

Out Of The Shadows Patrick Carnes

Patrick Henry, the famous statesman, has a secret: He keeps his wife in the cellar. Slowly losing her mind, Sarah Henry has become a danger to herself and her children. But daughter Anne has a secret of her own: She knows which child will inherit their mother's madness. Told from the point of view of the Henry children, this compassionate tale explores the possibility that Patrick Henry's immortal cry of "Give me liberty, or give me death," which roused a nation to arms, was first spoken by his wife as she pleaded for her own freedom. Includes a reader's guide.

The New York Times bestselling graphic memoir from actor/author/activist George Takei returns in a deluxe edition with 16 pages of bonus material! Experience the forces that shaped an American icon -- and America itself -- in this gripping tale of courage, country, loyalty, and love. George Takei has captured hearts and minds worldwide with his magnetic performances, sharp wit, and outspoken commitment to equal rights. But long before he braved new frontiers in STAR TREK, he woke up as a four-year-old boy to find his own birth country at war with his father's -- and their entire family forced from their home into an uncertain future. In 1942, at the order of President Franklin D. Roosevelt, every person of Japanese descent on the west coast was rounded up and shipped to one of ten "relocation centers," hundreds or thousands of miles from home, where they would be held for years under armed guard. **THEY CALLED US ENEMY** is Takei's firsthand account of those years behind barbed wire, the terrors and small joys of childhood in the shadow of legalized racism, his mother's hard choices, his father's tested faith in democracy, and the way those experiences planted the seeds for his astonishing future.

What does it mean to be American? Who gets to decide? George Takei joins cowriters Justin Eisinger & Steven Scott and artist Harmony Becker for the journey of a lifetime. A breakaway bestseller since its first printing, *All Souls* takes us deep into Michael Patrick MacDonald's Southie, the proudly insular neighborhood with the highest concentration of white poverty in America. Rocked by Whitey Bulger's crime schemes and busing riots, MacDonald's Southie is populated by sharply hewn characters like his Ma, a miniskirted, accordion-playing single mother who endures the deaths of four of her eleven children. Nearly suffocated by his grief and his community's code of silence, MacDonald tells his family story here with gritty but moving honesty.

The long-awaited autobiography from Georgetown University's legendary coach, whose life on and off the basketball court threw America's unresolved struggle with racial justice into sharp relief. John Thompson was never just a basketball coach and *I Came As A Shadow* is categorically not just a basketball autobiography. After five decades at the center of race and sports in America, Thompson—the iconic NCAA champion, Black activist, and educator—was ready to make the private public at last, and he completed this autobiography shortly before his death in the historically tumultuous summer of 2020. Chockful of stories and moving beyond mere stats (three Final Fours, four-time national coach of the year, seven Big East championships, 97 percent graduation rate), Thompson's book drives us through his childhood under Jim Crow segregation to our current moment of racial reckoning. We experience riding shotgun with Celtics icon Red Auerbach and coaching NBA Hall of Famers like Patrick Ewing and Allen Iverson. What were the origins of the the phrase "Hoya Paranoia"? You'll see. And parting his veil of secrecy, Thompson brings us into his negotiation with a D.C. drug kingpin in his players' orbit in the 1980s, as well as

behind the scenes of his years on the Nike board.

Thompson's mother was a teacher who had to clean houses because of racism in the nation's capital. His father could not read or write. Their son grew up to be a man with his own larger-than-life statue in a building that bears his family's name on a campus once kept afloat by the selling of 272 enslaved Black people. This is a great American story, and John Thompson's experience sheds light on many of the issues roiling our nation. In these pages, he proves himself to be the elder statesman whose final words college basketball and the country need to hear. *I Came As A Shadow* is not a swan song, but a bullhorn blast from one of America's most prominent sons.

