An updated edition of the blockbuster bestselling leadership book that took America and the world by storm, two U.S. Navy SEAL officers who led the most highly decorated special operations unit of the Iraq War demonstrate how to apply powerful leadership principles from the battlefield to business and life. Sent to the most violent battlefield in Iraq, Jocko Willink and Leif Babin's SEAL task unit faced a seemingly impossible mission: help U.S. forces secure Ramadi, a city deemed "all but lost." In gripping firsthand accounts of heroism, tragic loss, and hard-won victories in SEAL Team Three's Task Unit Bruiser, they learned that leadership—at every level—is the most important factor in whether a team succeeds or fails. Willink and Babin returned home from deployment and instituted SEAL leadership training that helped forge the next generation of SEAL leaders. After departing the SEAL Teams, they launched Echelon Front, a company that teaches these same leadership principles to businesses and organizations. From promising startups to Fortune 500 companies, Babin and Willink have helped scores of clients across a broad range of industries build their own high-performance teams and dominate their battlefields. Now, detailing the mind-set and principles that enable SEAL units to accomplish the most difficult missions in combat, Extreme Ownership shows how to apply them to any team, family or organization. Each chapter focuses on a specific topic such as Cover and Move, Decentralized Command, and Leading Up the Chain, explaining what they are, why they are important, and how to implement them in any leadership environment. A compelling narrative with powerful instruction and direct application, Extreme Ownership revolutionizes business management and challenges leaders everywhere to fulfill their ultimate purpose: lead and win.

During the brutal crucible of Navy SEAL training, instructors often tell students to "embrace the suck." This phrase conveys the one lesson that is vital for any SEAL hopeful to learn: lean into the suffering and get comfortable being very uncomfortable. In this powerful, no-nonsense guide, Navy SEAL combat veteran turned leadership expert Brent Gleeson teaches you how to transform every area of your life--the Navy SEAL way. Can anyone develop this level of resilience? Gleeson breaks it down to a Challenge-Commitment-Control mindset. He reveals how resilient people view difficulties as a Challenge, where obstacles and failures are opportunities for growth. Next, they have a strong emotional Commitment to their goals and are not easily distracted or deterred. Finally, resilient people focus their energy on the things within their Control, rather than fixating on factors they can't impact. Embrace the Suck provides an actionable roadmap that empowers you to expand your comfort zone to live a more fulfilling, purpose-driven life.

Through candid storytelling, behavioral science research, and plenty of self-deprecating humor, Gleeson shows you how to use pain as a pathway, reassess your values, remove temptation, build discipline, suffer with purpose, fail successfully, transform your mind, and achieve more of the goals you set

A leadership book by former Navy SEAL and New York Times bestselling author Mark Divine, Staring Down the Wolf focuses on harnessing the principles of purpose and

discipline in life to achieve success. What does it take to command a team of elite individuals? It requires a commitment to seven key principles: Courage, Trust, Respect, Growth, Excellence, Resiliency, and Alignment. All of these are present in an elite team which commits to them deeply in order to forge the character worthy of uncommon success. Retired Navy SEAL Commander, entrepreneur and New York Times bestselling author Mark Divine (founder of SEALFIT, NavySeal.com, and Unbeatable Mind) reveals what makes the culture of an elite team, and how to get your own team to commit to serve at an elite level. Using principles he learned on the battlefield, training SEALs, and in his own entrepreneurial and growth company ventures, Mark knows what it is to lead elite teams, and how easily the team can fail by breaching these commitments. Elite teams challenge themselves to step up everyday to do the uncommon. Developing the principles yourself and aligning your team around these commitments will allow you to thrive in VUCA (volatility, uncertainty, complexity, ambiguity) environments, no matter your background or leadership experience. Drawing from his twenty years leading SEALs, and twenty five years of success and failure in entrepreneurship and ten years coaching corporate clients, Mark Divine shares a very unique perspective that will allow you to unlock the tremendous power of your team. "Mark Divine has a gift for creating highly effective dynamic teams. Mark interleaves key aspects of leadership, mental toughness, resiliency and cultivating higher plains of existence into a foundational concept of being an authentic 'Leader of leaders.' This book is indispensable for anyone looking to lead, build and foster an elite culture." –Mike Magaraci, retired Force Master Chief of Naval Special Warfare "From his time as a Commander in the SEAL Teams to building several successful multimillion dollar businesses, Mark Divine is an authority on building elite teams and leaders capable of tapping their fullest potential." –David Goggins, Retired Navy SEAL, author of New York Times Bestseller Can't Hurt Me "To grow to your fullest capacity in your life and as a leader, we need to challenge ourselves. There's no one I know who's challenged himself more than Mark Divine. He's the perfect visionary to help get you out of your comfort zone and shattering the status quo." –Joe De Sena, Founder and CEO of Spartan

