In the first book to argue for the benefits of boredom, Peter Toohey dispels the myth that it's simply a childish emotion or an existential malaise like Jean-Paul Sartre's nausea. He shows how boredom is, in fact, one of our most common and constructive emotions and is an essential part of the human experience. This informative and entertaining investigation of boredom--what it is and what it isn't, its uses and its dangers--spans more than 3,000 years of history and takes readers through fascinating neurological and psychological theories of emotion, as well as recent scientific investigations, to illustrate its role in our lives. There are Australian aboriginals and bored Romans, Jeffrey Archer and caged cockatoos, Camus and the early Christians, Durer and Degas. Toohey also explores the important role that boredom plays in popular and highbrow culture and how over the centuries it has proven to be a stimulus for art and literature. Toohey shows that boredom is a universal emotion experienced by humans throughout history and he explains its place, and value, in today's world. "Boredom: A Lively History "is vital reading for anyone interested in what goes on when supposedly nothing happens.

This edited collection offers the first systematic account in English of Italy's international position from Caporetto – a major turning-point in Italy's participation in the First World War – to the end of the liberal regime in Italy in 1922. It shows that after the 'Great War', not only did Italy establish itself as a regional power but also achieved its post-unification ambition to be recognised, at least from a formal viewpoint, as a great power. This subject is addressed through multiple perspectives, covering Italy's relations and mutual perceptions vis-à-vis the Allies, the vanquished nations, and the 'New Europe'. Fourteen contributions by leading historians reappraise Italy's role in the construction of the post-war international order, drawing on extensive multi-archival and multi-national research, combining for the first time documents from American, Austrian, British, French, German, Italian, Russian and former Yugoslav archives. Modern technology is pitted against ancient dinosaurs in this scientific thriller James Rollins calls “Jurassic Park set amid the paradox of time travel.” Paleontologist Richard Leyster is perfectly content in his position with the Smithsonian excavating dinosaur fossil sites and publishing his findings . . . until the mysterious Harry Griffin appears in his office with a cooler containing the head of a freshly killed Stegosaurus. The enigmatic stranger offers Leyster the opportunity to travel back in time to study living dinosaurs in their original habitats—but with strings attached. Soon, the paleontologist finds himself, along with a select team of colleagues—including his chief rival, the ambitious and often ruthless Dr. Gertrude Salley—making discoveries that would prove impossible working from fossils alone. But when Leyster and his team are stranded in the Cretaceous, they must learn to survive while still keeping alive the joy of scientific discovery. This shocking novel spans hundreds of millions of years and deals with the ultimate fate not only of the dinosaurs but also of all humankind. Nominated for the Locus Award, the Hugo Award, and the Nebula Award for Best Novel, *Bones of the Earth* cements author Michael Swanwick as an author who “proves that sci-fi has plenty of room for wonder and literary values” (San Francisco Chronicle).

"A sparkling debut. Landragin's seductive literary romp shines as a celebration of the act of storytelling." —Publishers Weekly "Romance, mystery, history, and magical invention dance across centuries in an impressive debut novel." —Kirkus Reviews (Starred Review) "Deft writing seduces the reader in a complex tale of pursuit, denial, and retribution moving from past to future. Highly recommended." —Library Journal (Starred Review) Alex Landragin's *Crossings* is an unforgettable and explosive genre-bending debut—a novel in three parts, designed to be read in two different directions, spanning a hundred and fifty years and seven lifetimes. On the brink of the Nazi occupation of Paris, a German-Jewish bookbinder stumbles across a manuscript called *Crossings*. It has three narratives, each as unlikely as the next. And the narratives can be read one of two ways: either straight through or according to an alternate chapter sequence. The first story in *Crossings* is a never-before-seen ghost story by the poet Charles Baudelaire, penned for an illiterate girl. Next is a noir romance about an exiled man, modeled on Walter Benjamin, whose recurring nightmares are cured when he falls in love with a storyteller who draws him into a dangerous intrigue of rare manuscripts, police corruption, and literary societies. Finally, there are the fantastical memoirs of a woman-turned-monarch whose singular life has spanned seven generations. With each new chapter, the stunning connections between these seemingly disparate people grow clearer and more extraordinary. *Crossings* is an unforgettable adventure full of love, longing and empathy.

Now in paperback, a collection of the legendary filmmaker's short fiction and nonfiction from 1950 to 1966, in which we see the machinations of the creative mind in post-World War II Rome. In a portrait of the city at once poignant and intimate, we find artistic witness to the customs, dialect, squalor, and beauty of the ancient imperial capital that has succumbed to modern warfare, marginalization, and mass culture. The sketches portray the impoverished masses that Pasolini calls "the sub-proletariat," those who live under Third World conditions and for whom simple pleasures, such as a blue sweater in a storefront window, are completely out of reach. Pasolini's art develops throughout the works collected here, from his early lyricism to tragicomic outlines for screenplays, and finally to the maturation of his Neo-realism in eight chronicles on the shantytowns of Rome. The pieces in this collection were all published in Italian journals and newspapers, and then later edited by Walter Siti in the original Italian edition.

A newly translated volume of the centuries-old spiritual epic of King Gesar. For centuries, the epic tale of Gesar of Ling has been told across Asia. This epic is a living oral tradition, performed widely by singers and bards and beloved especially in Tibet. Considered the longest single piece of literature in the world canon, the epic of Gesar chronicles the legend of King Gesar of Ling, a heroic figure known for his fearless leadership. The epic encompasses some 120 volumes and nearly 20 million words, and there are numerous versions across cultures. This book is the first English translation of the fourth volume of this sweeping literary work, with stories from after Gesar's coronation to the throne of Ling. This volume focuses on battles won and strategies applied, as the warrior-king Gesar fended off demons and liberated his foes. Though largely a violent account focused on his superhuman prowess in battle, this volume is rich with ethical proverbs that inform Tibetan culture to this day. A significant work of legend, the epic of Gesar is also a vital part of Tibetan Buddhism, as Gesar is said to have been chosen by celestial beings to restore order and destroy anti-Buddhist forces. The epic of Gesar is the cultural touchstone of Tibet, analogous to the Iliad or the Odyssey. While Book One covers Gesar's birth, youth, and rise to power, this volume recounts the martial victories and magical feats that made him a legendary figure to so many.