Outreach magazine 2018 Resource of the Year—Counseling & Relationships! *Unwanted: How Sexual Brokenness Reveals Our Way to Healing* is a ground-breaking resource that explores the “why” behind self-destructive sexual choices. The book is based on research from over 3,800 men and women seeking freedom from unwanted sexual behavior, be that the use of pornography, an affair, or buying sex. Jay Stringer's (M.Div, MA, LMHC) original research found that unwanted sexual behavior can be both shaped by and predicted based on the parts of our story—past and present—that remain unaddressed. When we pay attention to our unwanted sexual desires and identify the unique reasons that trigger them, the path of healing is revealed. Although many of us feel ashamed and unwanted after years of sexual brokenness, the book invites the reader to see that behavior as the very location God can most powerfully work in their lives. Counselors, pastors, and accountability partners of those who experience sexual shame will also find in this book the deep spiritual and psychological guidance they need to effectively minister to the sexually broken around them. Out of the Shadows Third Edition

"A stunning, unforgettable story of an ordinary woman in extraordinary circumstances who defies the odds. Timea Nagy was twenty years old when she answered a newspaper ad in Budapest, Hungary, calling for young women to work as

housekeepers and babysitters in Canada. Interviewed and hired by what seemed like a bona fide recruitment agency, Timea left her home on the promise she would earn good money to send home to her family. She had no idea that she'd been lured by a ring of international human traffickers. Upon her arrival in Toronto, she was forced into sex labour in some of the city's seediest nightclubs and kept by her "agents" for three months until she escaped. This is her captivating, heartbreaking but ultimately redemptive story. It will take readers from the early years of Timea's life in Communist Hungary, offering a look inside an austere but complicated world ruled by community, restriction and struggle; then, to the dark, abusive three months working as a sex slave in a country that Timea once believed would offer her freedom and opportunity; and, finally, in riveting detail, through the heart-pounding escape Timea plots. Compelling and sweeping, balancing a tragic and unbelievable experience with a powerful story of grace, Timea Nagy's journey is one that will stay with you long after you read the last page."--

A first-time examination of sexual anorexia, an extreme fear of sexual intimacy and obsessive avoidance of sex, by the acknowledged leader in the treatment of compulsive sexual behavior and recovery. A first-time examination of sexual anorexia, an extreme fear of sexual intimacy and obsessive avoidance of sex, by the acknowledged leader in the treatment of compulsive sexual behavior and recovery. Author Dr. Patrick Carnes begins by defining sexual anorexia and demonstrating how it and its parallel disorder, sexual addiction and compulsivity, often arise from a background of childhood sexual trauma, neglect, and other forms of abuse, Carnes explores the numerous dimensions of sexual health, examining key issues which must be addressed and resolved for recovery to proceed. Utilizing extensive research and elucidating case studies, Carnes develops concrete tasks and plans for restoring nurturing and sensuality, building fulfilling relationships, exploring intimacy, and creating healthy sexuality. Woven throughout the book are stories of recovery which illustrate sexual healing principles, model new behavior, and support motivation for change. *Sexual Anorexia* enables those suffering from this disorder to recognize that sex need not be a furtive enemy to be fought and defeated but, instead, a deeply sensual, passionate, fulfilling, and spiritual experience that all human beings

are innately entitled to.

Queen Victoria's reign was an era of breathtaking social change, but it did little to create a platform for women to express themselves. But not so within the social sphere of the séance--a mysterious, lamp-lit world on both sides of the Atlantic, in which women who craved a public voice could hold their own. *Out of the Shadows* tells the stories of the enterprising women whose supposedly clairvoyant gifts granted them fame, fortune, and most important, influence as they crossed rigid boundaries of gender and class as easily as they passed between the realms of the living and the dead. The Fox sisters inspired some of the era's best-known political activists and set off a transatlantic séance craze. While in the throes of a trance, Emma Hardinge Britten delivered powerful speeches to crowds of thousands. Victoria Woodhull claimed guidance from the spirit world as she took on the millionaires of Wall Street before becoming America's first female presidential candidate. And Georgina Weldon narrowly escaped the asylum before becoming a celebrity campaigner against archaic lunacy laws. Drawing on diaries, letters, and rarely seen memoirs and texts, Emily Midorikawa illuminates a radical history of female influence that has been confined to the dark until now.

