Do you have a child who is into everything? Your energetic, bubbly child is often the center of attention and sometimes in the middle of trouble! Or perhaps you have a child who is just the opposite: quiet, studious, and slow to warm up in social situations. Then there's the future lawyer: that argumentative, willful child who sometimes makes you want to pull your hair out. As parents, we all have, at one time or another, wondered: Where did this child come from? Why isn't he just like me? Am I doing something wrong? You are not doing anything wrong, and there is very likely nothing wrong with your child! The differences described above are all differences in God-given temperament. When you understand your child's unique temperament, you will have the key to unlocking his behavior, moods, and motivational forces. The end result is not only more effective discipline for day-to-day adventures but also a lifelong recognition of how to nurture your child's strengths as a loving and supportive parent, teacher, or grandparent. Become an active, compassionate participant in your child's social and spiritual formation and bring peace, happiness, and holiness to your family in the way God intended. Art and Laraine Bennett provide an accessible synthesis of classical wisdom, modern counseling, science, Catholic spirituality, and wonderful storytelling to the four basic temperaments that serve as the foundation of one's personality and approach to life. This is the author's third book on the topic of temperaments, sharing not only their professional expertise but also their personal life experiences. They have been married for thirty-four years and have four children one each of the four temperament types!

#1 New York Times Bestseller Legendary venture capitalist John Doerr reveals how the goal-setting system of Objectives and Key Results (OKRs) has helped tech giants from Intel to Google achieve explosive growth—and how it can help any organization thrive. In the fall of 1999, John Doerr met with the founders of a start-up whom he'd just given \$12.5 million, the biggest investment of his career. Larry Page and Sergey Brin had amazing technology, entrepreneurial energy, and sky-high ambitions, but no real business plan. For Google to change the world (or even to survive), Page and Brin had to learn how to make tough choices on priorities while keeping their team on track. They'd have to know when to pull the plug on losing propositions, to fail fast. And they needed timely, relevant data to track their progress—to measure what mattered. Doerr taught them about a proven approach to operating excellence: Objectives and Key Results. He had first discovered OKRs in the 1970s as an engineer at Intel, where the legendary Andy Grove ("the greatest manager of his or any era") drove the best-run company Doerr had ever seen. Later, as a venture capitalist, Doerr shared Grove's brainchild with more than fifty companies. Wherever the process was faithfully practiced, it worked. In this goal-setting system, objectives define what we seek to achieve; key results are how those top-priority goals will be attained with specific, measurable actions within a set time frame. Everyone's goals, from entry level to CEO, are transparent to the entire organization. The benefits are profound. OKRs surface an organization's most important work. They focus effort and foster coordination. They keep employees on track. They link objectives across silos to unify and strengthen the entire company.

Along the way, OKRs enhance workplace satisfaction and boost retention. In *Measure What Matters*, Doerr shares a broad range of first-person, behind-the-scenes case studies, with narrators including Bono and Bill Gates, to demonstrate the focus, agility, and explosive growth that OKRs have spurred at so many great organizations. This book will help a new generation of leaders capture the same magic.
