Religious games suggest new perspectives on life by proposing unusual, hypothetical conditions and having the players imagine their reactions

The third volume--the book that made Knausgaard a phenomenon in the United States--in the addictive New York Times bestselling series A family of four--mother, father, and two boys--move to the south coast of Norway, to a new house on a newly developed site. It is the early 1970s and the family's trajectory is upwardly mobile: the future seems limitless. In painstaking, sometimes self-lacerating detail, Karl Ove Knausgaard paints a world familiar to anyone who can recall the intensity and novelty of childhood experience, one in which children and adults lead parallel lives that never meet. Perhaps the most Proustian in the series, My Struggle: Book 3 gives us Knausgaard's vivid, technicolor recollections of childhood, his emerging self-understanding, and the multilayered nature of time's passing, memory, and existence.

NEW YORK TIMES BEST SELLER • A TODAY SHOW #READWITHJENNA BOOK CLUB PICK! • The moving story of an undocumented child living in poverty in the richest country in the world—an incandescent debut from an astonishing new talent “Heartrending, unvarnished, and powerfully courageous, this account of growing up undocumented in America will never leave you.” —Gish Jen, author of The Resisters In Chinese, the word for America, Mei Guo, translates directly to “beautiful country.” Yet when seven-year-old Qian arrives in New York City in 1994 full of curiosity, she is overwhelmed by crushing fear and scarcity. In China, Qian's parents were professors; in America, her family is “illegal” and it will require all the determination and small joys they can muster to survive. In Chinatown, Qian's parents labor in sweatshops. Instead of laughing at her jokes, they fight constantly, taking out the stress of their new life on one another. Shunned by her classmates and teachers for her limited English, Qian takes refuge in the library and masters the language through books, coming to think of The Berenstain Bears as her first American friends. And where there is delight to be found, Qian relishes it: her first bite of gloriously greasy pizza, weekly “shopping days,” when Qian finds small treasures in the trash lining Brooklyn's streets, and a magical Christmas visit to Rockefeller Center—confirmation that the New York City she saw in movies does exist after all. But then Qian's headstrong Ma Ma collapses, revealing an illness that she has kept secret for months for fear of the cost and scrutiny of a doctor's visit. As Ba Ba retreats further inward, Qian has little to hold onto beyond his constant refrain: Whatever happens, say that you were born here, that you've always lived here. Inhabiting her childhood perspective with exquisite lyric clarity and unforgettable charm and strength, Qian Julie Wang has penned an essential American story about a family fracturing under the weight of invisibility, and a girl coming of age in the shadows, who never stops seeking the light. Reading Notes To Myself is one of those rare experiences that comes only once in a great while. The editor who discovered the book said, “When I first read Prather's manuscript it was late at night and I was tired, but by the time I finished it, I felt rested and alive. Since then I've reread it many times and it says even more to me now.” The book serves as a beginning for the reader's exploration of his or her own life and as a treasury of thoughtful and insightful reminders.

In his New York Times bestselling memoir, A Work in Progress, Connor Franta shared his journey from small-town Midwestern boy to full-fledged Internet sensation. Exploring his past with humor and astounding insight, Connor reminded his fans of why they first fell in love with him on YouTube—and revealed to newcomers how he relates to his millions of dedicated followers. Now, two years later, Connor is ready to bring to light a side of himself he's rarely shown on or off camera. In this diary-like look at his life since A Work In Progress, Connor talks about his battles with clinical depression, social anxiety, self-love, and acceptance; his desire to maintain an authentic self in a world that values shares and likes over true connections; his struggles with love and loss; and his renewed efforts to be in the moment—with others and himself. Told through short essays, letters to his past and future selves, poetry, and original photography, Note to Self is a raw, in-the-moment look at the fascinating interior life of a young creator turning inward in order to move forward.

break-dancing with her brother. But then she meets Ocean James. He's the first person in forever who really seems to want to get to know Shirin. It terrifies her—they seem to come from two irreconcilable worlds—and Shirin has had her guard up for so long that she's not sure she'll ever be able to let it down.