After Eric Davis spent over 16 years in the military, including a decade in the SEAL Teams, his family was more than used to his absence on deployments and secret missions that could obscure his whereabouts for months at a time. Without a father figure in his own life since the age of fifteen, Eric was desperate to maintain the bonds he'd fought so hard to forge when his children were young—particularly with his son, Jason, because he knew how difficult it was to face the challenge of becoming a man on one's own. Unfortunately, Eric learned the hard way that Quality Time doesn't always show up in Quantity Time. Facebook, television, phones, video games, school, jobs, friends—they all got in the way of a real, meaningful father-son relationship. It was time to take action. As a SEAL, Eric learned to innovate and push boundaries, allowing him to function at levels beyond what was expected, comfortable, ordinary, and even imaginable, and he knew that as a father he needed to do the same with his son. Meeting extreme with extreme was the only answer. Using a unique blend of discipline, leadership, adventure, and grace, Eric and his SEAL brothers will teach you how to connect, and reconnect, with your sons and learn how to raise real men—the Navy SEAL way.

Do you have what it takes to succeed in any situation? According to a retired commander who ran training for Navy SEALs, true optimal performance goes beyond just skill. It's all about THE ATTRIBUTES. "Diviney's incredible book explains why some people thrive—even when things get hard."—Charles Duhigg, New York Times bestselling author of The Power of Habit During his twenty years as a Navy officer and SEAL, Rich Diviney was intimately involved in a specialized SEAL selection process, which whittled a group of hundreds of extraordinary candidates down to a handful of the most elite performers. Diviney was often surprised by which candidates washed out and which succeeded. Some could have all the right skills and still fail, while others he might have initially dismissed would prove to be top performers. The seemingly objective criteria weren't telling him what he most needed to know: Who would succeed in one of the world's toughest military assignments? It is similarly hard to predict success in the real world. It happens often enough that underdog students accomplish exceptional achievements while highly skilled, motivated employees fail to meet expectations. Dark-horse companies pull away from the pack while dream teams flush with talent and capital go under. In working with and selecting top special operators for decades, Diviney saw that beneath obvious skills are hidden drivers of performance, surprising core attributes—including cunning, adaptability, courage, even narcissism—that determine how resilient or perseverant we are, how situationally aware and how conscientious. These attributes explain how we perform as individuals and as part of a team. The same methodology that Diviney used in the military can be applied by anyone in their personal and professional lives, and understanding these attributes can allow readers and their teams to perform optimally, at any time, in any situation. Diviney defines the core attributes in fresh and practical ways and shares stories from the military, business, sports, relationships, and even parenting to show how understanding your own attributes and those of the people around you can create optimal performance in all areas of your life.

If you've ever struggled to break the mold on a bad habit, no matter how much you try to pull yourself up into a better place, only to find yourself back at square one, this book is for you.

An epic account of the Navy SEALs of Alpha platoon, the startling accusations against their chief, Eddie Gallagher, and the courtroom battle that exposed the dark underbelly of America's special forces—from a Pulitzer Prize-winning reporter "Meticulously assembled and brilliantly written . . . [a] remarkable and engrossing book."—The New York Times By official accounts, the Navy SEALs of Alpha platoon returned as heroes after their 2017 deployment to Mosul, following a vicious, bloody, and successful campaign to drive ISIS from the city. But within the platoon a different war raged. Even as Alpha's chief, Eddie Gallagher, was being honored by the Navy for his leadership, several of his men were preparing to report him for war crimes, alleging that he'd stabbed a prisoner in cold blood and taken lethal sniper shots at unarmed civilians. Many young SEALs regarded Gallagher as the ideal special operations commando. Trained as a sniper, a medic, and an explosives expert, he was considered a battle-tested leader. But in the heat of combat, some in his platoon saw a darker figure—a man who appeared to be coming unhinged after multiple deployments in America's forever wars. Their excitement to work with a tough, experienced chief soon gave way to a grim suspicion that his thirst for blood seemed to know no bounds and a belief that his unpredictability was as dangerous as the enemy. In riveting detail, Pulitzer Prize-winning New York Times correspondent David Philipps reveals the story of a group of special operators caught in a moral crucible—should they uphold their oath and turn in their chief, or honor the SEALs' unwritten code of silence? It is also a larger story of how the SEAL Teams drifted off course after 9/11, and of the "pirate" subculture that festered within their ranks—a secret brotherhood that, in a time of endless war with few clear victories, made the act of killing itself the paramount goal. The investigation and trial following Alpha's deployment—and Gallagher's ultimate acquittal on the most serious charges—would pit SEAL against SEAL, set the Navy brass on a collision course with President Donald Trump, and turn Gallagher into a political litmus test in a hotly polarized America. A page-turning tale of battle, honor, and betrayal, Alpha is a remarkable exposé of the fault lines fracturing a country that has been at war for a generation and counting.

