We fall in love every day, with others, with ideas, with ourselves. Stories of love excite us and baffle us. This volume is about love and the networked self. It focuses on how love forms, grows, or dissolves. Chapters address how relationships of love develop, are sustained or broken up through technologies of expression and connection. Authors explore how technologies reproduce, reorganize, or reimagine our dominant rituals of love. Contributors also address what our experiences with love teach us about ourselves, others, and the art of living. Every love story has a beginning and an end. Technology does not give love the kiss of eternity; but it can afford love new meaning.

A raw and funny memoir about sex, dating, and relationships in the digital age, intertwined with a brilliant investigation into the challenges to love and intimacy wrought by dating apps, by firebrand New York Times--bestselling author Nancy Jo Sales At forty-nine, famed Vanity Fair writer Nancy Jo Sales was nursing a broken heart and wondering, "How did I wind up alone?" On the advice of a young friend, she downloaded Tinder, then a brand-new dating app. What followed was a raucous ride through the world of online dating. Sales, an award-winning journalist and single mom, became a leading critic of the online dating industry, reporting and writing articles and making her directorial debut with the HBO documentary Swiped: Hooking Up in the Digital Age. Meanwhile, she was dating a series of younger men, eventually falling in love with a man less than half her age. Nothing Personal is Sales's memoir of coming-of-middle-age in the midst of a new dating revolution. She is unsparingly honest about her own experience of addiction to dating apps and hilarious in her musings about dick pics, sexting, dating FOMO, and more. Does Big Dating really want us to find love, she asks, or just keep on using its apps? Fiercely feminist, Nothing Personal investigates how Big Dating has overwhelmed the landscape of dating, cynically profiting off its users' deepest needs and desires. Looking back through the history of modern courtship and her own relationships, Sales examines how sexism has always been a factor for women in dating, and asks what the future of courtship will bring, if left to the designs of Silicon Valley's tech giants--especially in a time of social distancing and a global pandemic, when the rules of romance are once again changing.

From popular LGBTQ advice columnist and writer John Paul Brammer comes a hilarious, heartwarming memoir-in-essays chronicling his journey growing up as a queer, mixed-race kid in America's heartland to becoming the "Chicano Carrie Bradshaw" of his generation. "A wise and charming book. [Brammer] is such a good writer, and so well rounded."—David Sedaris "[Brammer] is both kind and piercingly funny, often in the same sentence....Personal and affecting....¡Hola Papi! is a master class of tone and tenderness, as Brammer balances self-compassion with humor." —THE NEW YORK TIMES BOOK REVIEW (EDITORS' CHOICE) "[¡Hola Papi! should be] required reading...[Brammer's] writing is incredibly funny, kind, and gracious to his readers, and deeply vulnerable in a way that makes it feel as if he's talking to only you." —LOS ANGELES TIMES The first time someone called John Paul (JP) Brammer "Papi" was on the popular gay hookup app Grindr. At first, it was flattering; JP took this as white-guy speak for "hey, handsome." Who doesn't want to be called handsome? But then it happened again and again...and again, leaving JP wondering: Who the hell is Papi? What started as a racialized moniker given to him on a hookup app soon became the inspiration for his now wildly popular advice column "¡Hola Papi!," launching his career as the Cheryl Strayed for young queer people everywhere—and some straight people too. JP had his doubts at first—what advice could he really offer while he himself stumbled through his early 20s? Sometimes the best advice to dole out comes from looking within, which is what JP has done in his column and book—and readers have flocked to him for honest, heartfelt wisdom, and of course, a few laughs. In ¡Hola Papi!, JP shares his story of growing up biracial and in the closet in America's heartland, while attempting to answer some of life's toughest questions: How do I let go of the past? How do I become the person I want to be? Is there such a thing as being too gay? Should I hook up with my grade school bully now that he's out of the closet? Questions we've all asked ourselves, surely. ¡Hola Papi! is "a warm, witty compendium of hard-won life lessons," (Harper's Bazaar) for anyone—gay, straight, and everything in between—who has ever taken stock of their unique place in the world. "Readers are likely to become addicted to these stories; they're that good...Brammer comes to know himself very well, and readers will be delighted to make his acquaintance, too," (Booklist, starred review).

'A revelation' Sunday Times, Books of the Year 2018 The first Penguin anthology of Japanese haiku, in vivid new translations by Adam L. Kern. Now a global poetry, the haiku was originally a Japanese verse form that flourished from the sixteenth to nineteenth centuries. Although renowned for its brevity, usually running three lines long in seventeen syllables, and by its use of natural imagery to make Zen-like observations about reality, in fact the haiku is much more: it can be erotic, funny, crude and mischievous. Presenting over a thousand exemplars in vivid and engaging translations, this anthology offers an illuminating introduction to this widely celebrated, if misunderstood, art form. Adam L. Kern's new translations are accompanied here by the original Japanese and short commentaries on the poems, as well as an introduction and illustrations from the period.