Bestselling writer and psychotherapist Irvin D. Yalom puts himself on the couch in a lapidary memoir Irvin D. Yalom has made a career of investigating the lives of others. In this profound memoir, he turns his writing and his therapeutic eye on himself. He opens his story with a nightmare: He is twelve, and is riding his bike past the home of an acne-scarred girl. Like every morning, he calls out, hoping to befriend her, "Hello Measles!" But in his dream, the girl's father makes Yalom understand that his daily greeting had hurt her. For Yalom, this was the birth of empathy; he would not forget the lesson. As Becoming Myself unfolds, we see the birth of the insightful thinker whose books have been a beacon to so many. This is not simply a man's life story, Yalom's reflections on his life and development are an invitation for us to reflect on the origins of our own selves and the meanings of our lives.

The authors reveal the challenges of their twenty-five-year marriage in a personal memoir of married life that explores values, child-rearing, sexuality, and other conjugal concerns

In the past few decades, personality psychology has made considerable progress in raising new questions about human nature—and providing some provocative answers. New scientific research has transformed old ideas about personality based on the theories of Freud, Jung, and the humanistic psychologies of the nineteen sixties, which gave rise to the simplistic categorizations of the Meyer-Briggs Inventory and the 'enneagram'. But the general public still knows little about the new science and what it reveals about who we are. In this book, Brian Little, one of the psychologists who

helped re-shape the field, provides the first in-depth exploration of the new personality science and its provocative findings for general readers. The book explores questions that are rooted in the origins of human consciousness but are as commonplace as yesterday's breakfast conversation. Are our first impressions of other people's personalities usually fallacious? Are creative individuals essentially maladjusted? Are our personality traits, as William James put it "set like plaster" by the age of thirty? Is a belief that we are in control of our lives an unmitigated good? Do our singular personalities comprise one unified self or a confederacy of selves, and if the latter, which of our mini-me-s do we offer up in marriage or mergers? Are some individuals genetically hard-wired for happiness? Which is the more viable path toward human flourishing, the pursuit of happiness or the happiness of pursuit? Little provides a resource for answering such questions, and a framework through which readers can explore the personal implications of the new science of personality. Questionnaires and interactive assessments throughout the book facilitate self-exploration, and clarify some of the stranger aspects of our own conduct and that of others. Brian Little helps us see ourselves, and other selves, as somewhat less perplexing and definitely more intriguing. This is not a self-help book, but students at Harvard who took the lecture course on which it is based claim that it changed their lives.

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

From the internationally bestselling author of the "terrifically affecting" (*The Philadelphia Inquirer*) *Mornings in Jenin*, a sweeping and lyrical novel that follows a young Palestinian refugee as she slowly becomes radicalized while searching for a better life for her family throughout the Middle East, for readers of international literary bestsellers including *Washington Black*, *My Sister*, *The Serial Killer*, and *Her Body and Other Parties*. As Nahr sits, locked away in solitary confinement, she spends her days reflecting on the dramatic events that landed her in prison in a country she barely knows. Born in Kuwait in the 70s to Palestinian refugees, she dreamed of falling in love with the perfect man, raising children, and possibly opening her own beauty salon. Instead, the man she thinks she loves jilts her after a brief marriage, her family teeters on the brink of poverty, she's forced to prostitute herself, and the US invasion of Iraq makes her a refugee, as her parents had been. After trekking through another temporary home in Jordan, she lands in Palestine, where she finally makes a home, falls in love, and her destiny unfolds under Israeli occupation. Nahr's subversive humor and moral ambiguity will resonate with fans of *My Sister*, *The Serial Killer*, and her dark, contemporary struggle places her as the perfect sister to Carmen Maria Machado's *Her Body and Other Parties*. Written with Susan Abulhawa's distinctive "richly detailed, beautiful, and resonant" (*Publishers Weekly*) prose, this powerful novel presents a searing, darkly funny, and wholly unique portrait of a Palestinian woman who refuses to be a victim.