"In all of the literature addressing education, race, poverty, and criminal justice, there has been nothing quite like *Reading with Patrick*."—*The Atlantic* A memoir of the life-changing friendship between an idealistic young teacher and her gifted student, jailed for murder in the Mississippi Delta **FINALIST FOR THE DAYTON**

LITERARY PEACE PRIZE Recently graduated from Harvard University, Michelle Kuo arrived in the rural town of Helena, Arkansas, as a Teach for America volunteer, bursting with optimism and drive. But she soon encountered the jarring realities of life in one of the poorest counties in America, still disabled by the legacy of slavery and Jim Crow. In this stirring memoir, Kuo, the child of Taiwanese immigrants, shares the story of her complicated but rewarding mentorship of one student, Patrick Browning, and his remarkable literary and personal awakening. Convinced she can make a difference in the lives of her teenaged students, Michelle Kuo puts her heart into her work, using quiet reading time and guided writing to foster a sense of self in students left behind by a broken school system. Though Michelle loses some students to truancy and even gun violence, she is inspired by some such as Patrick. Fifteen and in the eighth grade, Patrick begins to thrive under Michelle's exacting attention. However, after two years of teaching, Michelle feels pressure from her parents and the draw of opportunities outside the Delta and leaves Arkansas to attend law school. Then, on the eve of her law-school graduation, Michelle learns that Patrick has been jailed for murder. Feeling that she left the Delta prematurely and determined to fix her mistake, Michelle returns to Helena and resumes Patrick's education—even as he sits in a jail cell awaiting trial. Every day for the next seven months they pore over classic novels, poems, and works of history. Little by little, Patrick grows into a confident, expressive writer and a dedicated reader galvanized by the works of

Frederick Douglass, James Baldwin, Walt Whitman, W. S. Merwin, and others. In her time reading with Patrick, Michelle is herself transformed, contending with the legacy of racism and the questions of what constitutes a “good” life and what the privileged owe to those with bleaker prospects. “A powerful meditation on how one person can affect the life of another . . . One of the great strengths of Reading with Patrick is its portrayal of the risk inherent to teaching.”—The Seattle Times “[A] tender memoir.”—O: The Oprah Magazine

The traces of much of human history – and that which

preceded it – lie beneath the ocean surface; broken up, dispersed, often buried and always mysterious. This is fertile ground for speculation, even myth-making, but also a topic on which geologists and climatologists have increasingly focused in recent decades. We now know enough to tell the true story of some of the continents and islands that have disappeared throughout Earth's history, to explain how and why such things happened, and to unravel the effects of submergence on the rise and fall of human civilizations. In *Worlds in Shadow* Patrick Nunn sifts the facts from the fiction, using the most up-to-date research to work out which submerged places may have actually existed versus those that probably only exist in myth. He looks at the descriptions of recently drowned lands that have been well documented, those that are plausible, and those that almost certainly didn't exist. Going even further back, Patrick examines the presence of more ancient lands, submerged beneath the waves in a time that even the longest-reaching folk memory can't touch. Such places may have played important roles in human evolution, but can only be reconstructed through careful geological detective work. Exploring how lands become submerged, whether from sea-level changes, tectonic changes, gravity collapse, giant waves or volcanoes, helps us determine why, when and where land may disappear in the future, and what might be done to prevent it.

New York Times Bestselling Author It was supposed to be impossible. No man could break out of the brutal convict labor camp at Five Shadows. Until they locked up Bowen. He was like dynamite--charged to go off, to

explode out of that desert hell so he could clear his name. Already the deadly trackers have caught him, dragged him back through the mesquite and rocks, beat him and left him to rot in the punishment cell. But they can't stop Bowen. He's a different breed, a man who will go to any extreme to escape. Any extreme.

