Connect to Comprehension is a comprehensive, scripted intervention reading program for struggling readers in grades 1-8. It is effective for small group intervention as well as for one-on-one tutoring. This program was developed to provide students who struggle with decoding access to upper-level comprehension instruction. Struggling readers typically don't get practice in these comprehension skills either because the reading materials are too difficult to decode or the lower-level text they can read are not engaging and motivating. As a result, when struggling readers begin to become more fluent, they then have to conquer their gaps in comprehension, especially upper-level skills such as making inferences, determining cause and effect, comparing and contrasting. In Connect to Comprehension, these upper-levels skills are explicitly taught, scaffolded, and practiced while students are learning and practicing basic decoding/structural analysis skills.

Phonics and the structure of language at both the elementary and secondary levels are taught using this multisensory curriculum. Included are lessons in handwriting, spelling, reading, reading comprehension, and oral and written expression.

Presents initial and final vowel and consonant combinations and word roots for beginning spellers and those with learning difficulties such as dyslexia.
