

P S I Like You

Dear Isaiah, Eight months ago, you were just a soldier about to be deployed and I was just a waitress, sneaking you a free pancake and hoping you wouldn't notice that my gaze was lingering a little too long. But you did notice. We spent one life-changing week together before you left, and we said goodbye on day eight, exchanging addresses at the last minute. I saved every letter you wrote me, your words quickly becoming my religion. But you went radio silent on me months ago, and then you had the audacity to walk into my diner yesterday and act like you'd never seen me in your life. To think ... I almost loved you and your beautifully complicated soul. Almost. Whatever your reason is - I hope it's a good one. Maritza the Waitress PS - I hate you, and this time ... I mean it.

“P.S. I Love You More Than Tuna is both a lighthearted celebration of the loving bond between human and cat, and a touching meditation on the eternal nature of that love.”
—Jackson Galaxy, host of Animal Planet's *My Cat From Hell* An illustrated gift book for adults grieving a companion cat, celebrating the often-quirky bond between humans and felines. Our cats occupy a unique space in our hearts. When they're gone, the loss can be devastating, the grief profound. *P.S. I Love You More Than Tuna* gives us an opportunity to give friends, loved ones, or ourselves tangible comfort during the grieving period, when so many of us feel isolated and misunderstood after a beloved pet dies. The author and illustrator (devoted cat lovers themselves) offer this book as a universal love letter from the felines we've bid goodbye to. It celebrates the special bonds we forge with our four-legged companions and reminds us that their love for us—and ours for them—need never end.

They take refuge on crimelord-run Crossways Station with the remnants of their team of renegade psi-techs and the Solar Wind, their state-of-the-art jump-drive ship. They've made a promise to find a missing space ark with thirty thousand settlers aboard. But to do that, Ben and Cara have to confront old enemies. Alphacorp and the Trust: separately they are dangerous, united they are unstoppable. They want to silence Ben and Cara more than they want to upstage each other. If they have to get rid of Crossways in order to do it, they can live with that. In fact, this might be the excuse they've been looking for....

Bizarre military history: In 1979, a crack commando unit was established by the most gifted minds within the U.S. Army. Defying all known laws of physics and accepted military practice, they believed that a soldier could adopt the cloak of invisibility, pass cleanly through walls, and—perhaps most chillingly—kill goats just by staring at them. They were the First Earth Battalion, entrusted with defending America from all known adversaries. And they really weren't joking. What's more, they're back—and they're fighting the War on Terror. An uproarious exploration of American military paranoia: With investigations ranging from the mysterious “Goat Lab,” to Uri Geller's covert psychic work with the CIA, to the increasingly bizarre role played by a succession of U.S. presidents, this might just be the funniest, most unsettling book you will ever read—if only because it is all true and is still happening today.

A tiny American town's plans for radical self-government overlooked one hairy detail: no one told the bears. Once upon a time, a group of libertarians got together and hatched the Free Town Project, a plan to take over an American town and completely eliminate its government. In 2004, they set their sights on Grafton, NH, a barely populated settlement with one paved road. When they descended on Grafton, public funding for pretty much everything shrank: the fire department, the library, the schoolhouse. State and federal laws became meek suggestions, scarcely heard in the town's thick wilderness. The anything-goes atmosphere soon caught the attention of Grafton's neighbors: the bears. Freedom-loving citizens ignored hunting laws and regulations on food disposal. They built a tent city in an effort to get off the grid. The bears smelled food and opportunity. *A Libertarian Walks Into a Bear* is the sometimes funny, sometimes terrifying tale of what happens when a government disappears into the woods. Complete with gunplay, adventure, and backstabbing politicians, this is the ultimate story of a quintessential American experiment -- to live free or die, perhaps from a bear.
