The general public often views early childhood education as either simply “babysitting” or as preparation for later learning. Of course, both viewpoints are simplistic. Deep understanding of child development, best educational practices based on development, emergent curriculum, cultural competence and applications of family systems are necessary for high-quality early education. Highly effective early childhood education is rare in that it requires collaboration and transitions among a variety of systems for children from birth through eight years of age. The SAGE Encyclopedia of Contemporary Early Childhood Education presents in three comprehensive volumes advanced research, accurate practical applications of research, historical foundations and key facts from the field of contemporary early childhood education. Through approximately 425 entries, this work includes all areas of child development – physical, cognitive, language, social, emotional, aesthetic – as well as comprehensive review of best educational practices with young children, effective preparation for early childhood professionals and policy making practices, and addresses such questions as: · How is the field of early childhood education defined? · What are the roots of this field of study? · How is the history of early childhood education similar to yet different from the study of public education? · What are the major influences on understandings of best practices in early childhood education?

Becoming a caregiver is increasingly an inevitable experience for many people and, therefore, a likely life transition. Drawing on research and personal experiences of working with family caregivers, this book examines a range of family caregiving situations from across the life course. It seeks to capture the dynamics of caregiving in a number of common situations: caregiving during infancy, for adults who acquire a disability through accidents or illness, for older people with age-related issues, and caregiving by children and adolescent carers and grandparent carers. In drawing attention to key moments of vulnerability faced by family and informal caregivers, and by suggesting how to assist 'reconnection' at these moments, the book provides a guide for those working in the area of health, disability and care. Informal care is conceptualised as occurring with the context of personal interrelationships, these being nested within wider kin networks and linked with wider professional formal care networks. Informal care is seen both as an expression of social capital and as an activity that builds social capital. It is an indicator of resources of mutual support within social networks, and it has the effect of adding to the stock of social resources. The book makes a case, therefore, for facilitating the development of social capital by strengthening the capacity of informal caregivers and caregiver groups, and by improving the linkages with formal care organisations.

Richmond Redeemed pioneered study of Civil War Petersburg. The original (and long out of print) award-winning 1981

edition conveyed an epic narrative of crucial military operations in early autumn 1864 that had gone unrecognized for more than 100 years. Readers will rejoice that Richard J. Sommers's masterpiece, in a revised Sesquicentennial edition, is once again available. This monumental study focuses on Grant's Fifth Offensive (September 29 ÷ October 2, 1864), primarily the Battles of Chaffin's Bluff (Fort Harrison) and Poplar Spring Church (Peebles' Farm). The Union attack north of the James River at Chaffin's Bluff broke through Richmond's defenses and gave Federals their greatest opportunity to capture the Confederate capital. The corresponding fighting outside Petersburg at Poplar Spring Church so threatened Southern supply lines that General Lee considered abandoning his Petersburg rail center six months before actually doing so. Yet hard fighting and skillful generalship saved both cities. This book provides thrilling narrative of opportunities gained and lost, of courageous attack and desperate defense, of incredible bravery by Union and Confederate soldiers from 28 states, Maine to Texas. Fierce fighting by four Black brigades earned their soldiers thirteen Medals of Honor and marked Chaffin's Bluff as the biggest, bloodiest battle for Blacks in the whole Civil War. In addition to his focused tactical lens, Dr. Sommers offers rich analysis of the generalship of Ulysses S. Grant, Robert E. Lee, and their senior subordinates, Benjamin Butler, George G. Meade, Richard S. Ewell, and A. P. Hill. The richly layered prose of *Richmond Redeemed*, undergirded by thousands of manuscript and printed primary accounts from more than 100 archives, has been enhanced for this Sesquicentennial Edition with new research, new writing, and most of all new thinking. Teaching future strategic leaders of American and allied armed forces in the Army War College, conversing with fellow Civil War scholars, addressing Civil War audiences across the nation, and reflecting on prior assessments over the last 33 years have stimulated in the author new perspectives and new insights. He has interwoven them throughout the book. His new analysis brings new dimensions to this new edition. Dr. Sommers was widely praised for his achievement. In addition to being a selection of the History Book Club, the National Historical Society awarded him the Bell Wiley Prize as the best Civil War book for 1981-82. Reviewers hailed it as "a book that still towers among Civil War campaign studies" and "a model tactical study [that] takes on deeper meaning . . . without sacrificing the human drama and horror of combat." Complete with maps, photos, a full bibliography, and index, *Richmond Redeemed* is modeled for a new generation of readers, enthusiasts, and Civil War buffs and scholars, all of whom will welcome and benefit from exploring how, 150 years ago, Richmond was redeemed.