THE INSTANT #1 NATIONAL BESTSELLER From the #1 New York Times bestselling authors of Extreme Ownership comes a new and revolutionary approach to help leaders recognize and attain the leadership balance crucial to victory. With their first book, Extreme Ownership (published in October 2015), Jocko Willink and Leif Babin set a new standard for leadership, challenging readers to become better leaders, better followers, and better people, in both their professional and personal lives. Now, in THE DICHOTOMY OF LEADERSHIP, Jocko and Leif dive even deeper into the uncharted and complex waters of a concept first introduced in Extreme Ownership: finding balance between the opposing forces that pull every leader in different directions. Here, Willink and Babin get granular into the nuances that every successful leader must navigate. Mastering the Dichotomy of Leadership requires understanding when to lead and when to follow; when to aggressively maneuver and when to pause and let things develop; when to detach and let the team run and when to dive into the details and micromanage. In addition, every leader must: · Take Extreme Ownership of everything that impacts their mission, yet utilize Decentralize Command by giving ownership to their team. · Care deeply about their people and their individual success and livelihoods, yet look out for the good of the overall team and above all accomplish the strategic mission. · Exhibit the most important quality in a leader—humility, but also be willing to speak up and push back against questionable decisions that could hurt the team and the mission. With examples from the authors' combat and training experiences in the SEAL teams, and then a demonstration of how each lesson applies to the business world, Willink and Babin clearly explain THE DICHOTOMY OF LEADERSHIP—skills that are mission-critical for any leader and any team to achieve their ultimate goal: VICTORY.

Based on a Navy SEAL's inspiring graduation speech, this #1 New York Times bestseller of powerful life lessons "should be read by every leader in America" (Wall Street Journal). If you want to change the world, start off by making your bed. On May 17, 2014, Admiral William H. McRaven addressed the graduating class of the University of Texas at Austin on their Commencement day. Taking inspiration from the university's slogan, "What starts here changes the world," he shared the ten principles he learned during Navy Seal training that helped him overcome challenges not only in his training and long Naval career, but also throughout his life; and he explained how anyone can use these basic lessons to change themselves-and the world-for the better. Admiral McRaven's original speech went viral with over 10 million views. Building on the core tenets laid out in his speech, McRaven now recounts tales from his own life and from those of people he encountered during his military service who dealt with hardship and made tough decisions with determination, compassion, honor, and courage. Told with great humility and optimism, this timeless book provides simple wisdom, practical advice, and words of encouragement that will inspire readers to achieve more, even in life's darkest moments. "Powerful." --USA Today "Full of captivating personal anecdotes from inside the national security vault." --Washington Post "Superb, smart, and succinct." --Forbes

BEFORE HE COULD FORGE A BAND OF ELITE WARRIORS... HE HAD TO BECOME ONE HIMSELF. Brandon Webb's experiences in the world's most elite sniper corps are the stuff of legend. From his grueling years of training in Naval Special Operations to his combat tours in the Persian Gulf and Afghanistan, *The Making of a Navy SEAL* provides a rare and riveting look at the inner workings of the U.S. military through the eyes of a covert operations specialist. Yet it is Webb's distinguished second career as a lead instructor for the shadowy "sniper cell" and Course Manager of the Navy SEAL Sniper Program that trained some of America's finest and deadliest warriors—including Marcus Luttrell and Chris Kyle—that makes his story so compelling. Luttrell credits Webb's training with his own survival during the ill-fated 2005 Operation Redwing in Afghanistan. Kyle went on to become the U.S. military's top marksman, with more than 150 confirmed kills. From a candid chronicle of his student days, going through the sniper course himself, to his hair-raising close calls with Taliban and al Qaeda forces in the northern Afghanistan wilderness, to his vivid account of designing new sniper standards and training some of the most accomplished snipers of the twenty-first century, Webb provides a rare look at the making of the Special Operations warriors who are at the forefront of today's military. Explosive, revealing, and intelligent, *The Making of a Navy SEAL* provides a uniquely personal glimpse into one of the most challenging and secretive military training courses in the world.
