“Wonderfully, in Akashic’s Oakland Noir, the stereotypes about the city suffer the fate of your average noir character—they die brutally.” —San Francisco Chronicle In the wake of San Francisco Noir, Los Angeles Noir, and Orange County Noir—all popular volumes in the Akashic Noir Series—comes the latest California installment, Oakland Noir. Masterfully curated by Jerry Thompson and Eddie Muller (the “Czar of Noir”), this volume will shock, titillate, provoke, and entertain. The diverse cast of talented contributors will not disappoint. Oakland Noir offers stories by Nick Petrolakis, Kim Addonizio, Keenan Norris, Keri Miki-Lani Schroeder, Katie Gilmartin, Dorothy Lazard, Harry Louis Williams II, Carolyn Alexander, Phil Canalin, Judy Juanita, Jamie DeWolf, Nayomi Munaweera, Mahmud Rahman, Tom McElravey, Joe Loya, and Eddie Muller. “From the Oakland hills to the heart of downtown, each story brings Oakland to life.” —San Jose Mercury News “Oakland is a natural for the series, with its shadowy crimes and disgruntled cops.” —Zoom Street Magazine “San Francisco’s grittier next-door neighbor gets her day in the sun in 16 new stories in this tightly curated entry in Akashic’s Noir series. The hardscrabble streets of Oakland offer crime aplenty . . . Thompson and Muller have taken such pains to choose stories highlighting Oakland’s diversity and history that the result is a volume rich in local culture as well as crime.” —Kirkus Reviews

Leading researchers in the social sciences describe and explain the unequal chances of long and healthy life between social groups, ethnic groups, men and women and geographical areas.

the only truck that can perform the very important task of keeping the roads clean. When monsters appear on Earth, Maggie MacKay is on the job. No one is better at hauling the creepy crawlies back where they belong. No one, that is, except Maggie's dad, who vanished in the middle of an assignment. Now, an elf named Killian has shown up with a gig. Seems Maggie's uncle teamed up with the forces of dark to turn Earth into a vampire convenience store, serving bottomless refills on humans. Ah, family... The only hope for survival lies in tracking down two magical artifacts and a secret that disappeared with Maggie's dad. **WARNING:** This book contains cussing, brawling, and unladylike behavior. Proceed with caution.

Winner of the Pulitzer Prize for Poetry Her most acclaimed volume of poetry, *American Primitive* contains fifty visionary poems about nature, the humanity in love, and the wilderness of America, both within our bodies and outside. "American Primitive enchants me with the purity of its lyric voice, the loving freshness of its perceptions, and the singular glow of a spiritual life brightening the pages." -- Stanley Kunitz "These poems are natural growths out of a loam of perception and feeling, and instinctive skill with language makes them seem effortless. Reading them is a sensual delight." -- May Swenson

Examines the increasing recognition that the environment is a subject for protection in

constitutional texts and for vindication by constitutional courts.

"This volume is not a random collection of papers presented at the conference but rather a monograph presenting in a structured manner some of the topical issues related to this subject. It provides an overview of various aspects of the current status, development and practice of rights of access to information, public participation in decision-making and access to justice in environmental matters following their codification as non-binding principles in Principle X of the Rio Declaration. The book goes far beyond presenting merely the issues related to environmental procedural rights in Europe: it brings together the expertise of worldwide legal scholars, representing a wide range of legal cultures, to discuss the adoption and implementation of procedural environmental rights in different jurisdictions and under various legal instruments. Furthermore, it provides insight into the various aspects of procedural environmental rights ranging from theoretical issues of global application to practical problems at local level"--Back cover.

Cybersecurity for Beginners KEY FEATURES ? In-depth coverage of cybersecurity concepts, vulnerabilities and detection mechanism. ? Cutting-edge coverage on frameworks, Intrusion detection methodologies and how to design cybersecurity infrastructure. ? Access to new tools, methodologies, frameworks and countermeasures developed for cybersecurity.

DESCRIPTION Cybersecurity Fundamentals starts from the basics of data and information, includes detailed concepts of Information Security and Network Security, and shows the development of 'Cybersecurity' as an international problem. This book talks about how people started to explore the capabilities of Internet technologies to conduct crimes globally. It covers the framework for analyzing cyber costs that enables us to have an idea about the financial damages. It also covers various forms of cybercrime which people face in their day-to-day lives and feel cheated either financially or blackmailed emotionally. The book also demonstrates Intrusion Detection Systems and its various types and characteristics for the quick detection of intrusions in our digital infrastructure. This book elaborates on various traceback schemes and their classification as per the utility. Criminals use stepping stones to mislead tracebacking and to evade their detection. This book covers stepping-stones detection algorithms with active and passive monitoring. It also covers various shortfalls in the Internet structure and the possible DDoS flooding attacks that take place nowadays. WHAT YOU WILL LEARN ? Get to know Cybersecurity in Depth along with Information Security and Network Security. ? Build Intrusion Detection Systems from scratch for your enterprise protection. ? Generations ago, angel Remiel chose to renounce heaven and live on Earth. He found

a place among ordinary humans by converting himself into Boston P.I. Remy Chandler, but he can never tell anyone who he was or that he still has angelic powers. Remy can will himself invisible, speak and understand any foreign language (including any animal language), and hear the thoughts of others. All these secret powers come in handy for a private investigator, especially when the Angel of Death goes missing and he's assigned to find him. As he gets deeper into the investigation, he realizes this is not a missing persons case but a conspiracy to destroy the human race and only Remy has the powers to stop the forces of evil.

The most comprehensive manual of the practice of insight meditation (vipassana), written by one of its foremost 20th century proponents, is translated into English for the first time. Manual of Insight is the magnum opus of Mahasi Sayadaw, one of the originators of the "vipassana movement" that has swept through the Buddhist world over the last hundred years. The manual presents a comprehensive overview of the practice of insight meditation, including the foundational aspects of ethical self-discipline, understanding the philosophical framework for the practice, and developing basic concentration and mindfulness. It culminates with an in-depth exploration of the various types of insight and spiritual fruits that the practice yields. Authored by the master who brought insight meditation to the West and whose students include Joseph Goldstein, Jack Kornfield, and Sharon Salzberg, Manual of Insight is a veritable Bible for any practitioner of vipassana.
