and others do both. They essentially rely on these two sources to earn a living. The kind of income derivable from these sources is called active income. All these persons have to keep working to keep living. It's like driving a car. You have to keep your hands on the steering and your leg on the accelerator for the car to keep moving. You stop exerting yourself, and your cash flow runs dry. Now, nobody wants to be in a position where they can't take a break from work without the fear that their income will take a huge hit. This is what makes the idea of a passive income very attractive. So what exactly is this idea of passive income? Passive income is having your asset do the working while you simply do the earning. It is income received on a regular basis which requires little or no effort on the part of the recipient. With an active income, the asset is the person. You are the goose that lays the egg, whether golden or otherwise. But where passive income is concerned, your initial investment-be it in the form of money or effort-is what keeps the cash flowing. This book seeks to expose you to a variety of ways to generate passive income. From the very familiar ideas of real estate, stock and other conventional income streams to the many novel internet-based ideas, this book gives the reader a basic understanding of these ideas. It also offers nuggets that will help the reader set out and gain a competitive advantage in the market. This manual is the first book in a series by Passive Income Factory

part. By building a strong system that attracts people from the outside and converts them to buy whatever product or service you are offering, all you need to do is maintain what you have built, which takes minimal effort and time commitment. It is important to note that building a Passive Engine System requires plenty of work before it is ready to go. It takes discipline, hard work and a willingness to try over and over until you finally figure out what works best for you. Passive Income is like firing a rocket into space. You want to put as much fuel as you can in the rocket at first, because taking off requires a ton of effort. However, once that rocket breaks through the atmosphere and is in zero gravity, pushing the rocket takes considerably less energy. Your work, time and dedication to building a passive income engine will determine the ultimate success of your project. If you want to generate Passive Income, then you will first need to invest either time, money or energy into a project. Depending on the results that you're looking for, you may need to invest large quantities of all three. While it may be easy to think that you can get rich online without much investment, the truth is that most big earners either invested a significant amount of either time or money into their work. Passive Income is a reflection of what you have invested. If you aren't willing to invest resources adequately, you won't see returns. There is simply no way around it. The good news is that while some types of passive income systems require a lot of money, others, such as creative fields, can be done relatively cheap. The harder you work on a project, the more hours you put in, the bigger chance you have of success. There is no guarantee
