

Navy Aviation Electronics Technician Basic Navedtra 14028 Nonresident Training Course

Aviation Electronics Technician 3 & 2 Aviation Electronics Technician - Basic U. S. Navy Nonresident Training Course
This is a self-study course. By studying this course, you can improve your professional/military knowledge, as well as prepare for the Navy-wide advancement-in-rate examination. It contains subject matter about day-to-day occupational knowledge and skill requirements and includes text, tables, and illustrations to help you understand the information. An additional important feature of this course is its references to useful information to be found in other publications. The well-prepared Sailor will take the time to look up the additional information.

Learn what it takes to become an avionics technician in the U.S. military.

For more than 35 years, this Guide has been the standard reference work for recognizing learning acquired in military life. All the courses offered by the Coast Guard, Marine Corps, and Navy are listed and briefly described. Each course description includes the course title and number; the length of the course, and where and when it was offered; the course objectives; the type of instruction; and recommendations about the type and amount of college credit that should be granted to those who have taken the course. Keyword and course number indexes to the course descriptions are provided. In addition, the Defense Activity for Non-Traditional Education Support (DANTES) Subject Standardized Tests are listed, along with recommendations for the amount of college credit that should be granted to those who passed the tests.