"A quietly brilliant book that warms slowly in the hands." —Dwight Garner, *The New York Times* I am not talking about surviving. I am not talking about becoming human, but about how I came to realize that I had always already been human. I am writing about all that I wanted to have, and how I got it. I am writing about what it cost, and how I was able to afford it. Jan Grue was diagnosed with spinal muscular atrophy at the age of three. Shifting between specific periods of his life—his youth with his parents and sister in Norway; his years of study in Berkeley, St. Petersburg, and Amsterdam; and his current life as a professor, husband, and father—he intersperses these histories with elegant, astonishingly wise reflections on the world, social structures, disability, loss, relationships, and the body: in short, on what it means to be human. Along the way, Grue moves effortlessly between his own story and those of others, incorporating reflections on philosophy, film, art, and the work of writers from Joan Didion to Michael Foucault. He revives the cold, clinical language of his childhood, drawing from a stack of medical records that first forced the boy who thought of himself as “just Jan” to perceive that his body, and therefore his self, was defined by its defects. *I Live a Life Like Yours* is a love story. It is rich with loss, sorrow, and joy, and with the details of one life: a girlfriend pushing Grue through the airport and forgetting him next to the baggage claim; schoolmates forming a chain behind his wheelchair on the ice one winter day; his parents writing desperate letters in search of proper treatment for their son; his own young son climbing into his lap as he sits in his wheelchair, only to leap down and run away too quickly to catch. It is a story about accepting one’s own body and limitations, and learning to love life as it is while remaining open to hope and discovery.

A thirty-day program for achieving "spiritual purification" recommends letting go as the key to happiness and shows readers how to cast off the prejudices, preconceptions, and prejudgements that imprison them. Original. 40,000 first printing.

In her first novel since *The Quick and the Dead* (a finalist for the Pulitzer Prize), the legendary writer takes us into an uncertain landscape after an environmental apocalypse, a world in which only the man-made has value, but some still wish to salvage the authentic. "She practices ... camouflage, except that instead of adapting to its environment, Williams’s imagination, by remaining true to itself, reveals new colorations in the ecology around her." —A.O. Scott, *The New York Times Book Review* Kristen is a teenager who, her mother believes, was marked by greatness as a baby when she died for a moment and then came back to life. After Kristen’s failing boarding school for gifted teens closes its doors, and she finds that her mother has disappeared, she ranges across the dead landscape and washes up at a “resort” on the shores of a mysterious, putrid lake the elderly residents there call “Big Girl.” In a rotting honeycomb of rooms, these old ones plot actions to punish corporations and people they consider culpable in the destruction of the final scraps of nature’s beauty. What will Kristen and Jeffrey, the precocious ten-year-old boy she meets there, learn from this “gabby seditious lot, in the worst of health but with kamikaze hearts, an army of the aged and ill, determined to refresh, through crackpot violence, a plundered earth”? Rivetingly strange and beautiful, and delivered with Williams’s searing, deadpan wit, *Harrow* is their intertwined tale of paradise lost and of their reasons—against all reasonableness—to try and recover something of it.

From the two-time Pulitzer Prize-winning author of *The Underground Railroad* and *The Nickel Boys*: a hilarious and supremely original novel set in the Hamptons in the 1980s, "a tenderhearted coming-of-age story fused with a sharp look at the intersections of race and class" (*The New York Times*). Benji Cooper is one of the few Black students at an elite prep school in Manhattan. But every summer, Benji escapes to the Hamptons, to Sag Harbor, where a small community of Black professionals have built a world of their own. The summer of '85 won't be without its usual trials and tribulations, of course. There will be complicated new handshakes to fumble through and state-of-the-art profanity to master. Benji will be tested by contests big and small, by his misshapen haircut (which seems to have a will of its own), by the New Coke Tragedy, and by his secret Lite FM addiction. But maybe, just maybe, this summer might be one for the ages. Look for Colson Whitehead’s bestselling new novel, *Harlem Shuffle*!

