities and Challenges for Libraries* will address multiple aspects of how public and academic libraries can deal with the increase in self-published titles. While both academic and public libraries have started to grapple with the burgeoning issues associated with self-published books, many difficulties remain. To develop effective policies and procedures, stakeholders must now tackle questions associated with the transformation of the publishing landscape. Obstacles to self-publishing include the lack of reviews, the absence of cataloging and bibliographic control, proprietary formats for e-books, and the difficulty for vendors in providing these works. General chapters will include information on reviewing sources, cataloging and bibliographic control, and vendor issues. Information addressing public libraries issues will highlight initiatives to make self-published materials available at the Los Gatos Public Library in California and the Kent District Library in Michigan. Chapters on academic library issues will address why self-published materials are important for academic institutions, especially those with comprehensive collecting interests. Several self-published authors focus on how they attempt to make their works more suitable for public libraries. Finally, the book concludes with a bibliographic essay on self-publishing. As the term "traditional publishing" begins to fade and new content producers join the conversation, librarians, publishers, and vendors will play an important role in facilitating and managing the shift. World-renowned economist Klaus Schwab, Founder and Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will fundamentally alter how we live and work. Schwab argues that this revolution is different in scale, scope and complexity from any that have come before. Characterized by a range of new technologies that are fusing the physical, digital and biological worlds, the developments are affecting all disciplines, economies, industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing, DNA sequencing, smart thermostats, wearable sensors and microchips smaller than a grain of sand. But this is just the beginning: nanomaterials 200 times stronger than steel and a million times thinner than a strand of hair and the first transplant of a 3D printed liver are already in development. Imagine "smart factories" in which global systems of manufacturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth industrial revolution, says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history. He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future--one in which technology empowers people rather than replaces them; progress serves society rather than disrupts it; and in which innovators respect moral and ethical boundaries rather than cross them. We all have the opportunity

to contribute to developing new frameworks that advance progress.

"This book is designed to provide readers with the background and building blocks they need in order to answer for themselves the critical questions about what is taking place around the world and why. It explains what makes each region of the world tick, the many challenges globalization presents, and the most influential countries, events, and ideas. Its aim is to help readers become more informed, discerning citizens, better able to arrive at sound, independent judgments and less vulnerable to being misled"-- This book brings together legal scholars engaging with vulnerability theory to explore the implications and challenges for law of understanding vulnerability as generative, and a source of connection and development. The book is structured into five sections that cover fields of law where there is already significant recourse to the concept of vulnerability. These sections include a main chapter by a legal theorist who has previously examined the creative potential of vulnerability and responses from scholars working in the same field. This is designed to draw out some of the central debates concerning how vulnerability is conceptualised in law. Several contributors highlight the need to re-focus on some of these more positive aspects of vulnerability in order to counter the way law is being used to mask that condition in order to enable more people to escape the stigma associated with it. They seek to explore how law might embrace vulnerability, rather than conceal it. The book also includes contributions that seek to bring vulnerability into a non-binary relationship with other core legal concepts, such as autonomy and dignity. Rather than discarding these legal concepts in favour of vulnerability, these contributions highlight how vulnerability can be entwined with relational autonomy and embodied dignity. This book is essential reading for both students studying legal theory and practitioners interested in vulnerability.

For business people looking to get results and up their income, this book divulges no-nonsense strategies that can turn anyone into a powerful speaker who can overcome challenges and influence the right listeners. * Provides hands-on, easy-to-use tools to help anyone improve their business communication skills * Contains original heartwarming stories, examples, and lessons learned from the author's 20-year career in television news, a run for political office, and advising some of the nation's biggest companies * Every chapter contains topical session examples, stories, "Coaching Notes," "Quick Fixes," and subject-related quotes * The index helps readers easily locate specific topics and references to key terms

This book investigates the ways in which young people engage with and contribute to civil society, community development, and local peacebuilding in the Middle East and North Africa (MENA). Youth engagement and contribution to civil society and local peacebuilding can play a crucial role in development; however, there is often a lack of effective engagement, policies, and opportunities for young people in policy and practice. This book analyses their experiences of civic engagement and community participation and the challenges they face, across diverse areas including youth empowerment, freedom of expression, mobilization, ideologies, conflict resolution, and peacebuilding. Drawing on cases from Yemen, Syria, Iran, Morocco and the Palestinian Territories, this book offers new insights on how youth not only are shaped by, but also react to policies, conflict, constraints, and challenges. The insights drawn from this interdisciplinary collection will be of interest to researchers of civil

society, youth, peacebuilding, and development, as well as to policymakers, donors, and NGO staff.