Too often, says Jennifer L. Goloboy, we equate being middle class with "niceness"—a set of values frozen in the

antebellum period and centered on long-term economic and social progress and a close, nurturing family life. Goloboy's case study of merchants in Charleston, South Carolina, looks to an earlier time to establish the roots of middle-class culture in America. She argues for a definition more applicable to the ruthless pursuit of profit in the early republic. To be middle class then was to be skilled at survival in the market economy. What prompted cultural shifts in the early middle class, Goloboy shows, were market conditions. In Charleston, deference and restraint were the bywords of the colonial business climate, while rowdy ambition defined the post-Revolutionary era, which in turn gave way to institution building and professionalism in antebellum times. Goloboy's research also supports a view of the Old South as neither precapitalist nor isolated from the rest of American culture, and it challenges the idea that post-Revolutionary Charleston was a port in decline by reminding us of a forgotten economic boom based on slave trading, cotton exporting, and trading as a neutral entity amid warring European states. This fresh look at Charleston's merchants lets us rethink the middle class in light of the new history of capitalism and its commitment to reintegrating the Old South into the world economy. Today's families face challenges not too different from the first families of the Bible. The drama experienced in Genesis happens within stories about families, and the issues they raise—married vs. single life, sibling rivalry, infertility, family relocation, blended families, and the like—and are startlingly relevant to families of today. This book examines the families of Genesis, starting with how the Adam and Eve story encompasses far more ways of being family—including singleness—than most of us think, and shows us that the ups and downs of the relationship between Abraham, Sarah, Hagar, and Ishmael can help us understand the complicated dynamic of blended families. It also looks at the sibling rivalry of the Cain and Abel story and points to the jealousy and violence to which the whole human family seems addicted. The final chapter exploring death in the family argues that death leaves a hole, not simply in the hearts of loved ones but within the ongoing stories that families tell about themselves. Carol Helsel and Suzie Park invite readers to consider these connections as they reexamine modern family life as well. This engaging Bible study includes questions for individual reflection or group use.

Named one of the best books of 2019 by The Economist and a New York Times Book Review Editors' Choice. A National Jewish Book Award finalist. "A superb and touching book about the frailty of ties that hold together places and people."

--The New York Times Book Review An award-winning historian shares the true story of a frayed and diasporic Sephardic Jewish family preserved in thousands of letters For centuries, the bustling port city of Salonica was home to the sprawling Levy family. As leading publishers and editors, they helped chronicle modernity as it was experienced by

Sephardic Jews across the Ottoman Empire. The wars of the twentieth century, however, redrew the borders around them, in the process transforming the Levys from Ottomans to Greeks. Family members soon moved across boundaries and hemispheres, stretching the familial diaspora from Greece to Western Europe, Israel, Brazil, and India. In time, the Holocaust nearly eviscerated the clan, eradicating whole branches of the family tree. In *Family Papers*, the prizewinning Sephardic historian Sarah Abrevaya Stein uses the family's correspondence to tell the story of their journey across the arc of a century and the breadth of the globe. They wrote to share grief and to reveal secrets, to propose marriage and to plan for divorce, to maintain connection. They wrote because they were family. And years after they frayed, Stein discovers, what remains solid is the fragile tissue that once held them together: neither blood nor belief, but papers. With meticulous research and care, Stein uses the Levys' letters to tell not only their history, but the history of Sephardic Jews in the twentieth century.
