pairs. Sea Turtles and Yellow Tang Fish explores the close mutualistic relationship between the two sea creatures. Sidebars encourage readers to engage in the material by asking deeper questions or conducting individual research. Full color photos, a glossary, and a listing of additional resources all enhance the learning experience.

A pair of eyes lurks just above the water's surface. Is it a crocodile or an alligator? Packed with beautiful and engaging photos, kids will learn all about these two reptiles—and find out what makes them different. This level 2 reader provides both accessible and wide-ranging text to encourage the scientists and explorers of tomorrow!

Presents a vivid description of the natural history and life cycle of the seven species of sea turtles, including diets and mating habits, the environmental dangers that threaten their survival, and current conservation efforts.

He's quick. He's silent. He has five rows of deadly teeth. Chomp! Meet the shark—the fish who ruled the deep before dinosaurs roamed the Earth! This fish has soft cartilage so he can glide, twist, and turn before his prey can say "gulp!" He can smell a single drop of blood in 25 million drops of ocean. He can feel electricity given off by his prey. He will lose and replace more than 10,000 teeth in his lifetime. Cool photos bring kids into the shark's world. Fun facts go deep into the shark's scary science.

This is the first in a series of 4 books that will tell the true and hilarious stories of animals that love hijinks. In this book you'll

meet 3 naughty animals, including Fu Manchu, the orangutan escape artist. Fu Manchu lived at the Omaha Zoo and would routinely break out of his habitat to explore the zoo on a nice day. Zookeepers were baffled as to how the ape was escaping, until one day they caught him in the act. Fu Manchu knew how to pick locks. Not only that, he had created his own tool that he used to pick the locks with, which he would store in his mouth so as not to be found out. This and two other charming stories will engage readers and leave them wondering if humans are really the smartest animals.

"Learn how green sea turtles live, why they are endangered, and what's being done to help"--

Presents the life of sea turtles, including where they travel, how they build nests, and what they eat.

Provides facts about wolves, including their habitat, packs, and feeding habits.

This comical, adorable, and fascinating reader documents the lives of monkeys living in the wild and includes details regarding their behavior, families, and environment. The carefully constructed text guarantees a successful and rewarding reading experience for level 2 readers who are able to read alone, with minor assistance. The photography and extras featured in this title ensure a fun and interactive experience for the reader. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org/commoncore for more information.

Presents facts and comparisons about the physical characteristics, senses, eating habits, and behavior of cats and dogs.

Examines creatures that live in the sea, including the blobfish, jellyfish, and moray eels.

"A book about loggerhead sea turtles, and a girl's attempts to help save their babies from man-made light."--

Mysterious, cunning, smart, and sleek, foxes are one of kids' favorite animals. Learn all about this fantastic forest canine! Packed with beautiful and engaging photos, this new leveled reader dives into the amazing world of foxes. Kids will learn all about fascinating foxes, including where they live, how they hunt, and what their families are like. National Geographic Readers' combination of expert-vetted text, brilliant images, and a fun approach to reading have proved to be a winning formula with kids, parents, and educators. Level 2 text provides accessible, yet wide-ranging information for kids ready to read on their own, perfect to encourage the scientists and explorers of tomorrow!

Dive into the world's oceans to explore the adventurous lives of one of the oldest living animals. Descended from enormous prehistoric creatures, sea turtles are fascinating. Hatched from eggs smaller than a baseball, some can grow to weigh over a thousand pounds. Once adults, they can live to be around 100 years old. And when it's time to nest, they migrate more than 1,000 miles. With colorful, clear illustrations and straightforward text, Gail Gibbons introduces the eight kinds of sea turtles living in the ocean today. Learn the similarities and differences with labeled diagrams and experience the hatching of the tiny turtle babies with detailed illustrations. This updated edition now includes the most up-to-date information about these beloved reptiles, as reviewed by an expert vetter in the field of herpetology. Sea Turtles also gives young readers an accessible overview of how the lives of these large reptiles have become threatened and discusses the conservation efforts currently taking place. Ideal for aspiring oceanographers, this brightly-illustrated book is a perfect introduction to the subject.

The monarch butterfly, one of the most seemingly delicate of

all of nature's animals, proves to be one of the toughest in this reader. Making the yearly trip from the Northern United States and Canada to the Oyamel forest of Mexico is no easy task, and it takes five generations of butterflies in order to do so. Battling cold temperatures and the threat of starvation, these beautiful insects complete an almost 3,000 mile journey over the course of two months, only to have to turn and around and head back home. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org/commoncore for more information.

Who could resist celebrating sea turtles? They may seem like lazy ocean reptiles drifting with the oceans' currents, but they are actually long-distance swimmers that spend their entire lives searching for food and a mate. What's more, they come with their own built-in GPS, returning to the exact beach where they were born to lay their own eggs. Kids will learn all about these tranquil and mysterious animals through brilliant photography and illustrations, plus the trusted and distinctive content you love from NG Kids!

