Paul Laurence Dunbar (June 27, 1872 - February 9, 1906) was an African-American poet, novelist, and playwright of the late 19th and early 20th centuries. Born in Dayton, Ohio, to parents who had been slaves in Kentucky before the American Civil War, Dunbar started to write as a child and was president of his high school's literary society. He published his first poems at the age of 16 in a Dayton newspaper. Much of his more popular work in his lifetime was written in the Negro dialect associated with the antebellum South. His work was praised by William Dean Howells, a leading critic associated with the Harper's Weekly, and Dunbar was one of the first African-American writers to establish a national reputation. He wrote the lyrics for the musical comedy, *In Dahomey* (1903), the first all-African-American musical produced on Broadway; the musical also toured in the United States and the United Kingdom. Dunbar also wrote in conventional English in other poetry and novels; since the late 20th century, scholars have become more interested in these other works. Suffering from tuberculosis, Dunbar died at the age of 33. Dunbar's work is known for its colorful language and a conversational tone, with a brilliant rhetorical structure. These traits were well matched to the tune-writing ability of Carrie Jacobs-Bond (1862-1946), with whom he collaborated. Dunbar became the first African-American poet to earn national distinction and acceptance. The *New York Times* called him "a true singer of the people - white or black."

Frederick Douglass once referred to Dunbar as, "one of the sweetest songsters his race has produced and a man of whom [he hoped] great things." His friend and writer James Weldon Johnson highly praised Dunbar, writing in *The Book of American Negro Poetry*: "Paul Laurence Dunbar stands out as the first poet from the Negro race in the United States to show a combined mastery over poetic material and poetic technique, to reveal innate literary distinction in what he wrote, and to maintain a high level of performance. He was the first to rise to a height from which he could take a perspective view of his own race. He was the first to

see objectively its humor, its superstitions, its short-comings; the first to feel sympathetically its heart-wounds, its yearnings, its aspirations, and to voice them all in a purely literary form."

It is very important that children learn to pray. There are many cases where children find themselves as targets for devastating evil attacks. Some have even lost their lives, by becoming human sacrifices upon occultic altars. Though it is important for parents to cover their children, there are countless children who find themselves in homes where there is no spiritual covering. Moreover, the devil understands the threat children pose to his kingdom once they come of age and mature in the way of the Lord. As a result, there is a satanic agenda to take children out prematurely before they rise to prominence, especially those with great destinies. The bible records in Exodus 1:22 that Pharaoh passed a decree to cast all the Hebrew new born sons in to the river Nile to end their life.

Talma Gordon (1900) is a short story by Pauline E. Hopkins. Recognized as the first African American mystery story, Talma Gordon was originally published in the October 1900 edition of *The Colored American Magazine*, America's first monthly periodical covering African American arts and culture. Combining themes of racial identity and passing with a locked room mystery plot, Hopkins weaves a masterful tale of conspiracy, suspicion, and murder. "When the trial was called Jeannette sat beside Talma in the prisoner's dock; both were arrayed in deepest mourning, Talma was pale and careworn, but seemed uplifted, spiritualized, as it were. [...] She had changed much too: hollow cheeks, tottering steps, eyes blazing with fever, all suggestive of rapid and premature decay." When Puritan descendant Jonathan Gordon is discovered murdered under suspicious circumstances, the ensuing trial implicates his own daughter Talma. Despite

being declared innocent, the townsfolk are determined to believe that Talma conspired to have her father killed after he discovered her mixed racial heritage. Freed from the prospect of imprisonment, Talma is left with only her sister's protection against the anger and violence of her neighbors. With this thrilling tale of murder and racial tension, Hopkins proves herself as a true pioneer of American literature, a woman whose talent and principles afforded her the vision necessary for illuminating the injustices of life in a nation founded on slavery and genocide. With a beautifully designed cover and professionally typeset manuscript, this edition of Pauline E. Hopkins' Talma Gordon is a classic work of African American literature reimagined for modern readers.
