Moved by previous visits to the Centralia, and ultimately by a trip to the now deserted town, which was bought out by the state following an unstoppable mine fire that began in 1962, the author was inspired to write a fitting eulogy. The novel is a fictional accounting based on fact and metaphorically presents the mine owners and industrialists as Satanical manifestations in need of exorcism. It is a wonderful mix of period fact with fiction - there is much to learn while enjoying a fanciful journey through the author's imagination. Sample from the book: "More water! More water damn it! The fire is spreading!" From behind a fire pumper a soot covered black-faced fireman came running and shouting. "Around the other side! Quickly!" Three more fire fighters joined in, sweat pouring from their brows in the 83 degree heat, made many times hotter by the raging fire, dragging limp cloth hose toward the quickly spreading fire that was reaching out in anger from the pit. "Charge the line," screamed a scrawny teenage fireman. The hose they were carrying quickly filled and whipped along like a disturbed snake. The fire, in the pit of an old abandoned strip mine near the Odd Fellows cemetery was started once or twice a year to burn excess municipal rubbish, but had never gotten out of control, as did this one. This fire was started on May 27 to clean up rubbish and municipal waste in preparation for the Memorial Day celebration, and was then extinguished by the fire department and was thought to have gone out. It had again re-kindled on May 29 and was put out late in the evening. It again re-kindled on June 12, though not as bad. Now it had re-kindled yet again, this time with a vengeance, as if set by Satan himself. None of the locals had ever seen such an inferno.

While there is growing interest in IFRS within the US, interest outside the US has exploded. Weygandt's fourth edition of Financial Accounting: IFRS highlights the integration of more US GAAP rules, a desired feature as more foreign companies find the United States to be their largest market. The highly anticipated new edition retains each of the key features (e.g. TOC, writing style, pedagogy, robust EOC) on which users of Weygandt Financial have come to rely, while putting the focus on international companies/examples, discussing financial accounting principles and procedures within the context of IFRS, and providing EOC exercises and problems that present students with foreign currency examples instead of solely U.S. dollars.

On a lonely wharf a clerk in an ink-blue coat inspects bales and bales of paper that hold a poet's accumulated left-hand pages—the unwritten, the withheld, the unexpressed, the withdrawn, the restrained, the word-shard. In The Blue Clerk renowned poet Dionne Brand stages a conversation and an argument between the poet and the Blue Clerk, who is the keeper of the poet's pages. In their dialogues—which take shape as a series of haunting prose poems—the poet and the clerk invoke a host of writers, philosophers, and artists, from Jacob Lawrence, Lola Kiepja, and Walter Benjamin to John Coltrane, Josephine Turalba, and Jorge Luis Borges. Through these essay poems, Brand explores memory, language, culture, and time while intimately interrogating the act and difficulty of writing, the relationship between the poet and the world, and the link between author and art. Inviting the reader to engage with the resonant meanings of the withheld, Brand offers a profound and moving philosophy of writing and a wide-ranging analysis of the present world.
