comes Theodore Taylor's classic bestseller and Lewis Carroll Shelf Award winner, *The Cay*. Phillip is excited when the Germans invade the small island of Curaçao. War has always been a game to him, and he's eager to glimpse it firsthand—until the freighter he and his mother are traveling to the United States on is torpedoed. When Phillip comes to, he is on a small raft in the middle of the sea. Besides Stew Cat, his only companion is an old West Indian, Timothy. Phillip remembers his mother's warning about black people: "They are different, and they live differently." But by the time the castaways arrive on a small island, Phillip's head injury has made him blind and dependent on Timothy. "Mr. Taylor has provided an exciting story...The idea that all humanity would benefit from this special form of color blindness permeates the whole book...The result is a story with a high ethical purpose but no sermon."—New York Times Book Review "A taut tightly compressed story of endurance and revelation...At once barbed and tender, tense and fragile—as Timothy would say, 'outrageous good.'"—Kirkus Reviews * "Fully realized setting...artful, unobtrusive use of dialect...the representation of a hauntingly deep love, the poignancy of which is rarely achieved in children's literature."—School Library Journal, Starred "Starkly dramatic, believable and compelling."—Saturday Review "A tense and moving experience in reading."—Publishers Weekly "Eloquently underscores the intrinsic brotherhood of man."—Booklist "This is one of the best survival stories since Robinson Crusoe."—The Washington Star · A New York Times Best Book of the Year · A School Library Journal Best Book of

In Dublin, 1918, a maternity ward at the height of the Great Flu is a small world of work, risk, death, and unlooked-for love, in "Donoghue's best novel since Room" (Kirkus Reviews). In an Ireland doubly ravaged by war and disease, Nurse Julia Power works at an understaffed hospital in the city center, where expectant mothers who have come down with the terrible new Flu are quarantined together. Into Julia's regimented world step two outsiders—Doctor Kathleen Lynn, a rumoured Rebel on the run from the police, and a young volunteer helper, Bridie Sweeney. In the darkness and intensity of this tiny ward, over three days, these women change each other's lives in unexpected ways. They lose patients to this baffling pandemic, but they also shepherd new life into a fearful world. With tireless tenderness and humanity, carers and mothers alike somehow do their impossible work. In *The Pull of the Stars*, Emma Donoghue once again finds the light in the darkness in this new classic of hope and survival against all odds. From the moment Gooney Bird Greene arrives at Watertown Elementary School, her fellow second-

graders are intrigued by her unique sense of style and her unusual lunches. So when story time arrives, the choice is unanimous: they want to hear about Gooney Bird Greene. And that suits her just fine, because, as it turns out, Gooney Bird has quite a few interesting and "absolutely true" stories to tell. Through Gooney Bird and her tales, acclaimed author Lois Lowry introduces young readers to the concepts and elements of storytelling. By demonstrating some of the simple techniques that reveal the extraordinary in everyday events, this book will encourage the storyteller in everyone.

"Spurious Correlations ... is the most fun you'll ever have with graphs."--Bustle Military intelligence analyst and Harvard Law student Tyler Vigen illustrates the golden rule that "correlation does not equal causation" through hilarious graphs inspired by his viral website. Is there a correlation between Nic Cage films and swimming pool accidents? What about beef consumption and people getting struck by lightning? Absolutely not. But that hasn't stopped millions of people from going to tylervigen.com and asking, "Wait, what?" Vigen has designed software that scours enormous data sets to find unlikely statistical correlations. He began pulling the funniest ones for his website and has since gained millions of views, hundreds of thousands of likes, and tons of media coverage. Subversive and clever, Spurious Correlations is geek humor at its finest, nailing our obsession with data and conspiracy theory.

Anastasia continues the perilous process of growing up, as her thirteenth year involves conquering the art of rope climbing, playing Cupid for a recently widowed uncle, and surviving a crush on her gym teacher.