"The most complete ocean reference ever, more than 350 amazing color photos throughout the book."

Presents the story of Carolina, a loggerhead turtle that was brought to a turtle hospital after she became sick with the flu, was cured, and was finally released back into the wild; includes a "make your own sea turtle" cut-out.

Meet cuttlefish that can camouflage themselves, octopuses that outsmart their predators, and squid that patrol the deep in this cool fact-filled reader. Learn everything you've ever wanted to know about cephalopods, from inking, to hunting, to coconut carrying. Squish along with squid, camouflage with cuttlefish, and marvel at magnificent octopuses.

Packed with weird-but-true facts and tons of cool animal info, this Level 3 Reader explores the incredible world of cephalopods. National Geographic Fact Readers feature the same expert-vetted running text as traditional readers--with a bonus of 100 fun facts sprinkled throughout! A fact roundup at the end of each book lets kids review what they've learned. (Plus, they can impress their friends with their animal expertise!)

Provides information about these playful mammals, including their aquatic habitats, diet, physical characteristics, and behaviors.

Take a dip with turtles in this exciting reader. Packed with beautiful and engaging photos, kids will learn all about these fantastic reptiles. This level 1 reader is carefully leveled for an early independent reading or read aloud experience, perfect to encourage the scientists and explorers of tomorrow!

This title captures Carr's gentle humour, his passionate fascination with sea turtles, and his intense love of sharing his knowledge with readers. A foreword by Karen Bjorndal brings the story up to date.

Information on the life cycle and habitat of sea turtles.

Provides information about owls, including different types of owls, their habitats, diet, physical characteristics, and behaviors.

Welcome to the wild world of sea turtles! In this intro

Access Free National Geographic Readers Sea Turtles

to the species, youngsters discover where on Earth this reptile lives, what it eats, and how big it grows. Cool photos of all the different kinds of sea turtles and adorable photos of just-hatched turtle babies bring the creatures into full focus. After learning the basics, young readers will learn why sea turtles need our help and what people around the world are doing to help save them. Filled with fun facts, games, and an activity focused on making a difference in sea turtles' world, *Go Wild!* will inspire kids to care about this swimmingly cute animal.

Discover 1,000 cool stickers featuring your favourite ocean animals, like dolphins, coral, fish, sea turtles, seals and more. You'll also find skill-building puzzles and mazes, spelling and pattern games, drawing, photos, facts, and other activities that will keep you entertained (and learning) for hours on end. National Geographic Kids Sticker Activity Books are loaded with fun.

Introduces coral reefs, including how they are made, where they are in the world, and why the world's coral reefs are in danger.

Dive in with these fascinating creatures of the sea! Can animals be identified by just one of their distinctive parts? Readers get the chance to find out in this guessing-game picture book. First, they are shown a body part and asked which ocean animal it belongs to. Then, the following spread reveals the whole animal, along with a description of its characteristics — particularly its one-of-a-

Access Free National Geographic Readers Sea Turtles

kind body part — and habitat. From fins to flippers and tentacles to tails, there's no better introduction to the awesomeness of ocean animals! With bold illustrations and playful fun for all, this book offers a unique look at ocean animals, one body part at a time.

Sometimes, the uglier, the better! In this level 2 reader, young readers will meet the ugliest of animals. Follow these funny-looking creatures and learn how their strange looks help them in the wild. Interesting photos and carefully leveled text make this book perfect for reading aloud or for independent reading.

This compelling addition to the award-winning Scientists in the Field series explores the leatherback sea turtle's remarkable natural history and recounts the extraordinary efforts being made by scientists trying to save them. 15,000 first printing.

Adorably cute and amazingly fast, the cheetah is a perennial favorite among kids. This National Geographic Reader will delight kids with beautiful photographs and mind-boggling facts about this majestic and mysterious cat. Did you know a cheetah can go from 0 to 60 mph in less than 3 seconds? True to the National Geographic Kids' style and trusted reputation, snack size bites of information provide easily digestible learning that fulfills both the reader's curiosity and sense of achievement. National Geographic supports K-12 educators with ELA Common Core Resources. Visit

www.natgeoed.org/commoncore for more information. Get to know scales, shells, and other kinds of amazing animal armor in this engaging Level 1 Reader from National Geographic Kids, now with more than 125

Access Free National Geographic Readers Sea Turtles

books from Pre-reader to Level 3 in the series. Packed with beautiful and engaging photos, kids will learn all about these fantastic creatures. Learn about animals with shells, scales, and spikes! This Reader is carefully leveled for an early independent reading or read aloud experience, perfect to encourage the scientists and explorers of tomorrow!

This photo-illustrated book for early readers tells the story of a sea turtle laying her eggs, how they hatch, find their way to the sea, and grow up.