Reimagining our global economy so it becomes more sustainable and prosperous for all Our global economic system is broken. But we can replace the current picture of global upheaval, unsustainability, and uncertainty with one of an economy that works for all people, and the planet. First, we must eliminate rising income inequality within societies where productivity and wage growth has slowed. Second, we must reduce the dampening effect of monopoly market power wielded by large corporations on innovation and productivity gains. And finally, the short-sighted exploitation of natural resources that is corroding the environment and affecting the lives of many for the worse must end. The debate over the causes of the broken economy—laissez-faire government, poorly managed globalization, the rise of technology in favor of the few, or yet another reason—is wide open. Stakeholder Capitalism: A Global Economy that Works for Progress, People and Planet argues convincingly that if we don't start with recognizing the true shape of our problems, our current system will continue to fail us. To help us see our challenges more clearly, Schwab—the Founder and Executive Chairman of the World Economic Forum—looks for the real causes of our system's shortcomings, and for solutions in best practices from around the world in places as diverse as China, Denmark, Ethiopia, Germany, Indonesia, New Zealand, and Singapore. And in doing so, Schwab finds emerging examples of new ways of doing things that provide grounds for hope, including: Individual agency: how countries and policies can make a difference against large external forces A clearly defined social contract: agreement on shared values and goals allows government, business, and individuals to produce the most optimal outcomes Planning for future generations: short-sighted presentism harms our shared future, and that of those yet to be born Better measures of economic success: move beyond a myopic focus on GDP to more complete, human-scaled measures of societal flourishing By accurately describing our real situation, Stakeholder Capitalism is able to pinpoint achievable ways to deal with our problems. Chapter by chapter, Professor Schwab shows us that there are ways for everyone at all levels of society to reshape the broken pieces of the global economy and—country by country, company by company, and citizen by citizen—glue them back together in a way that benefits us all.

Black Greek 101 is the first book to provide a complete analysis of the culture of historically Black fraternities and sororities. Based on over ten years of research, Black Greek 101 presents a detailed history of Black fraternalism as a whole. As a unique culture within the college environment, these organizations are fascinating examples of the ways students form groups with their own artifacts, rites, customs, stories, and rituals that help them to adapt to the larger college environment. When members of Black fraternal organizations and non-members alike finish Black Greek 101, they will have a foundation for understanding some of the most interesting organizations that have influenced not only campus culture, but American culture as a whole.

A bestselling modern classic—both poignant and funny—about a boy with autism who sets out to solve the murder of a neighbor's dog and discovers unexpected truths about himself and the world. Nominated as one of America's best-loved

novels by PBS's The Great American Read Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. He relates well to animals but has no understanding of human emotions. He cannot stand to be touched. And he detests the color yellow. This improbable story of Christopher's quest to investigate the suspicious death of a neighborhood dog makes for one of the most captivating, unusual, and widely heralded novels in recent years.

Heterogeneous Computing Architectures: Challenges and Vision provides an updated vision of the state-of-the-art of heterogeneous computing systems, covering all the aspects related to their design: from the architecture and programming models to hardware/software integration and orchestration to real-time and security requirements. The transitions from multicore processors, GPU computing, and Cloud computing are not separate trends, but aspects of a single trend-mainstream; computers from desktop to smartphones are being permanently transformed into heterogeneous supercomputer clusters. The reader will get an organic perspective of modern heterogeneous systems and their future evolution.

The Institute of Medicine study Crossing the Quality Chasm (2001) recommended that an interdisciplinary summit be held to further reform of health professions education in order to enhance quality and patient safety. Health Professions Education: A Bridge to Quality is the follow up to that summit, held in June 2002, where 150 participants across disciplines and occupations developed ideas about how to integrate a core set of competencies into health professions education. These core competencies include patient-centered care, interdisciplinary teams, evidence-based practice, quality improvement, and informatics. This book recommends a mix of approaches to health education improvement, including those related to oversight processes, the training environment, research, public reporting, and leadership. Educators, administrators, and health professionals can use this book to help achieve an approach to education that better prepares clinicians to meet both the needs of patients and the requirements of a changing health care system. Social and behavioral science has for decades studied and recognized leadership as a social exchange between leaders and followers. But leadership is rather complex, and as such, it tends to lead to an increased interest within and across different disciplines. This book is an attempt to provide theoretical and empirical framework to better understand leadership challenges in various contexts. The authors cover an array of themes that span from an individual level to an organizational and societal level. In this volume, two sections are presented. The first section based on individual level focuses on different leadership styles and abilities, and the other section provides theories to understand leadership in public administration, in industrial settings and in nonprofit organizations.

Offers advice on how to lead an organization into change, including establishing a sense of urgency, developing a vision

and strategy, and generating short-term wins.