Americans have built an empire on the idea of “race,” a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates’s attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children’s lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a way forward. "Thrilling, tender, utterly absorbing . . . Every chapter shimmered with truth. It's an unforgettable debut." --Cheryl Strayed From travel writer Jedidiah Jenkins comes a long-awaited memoir of adventure, struggle, and lessons learned while bicycling the 14,000 miles from Oregon to Patagonia. On the eve of turning thirty, terrified of being funneled into a life he didn't choose, Jedidiah Jenkins quit his dream job and spent the next sixteen months cycling from Oregon to Patagonia. He chronicled the trip on Instagram, where his photos and profound reflections on life soon attracted hundreds of thousands of followers and got him featured by *National Geographic* and *The Paris Review*. In this unflinchingly honest memoir, Jed narrates the adventure that started it all: the people and places he encountered on his way to the bottom of the world, and the internal journey that prompted it. As he traverses cities, mountains, and inner boundaries, Jenkins grapples with the questions of what it means to be an adult, his struggle to reconcile his sexual identity with his conservative Christian upbringing, and his belief in travel as a way to "wake us up" to life back home. A soul-stirring read for the wanderer in each of us, *To Shake the Sleeping Self* is an unforgettable reflection on adventure, identity, and a life lived without regret.

INSTANT NEW YORK TIMES BESTSELLER In love for the first time, a son’s decisions about the future divides his family in this fearless and thought-provoking novel from the #1 New York Times bestselling author of life-changing fiction. When eighteen-year-old Tommy Baxter declares to his family that he wants to be a police officer after graduation, his mother, Reagan, won’t hear of it. After all, she’s still mourning the death of her own father on September 11 and she’s determined to keep her son safe from danger. But Tommy’s father, Luke, is proud of Tommy’s decision. He would make a kind and compassionate cop. Meanwhile, Tommy is in love for the first time. His sweet relationship with Annalee Miller is almost too good to be true. Tommy begins seriously thinking about the far off day when he can ask her to marry him but she hasn’t been feeling well. Tests reveal the unthinkable. While his girlfriend begins the fight of her life, Tommy is driven to learn more about the circumstances surrounding his birth and the grandfather he never knew. Secrets come to light that rock Tommy’s world, and he becomes determined to spend his future fighting crime and bringing peace to the streets. Or is this just his way to fight a battle he cannot win—the one facing Annalee? Blending romance and family drama, *Truly, Madly, Deeply* shows us that, in the shadow of great loss, the only way to live with passion is truly, madly, deeply.

The extraordinary final volume of 'the most significant literary enterprise of our times' (*Guardian*) *The End* is the sixth and final book in the monumental *My Struggle* cycle, which depicts life in all its shades, from moments of great drama to seemingly trivial everyday details. Here, Karl Ove Knausgaard examines life, death, love and literature with unsparing rigour and begins to count the cost of his project. He reflects on the fallout from the earlier books as he faces the pressures of literary acclaim and its often shattering repercussions. *The End* is at once a meditation on writing and its relationship with reality, and an account of a writer's relationship with himself - his ambitions, his frailties and doubts.

A strikingly original exploration of what it might mean to be authentically human in the age of artificial intelligence, from the author of the critically-acclaimed *Interior States*. "Meghan O’Gieblyn is a brilliant and humble philosopher, and her book is an explosively thought-provoking, candidly personal ride I wished never to end ... This book is such an original synthesis of ideas and disclosures. It introduces what will soon be called the O’Gieblyn genre of essay writing." —Heidi Julavits, author of *The Folded Clock* For most of human history the world was a magical and enchanted place ruled by forces beyond our understanding. The rise of science and Descartes's division of mind from world made materialism our ruling paradigm, in the process asking whether our own consciousness—i.e., souls—might be illusions. Now the inexorable rise of technology, with artificial intelligences that surpass our comprehension and control, and the spread of digital metaphors for self-understanding, the core questions of

existence—identity, knowledge, the very nature and purpose of life itself—urgently require rethinking. Meghan O'Gieblyn tackles this challenge with philosophical rigor, intellectual reach, essayistic verve, refreshing originality, and an ironic sense of contradiction. She draws deeply and sometimes humorously from her own personal experience as a formerly religious believer still haunted by questions of faith, and she serves as the best possible guide to navigating the territory we are all entering.

Provides inspirational advice on initiating and maintaining spirituality, which will ultimately satisfy the soul and provide personal contentment.