The greatest trick the videogame industry ever pulled was convincing the world that videogames were games rather than a medium for making metagames. Elegantly defined as "games about games," metagames implicate a diverse range of practices that stray outside the boundaries and bend the rules: from technical glitches and forbidden strategies to Renaissance painting, algorithmic trading, professional sports, and the War on Terror. In *Metagaming*, Stephanie Boluk and Patrick LeMieux demonstrate how games always extend beyond the screen, and how modders, mappers, streamers, spectators, analysts, and artists are changing the way we play. *Metagaming* uncovers these alternative histories of play by exploring the strange experiences and unexpected effects that emerge in, on, around, and through videogames. Players puzzle through the problems of perspectival rendering in *Portal*, perform clandestine acts of electronic espionage in *EVE Online*, compete and commentate in Korean *StarCraft*, and speedrun *The Legend of Zelda* in record times (with or without the use of vision). Companies like Valve attempt to capture the metagame through international e-sports and online marketplaces while the corporate history of *Super Mario Bros.* is undermined by the endless levels of *Infinite Mario*, the frustrating pranks of *Asshole Mario*,

and even Super Mario Clouds, a ROM hack exhibited at the Whitney Museum of American Art. One of the only books to include original software alongside each chapter, Metagaming transforms videogames from packaged products into instruments, equipment, tools, and toys for intervening in the sensory and political economies of everyday life. And although videogames conflate the creativity, criticality, and craft of play with the act of consumption, we don't simply play videogames—we make metagames.

How the perception of shadows, studied by vision scientists and visual artists, reveals the inner workings of the visual system. In *The Visual World of Shadows*, Roberto Casati and Patrick Cavanagh examine how the perception of shadows, as studied by vision scientists and visual artists, reveals the inner workings of the visual system. Shadows are at once a massive problem for vision—which must distinguish them from objects or material features of objects—and a resource, signaling the presence, location, shape, and size of objects. Casati and Cavanagh draw up an inventory of information retrievable from shadows, showing their amazing variety. They present an overview of the visual system, distinguishing between measurement and inference. They discuss the shadow mission, the work done by the visual brain to parse, and perhaps discard, the information from shadows; shadow ownership, the association of a shadow with the object that casts it; shadow labeling, the visual system's ability to tell shadows from nonshadows; and the shadow concept, our knowledge about shadows as a category. Casati and

Cavanagh then apply the theoretical apparatus they have developed for shadows to other phenomena: illumination, reflection, and transparency. Finally, they examine the art of the shadow, paying tribute to artists' exploration of shadow, analyzing a series of artworks (reproduced in color) from a rich and fascinating art historical corpus.

‘One of our very best writers on France.’ Antony Beevor
After publishing an acclaimed biography of Jean Moulin, leader of the French Resistance, Patrick Marnham received an anonymous letter from a person who claimed to have worked for British Intelligence during the war. The ex-spy praised his book but insisted that he had missed the real ‘treasure’. The letter drew Marnham back to the early 1960s when he had been taught French by a mercurial woman – a former Resistance leader, whose SOE network was broken on the same day that Moulin was captured and who endured eighteen months in Ravensbrück concentration camp. Could these two events have been connected? His anonymous correspondent offered a tantalising set of clues that seemed to implicate Churchill and British Intelligence in the catastrophe. Drawing on a deep knowledge of France and original research in British and French archives, *War in the Shadows* exposes the ruthless double-dealing of the Allied intelligence services and the Gestapo through one of the darkest periods of the Second World War. It is a story worthy of Le Carré, but with this difference – it is not fiction. ‘A melange of *Le Grand Meaulnes* and *The Spy Who Came in from the*

The groundbreaking book introducing Dr. Patrick Carnes' thirty-task model for treating sexual addiction is now UPDATED and REVISED.