From two-time Newbery medalist and living legend Lois Lowry comes a moving account of the lives lost in two of WWII's most infamous events: Pearl Harbor and Hiroshima. With evocative black-and-white illustrations by SCBWI Golden Kite Award winner Kenard Pak. Lois Lowry looks back at history through a personal lens as she draws from her own memories as a child in Hawaii and Japan, as well as from historical research, in this stunning work in verse for young readers. *On the Horizon* tells the story of people whose lives were lost or forever altered by the twin tragedies of Pearl Harbor and Hiroshima. Based on the lives of soldiers at Pearl Harbor and civilians in Hiroshima, *On the Horizon* contemplates humanity and war through verse that sings with pain, truth, and the importance of bridging cultural divides. This masterful work emphasizes empathy and understanding in search of commonality and friendship, vital lessons for students as well as citizens of today's world. Kenard Pak's stunning illustrations depict real-life people, places, and events, making for an incredibly vivid return to our collective past. In turns haunting, heartbreaking, and uplifting, *On the Horizon* will remind readers of the horrors and heroism in our past, as well as offer hope for our future.

"Racism is an existential threat to America," Theodore R. Johnson declares at the start of his profound and exhilarating book. It is a refutation of the American Promise enshrined in our Constitution that all men and women are inherently equal.

And yet racism continues to corrode our society. If we cannot overcome it, Johnson argues, while the United States will remain as a geopolitical entity, the promise that made America unique on Earth will have died. When the Stars Begin to Fall makes a compelling, ambitious case for a pathway to the national solidarity necessary to mitigate racism. Weaving memories of his own and his family's multi-generational experiences with racism, alongside strands of history, into his elegant narrative, Johnson posits that a blueprint for national solidarity can be found in the exceptional citizenship long practiced in Black America. Understanding that racism is a structural crime of the state, he argues that overcoming it requires us to recognize that a color-conscious society—not a color-blind one—is the true fulfillment of the American Promise. Fueled by Johnson's ultimate faith in the American project, grounded in his family's longstanding optimism and his own military service, When the Stars Begin to Fall is an urgent call to undertake the process of overcoming what has long seemed intractable.

The hidden brain is the voice in our ear when we make the most important decisions in our lives—but

we're never aware of it. The hidden brain decides whom we fall in love with and whom we hate. It tells us to vote for the white candidate and convict the dark-skinned defendant, to hire the thin woman but pay her less than the man doing the same job. It can direct us to safety when disaster strikes and move us to extraordinary acts of altruism. But it can also be manipulated to turn an ordinary person into a suicide terrorist or a group of bystanders into a mob. In a series of compulsively readable narratives, Shankar Vedantam journeys through the latest discoveries in neuroscience, psychology, and behavioral science to uncover the darkest corner of our minds and its decisive impact on the choices we make as individuals and as a society. Filled with fascinating characters, dramatic storytelling, and cutting-edge science, this is an engrossing exploration of the secrets our brains keep from us—and how they are revealed.

This Newbery Honor-winning book shows us that in the steady courage of a young girl lies a profound strength that can transcend the horrors of war. This is the true story of a girl's extraordinary survival during the German occupation of Holland of World War II. Annie was only ten years old, but because she was Jewish, she was forced to leave her family, her home, and everything she knew. Annie was taken in, far from home, by complete strangers who risked everything to help her. They showed Annie

where she had to stay - the cramped upstairs room of their farmhouse. She would remain there while Nazis, who were ever vigilant, patrolled the streets outside. If Annie made even a sound from upstairs, or if a nosy neighbor caught sight of her in the window, it would surely mean a death sentence for her and the family that took her in. Elie Wiesel writes, "This admirable account is as important in every aspect as the one bequeathed to us by Anne Frank." In some children, the old blood shows, giving them strength, speed, and mystical power. In the cities of Abeth's Corridor, such children are prized. But on the vast ice plains of Abeth, those traits lead children to burn bright and die young, and the discipline of the priests is harsh. Any child who shows signs of the old races is cast into the Pit of the Missing, never to be seen again. Yaz is only sixteen, but she feels a burgeoning gift and she knows the next gathering will be her last--the priests see everything, and her aberrance will not be tolerated. But then she is spared and her brother is identified as one of the broken and cast down into the pit. Stunned, awash with guilt and grief, she flings herself in after him. She expects to find death. Instead she finds a sprawling, secret civilization, where survival is even