Now several years post-divorce, relationship expert and humorist Mark Miller has experienced more than five hundred first dates. In 500 Dates, composed of fifty-five humor essays, Miller features the highlights and lowlights of those dates. Among the true dating tales and revelations you will find in this book are: • How Miller and his date learned the limitations of a man being too emotionally expressive. ("Most guys consider revealing more about themselves emotionally and communicating on a deeper level nearly as enjoyable as falling face-first onto an ice pick—or spending the rest of eternity listening to Celine Dion music.") • Miller's realization that sometimes men have to pay a heavy price for their dates' previous relationship behavior. ("At least six different times, God has matched me up with a woman who has had a long history of wild, impulsive, passionate, no-holds-barred sex. She invariably finds something lacking in that lifestyle and decides to make a change. Starting with the very next man she dates. Who is invariably me.") • Miller's misguided social experiment to separate dating from status by spending less than \$20 on the date, purchasing everything at a 99¢ store, and what he learned, as a result, about his date and himself. ("I realize now that on the journey of romance, thrift and creativity will take you only so far - for the rest of the trip, you'll need MasterCard.") • Revealed for the first time the inner workings of a man's brain. ("Cerebellum. Responsible for coordinating movement and maintaining balance. Used primarily when a man has had eight beers and is endeavoring to make his way to the bathroom without tripping over the dog and pulling the fish tank over on top of them.") • How Miller took his date to his ex-wife's holiday party only to find his date and his ex-wife bonding like high school girlfriends. ("Pam would take Amy aside and present to her a list of all 273 of my failings, most of which, she confides to Amy, won't become noticeable until month three of Amy's being with me. Amy is stunned; she'd only been aware of 149 of my failings.") But 500 Dates is about much more than dating. Its humor essays also cover romance, relationships, breakups, attraction, the nature of love, and how both men and women view the art, science, expectations, and reality of courtship and turning courtship into something deeper and longer lasting in the twenty-first century. Throughout these essays, a portion of which were previously published in various media, Miller provides a sense of hope about one's romantic prospects. Readers will find that the end of a marriage, even a long-term one, does not mean the end of romance—or one's sense of humor.

activating inner energies in such a way that your body and mind function at their optimal capacity. It is a means to create inner situations exactly the way you want them, turning you into the architect of your own joy. A yogi lives life in this expansive state, and in this transformative book Sadhguru tells the story of his own awakening, from a boy with an unusual affinity for the natural world to a young daredevil who crossed the Indian continent on his motorcycle. He relates the moment of his enlightenment on a mountaintop in southern India, where time stood still and he emerged radically changed. Today, as the founder of Isha, an organization devoted to humanitarian causes, he lights the path for millions. The term guru, he notes, means "dispeller of darkness, someone who opens the door for you. . . . As a guru, I have no doctrine to teach, no philosophy to impart, no belief to propagate. And that is because the only solution for all the ills that plague humanity is self-transformation. Self-transformation means that nothing of the old remains. It is a dimensional shift in the way you perceive and experience life." The wisdom distilled in this accessible, profound, and engaging book offers readers time-tested tools that are fresh, alive, and radiantly new. Inner Engineering presents a revolutionary way of thinking about our agency and our humanity and the opportunity to achieve nothing less than a life of joy. Praise for Sadhguru and Inner Engineering "Contrarian and consistent, ancient and contemporary, Inner Engineering is a loving invitation to live our best lives and a profound reassurance of why and how we can."--Sir Ken Robinson, author of *The Element*, *Finding Your Element*, and *Out of Our Minds: Learning to Be Creative* "I am inspired by Sadhguru's capacity for joy, his exuberance for life, and the depth and breadth of his curiosity and knowledge. His book is filled with moments of wonder, awe, and intellectual challenge. I highly recommend it for anyone interested in self-transformation."--Mark Hyman, M.D., director, Cleveland Clinic Center for Functional Medicine, and New York Times bestselling author "Inner Engineering is a fascinating read of Sadhguru's insights and his teachings. If you are ready, it is a tool to help awaken your own inner intelligence, the ultimate and supreme genius that mirrors the wisdom of the cosmos."--Deepak Chopra

The Internet has become an increasingly popular way to form new relationships. Previous research has examined the demographics of individuals who use online dating sites and personality characteristics of these individuals, but few studies have examined how these individuals view using online dating sites to find partners. The presence of a stigma towards online dating has been demonstrated in previous research, although there has been little investigation into the factors that contribute to this stigma. This study examined the potential forces behind that stigma, specifically shyness and shame. Of particular interest was how shyness, shame, and stigma towards online dating contribute to an unwillingness to disclose that a relationship began online. It was hypothesized that shyness would be related to shame and that shame would be related to stigma. It was expected that individuals experiencing higher levels of stigma would be more likely to lie about the origin of a relationship and that individuals who had created online dating profiles would also be more likely to lie about the origin of a relationship. Finally, it was hypothesized that individuals who experienced higher levels of shyness and shame, had been involved in relationships that began online, and perceived higher levels of stigma would be more likely to lie about the origin of a relationship. Self-report surveys measuring these constructs were administered through an online survey website, therefore sampling from an Internet using population. Results revealed partial support for these hypotheses. In general, it appears that lying about the origin of a relationship is not an appropriate objective measure of how individuals are affected by stigma towards online dating and the implications of this are discussed. Support was increased for stigma towards online dating in that individuals who had created an online dating profile endorsed more stigma than those who had not. However, further analysis indicated that involvement in a relationship that began online directly contributed to a decrease in stigma towards online dating while higher levels of shame contributed to an increase in stigma. Limitations and suggestions for future research are discussed.
