[Siren Publishing: The Lynn Hagen ManLove Collection: Erotic Alternative Contemporary Romantic Suspense, M/M, HEA] Lewis thinks moving to a small town will help his relationship with Grant, but the move only made matters worse. Now that Grant is in the wind, the law trying to track him down, Lewis struggles to get on with his life. Only, someone has begun to terrorize him--breaking into his house and vandalizing his bakery--and the last person Lewis expected to come to his aid is Mo--a man who runs every time Lewis tries to strike up a conversation. Moses Sheppard is rough around the edges, unpolished, and used to barking orders and getting the job done. He doesn't have a gentle bone in his body, until he meets Lewis, the timid little baker who is being harassed. Mo takes it upon himself to be Lewis's protector, but what starts out as innocent intentions quickly escalates into something that changes them both forever. ** A Siren Erotic Romance Lynn Hagen is a Siren-exclusive author.

UNDERSTANDING OPERATING SYSTEMS provides a basic understanding of operating systems theory, a comparison of the major operating systems in use, and a description of the technical and operational tradeoffs inherent in each. The effective two-part organization covers the theory of operating systems, their historical roots, and their conceptual basis (which does not change substantially), culminating with how these theories are applied in the specifics of five operating systems (which evolve constantly). The authors explain this technical subject in a not-so-technical manner, providing enough detail to illustrate the complexities of stand-alone and networked operating systems. UNDERSTANDING OPERATING SYSTEMS is written in a clear, conversational style with concrete examples and illustrations that readers easily grasp.

The two-and-a-half centuries after 1066 were momentous ones in the history of Britain. In 1066, England was conquered for the last time. The Anglo-Saxon ruling class was destroyed and and the English became a subject race, dominated by a Norman-French dynasty and aristocracy. This book shows how the English domination of the kingdom was by no means a foregone conclusion. The struggle for mastery in the book's title is in reality the struggle for different masteries within Great Britain. The book weaves together the histories of England, Scotland and Wales in a new way and argues that all three, in their different fashions, were competing for domination