As the French Presidential elections clearly demonstrated in the Spring of 2002, the popularity of far right parties is gaining ever more strength. From the National Front in France to the British National Party, anti-immigration, anti-European Union platforms are winning more voters. The numbers alone are striking: the National Front in France received nearly eighteen percent of the nationwide vote in 2002 Presidential run-off between Chirac and Le Pen; the Swiss People's Party received 23 percent of the popular vote in a 1999 election; and Jorg Haider's Austrian Freedom Party moved from near collapse to second place in the 1999 election. The essays in *Shadows Over Europe* explore this growing presence of extreme right political parties in governments throughout Europe. These parties can no longer be dismissed as anomalous or temporary. It is clear that they have established an enduring presence in European politics. The contributors to this volume explore the origins of this trend, why they have gained such support, and where these parties might be headed. They explore the policy orientations of these parties and their role in electoral politics across the continent.

Together, these essays provide a significant contribution toward understanding the rise and impact of the far right in Europe.

Compulsive sexual behavior is finally being recognized as an addictive disease like drug abuse, overeating and gambling. The causes and symptoms of sex-addiction are explored as well as the concerns of an addict's co-dependent partner.

Will neighboring towns work with them, or try to take what meager resources they have? And what of Shelby's son, Carter? How will she provide him with the insulin he needs to survive? The basic text of the SAA fellowship, Sex Addicts Anonymous explains sex addiction from the SAA perspective and demonstrates, through examples, how sex addiction worsens over time. It describes the personal powerlessness and unmanageability of sex addiction, and the damage to personal relationships, livelihood, and physical health that is often caused by addictive behavior. Sex Addicts Anonymous conveys a vision of hope for the addict through a recovery program based on the time-honored Twelve Steps that were initially proposed for alcoholics. A separate section of the book offers a variety of personal stories from individual members of the fellowship to illustrate the challenges and the hope of recovery.

This beloved account about an intrepid young Englishman on the first leg of his walk from London to Constantinople is simply one of the best works of travel literature ever written. At the age of eighteen, Patrick Leigh Fermor set off from the heart of London on an epic journey—to walk to Constantinople. A Time of Gifts is the rich account of his adventures as far as Hungary, after which Between the Woods and the Water continues the story to the Iron Gates that divide the Carpathian and Balkan mountains. Acclaimed for its sweep and intelligence, Leigh Fermor's book explores a remarkable moment in time. Hitler has just come to power but war is still ahead, as he walks through a Europe soon to be forever changed—through the Lowlands to Mitteleuropa, to Teutonic and Slav heartlands, through the baroque remains of the Holy Roman Empire; up the Rhine, and down to the Danube. At once a memoir of coming-of-age, an account of a journey, and a dazzling exposition of the English language, A Time of Gifts is also a portrait of a continent already showing ominous signs of the holocaust to come.

A moving exploration of how gay men construct their identities, fight to be themselves, and live authentically. It goes without saying that even today, it's not easy to be gay in America. While young gay men often come out more readily, even those from the most progressive of backgrounds still struggle with the legacy of early-life stigma and a deficit of self-acceptance, which can fuel doubt, regret, and, at worst, self-loathing. And this is to say nothing of the ongoing trauma wrought by AIDS, which is all too often relegated to history. Drawing on his work as a clinical psychologist during and in the aftermath of the epidemic, Walt Odets reflects on what it means to survive and figure out a way to live in a new, uncompromising future, both for the men who endured the upheaval of those years and for the younger men who have come of age since then, at a time when an HIV epidemic is still ravaging the gay community, especially among the most marginalized. Through moving stories—of friends and patients, and his own—Odets considers how experiences early in life launch men on trajectories aimed at futures that are not authentically theirs. He writes to help reconstruct how we think about gay life by considering everything from the misleading idea of “the homosexual,” to the diversity and richness of gay relationships, to the historical role of stigma and shame and the significance of youth and of aging. Crawling out from under the trauma of destructive early-life experience and the two epidemics, and into a century of shifting social values, provides an opportunity to explore possibilities rather than live with limitations imposed by others. Though it is drawn from decades of private practice, activism, and life in the gay community, Odets’s work achieves remarkable universality. At its core, *Out of the Shadows* is driven by his belief that it is time that we act based on who we are and not who others are or who they would want us to be. We—particularly the young—must

construct our own paths through life. Out of the Shadows is a necessary, impassioned argument for how and why we must all take hold of our futures.
