A witty, erudite celebration of fifty great Italian cultural achievements that have significantly influenced Western civilization from the authors of *What Are the Seven Wonders of the World?* "Sprezzatura," or the art of effortless mastery, was coined in 1528 by Baldassare Castiglione in *The Book of the Courtier*. No one has demonstrated effortless mastery throughout history quite like the Italians. From the Roman calendar and the creator of the modern orchestra (Claudio Monteverdi) to the beginnings of ballet and the creator of modern political science (Niccolò Machiavelli), Sprezzatura highlights fifty great Italian cultural achievements in a series of fifty information-packed essays in chronological order.

A gifted poet, a women's rights activist, and an expert on moral and natural philosophy, Lucrezia Marinella (1571-1653) was known throughout Italy as the leading female intellectual of her age. Born into a family of Venetian physicians, she was encouraged to study, and, fortunately, she did not share the fate of many of her female contemporaries, who were forced to join convents or were pressured to marry early. Marinella enjoyed a long literary career, writing mainly religious, epic, and pastoral poetry, and biographies of famous women in both verse and prose. Marinella's masterpiece, *The Nobility and Excellence of Women, and the Defects and Vices of Men* was first published in 1600, composed at a furious pace in answer to Giuseppe Passi's diatribe about women's alleged defects. This polemic displays Marinella's vast knowledge of the Italian poetic tradition and demonstrates her ability to argue against authors of the misogynist tradition from Boccaccio to Torquato Tasso. Trying to effect real social change, Marinella argued that morally, intellectually, and in many other ways, women are superior to men.

Includes Cicero's *De inventione* and Latini's commentary.

Carlo Goldoni's classic comedy 'Il vero amico', translated as 'The True Friend', is presented here in English and Italian.

Le nozze di Figaro is one of Mozart's best-loved and most enduring works. The first of the three operas he wrote with Lorenzo da Ponte and based on Beaumarchais's play, it established the thirty-year-old Mozart as an opera composer of the very first rank. Its combination of wit, acute psychological observation and sublime music has enthralled audiences ever since its premiere in Prague in 1786. This guide contains articles about the historical background to the opera, as well as musical and dramatic commentaries. Further articles deal with the changes in musical performance brought about in recent times by the period practice movement and with the particular uses Mozart makes of recitatives. There is also a survey of the opera's most important productions. Illustrations, a thematic guide, the full libretto with English translation and reference sections are also included. Contains: Living Together, Singing Together, Max Loppert A Society Marriage, John Wells A Musical Commentary, Basil Deane Recitatives in Figaro: Some Thoughts, David Syrus Music and Comedy in Le nozze di Figaro, Stephen Oliver A Selective Performance History, George Hall Le nozze di Figaro: Libretto by Lorenzo Da Ponte after the play *La Folle Journée, ou Le Mariage de Figaro* by Pierre-Augustin Caron de Beaumarchais The Marriage of Figaro: English translation by Opernfuehrer Translation of Susanna's alternative aria and rondo by Charles Johnston

1929. Edited and annotated by Arthur Livingston. The fascinating memoirs of the Italian poet, librettist, and pioneer in spreading Italian culture in the United States. Forced to leave Venice and Vienna due to scandals, he wandered through Europe, lived in London and then came to the US where he spent the rest of his life as a celebrated teacher of Italian language and culture (except for an unsuccessful period spent in Pennsylvania selling medicines). He taught nearly 2,000 private pupils and was appointed professor of Italian language and literature at Columbia in 1830.

With *The Ethical Dimension of the "Decameron"* Marilyn Migiel, author of *A Rhetoric of the "Decameron"* (winner of the MLA's 2004 Marraro Prize), returns to Giovanni Boccaccio's masterpiece, this time to focus on the dialogue about ethical choices that the Decameron creates with us and that we, as individuals and as groups, create with the Decameron. Maintaining that we can examine this dialogue to gain insights into our values, our biases and our decision-making processes, Migiel offers a view of the Decameron as sticky and thorny. According to Migiel, the Decameron catches us as we move through it, obligating us to reveal ourselves, inviting us to reflect on how we form our assessments, and calling upon us to be mindful of our responsibility to judge patiently and carefully. Migiel's focus remains unabashedly on the experience of readers, on the meanings they find in the Decameron, and on the ideological assumptions they have about the way that a literary text such as the Decameron works. She offers that, rather than thinking about the Decameron as "teaching" readers, we should think about it "testing" them. Throughout, Migiel engages in the masterful in-depth rhetorical analyses, delivered in lively and readable prose, that are her trademark. Whether she is examining the Italian of the Decameron, translations of the Italian into English, commentaries by scholars, newspaper articles, or student essays, she asks us always to maintain an ethical engagement with the words of others.

Published in 1987: This edition seeks to make available, for the scholar and the student of Elizabethan literature, an accurate text of an Heptameron of Civill Discourses.

In *The Romance Epics of Boiardo, Ariosto, and Tasso*, Jo Ann Cavallo attempts a new interpretation of the history of the renaissance romance epic in northern Italy, focusing on the period's three major chivalric poets. Cavallo challenges previous critical assumptions about the trajectory of the romance genre, especially regarding questions of creative imitation, allegory, ideology, and political engagement. In tracing the development of the romance epic against the historical context of the Ferrarese court and the Italian peninsula, Cavallo moves from a politically engaged Boiardo, whose poem promotes the tenets of humanism, to an individualistic Tasso, who opposed the repressive aspects of the counter-reformation culture he is often thought to represent. Ariosto is read from the vantage of his predecessor Boiardo, and Cavallo describes his cynicism and later mellowing attitude toward the real-world relevance of his and Boiardo's fiction. *The Romance Epics of Boiardo, Ariosto, and Tasso* is the first critical study to bring together the three poets in a coherent vision that maps changes while uncovering continuities.

Peter Horrobin draws on his extensive experience to set out a thorough, comprehensive and scriptural foundation for the healing and deliverance ministry-an integral part of fulfilling the Great Commission and a vital key to discipleship.

"The posthumously published collection *Hermit in Paris* draws together an array of Italo Calvino's autobiographical writings that provide an illuminating and unexpectedly intimate portrait of one of the postwar era's most inventive and fascinating writers. In these pages, Calvino recounts his experiences in Italy's antifascist resistance, pays homage to his influences, traces the evolution of his literary style, and, in one of the book's most humorous and entertaining sections, provides a wry commentary on his travels in the United States in 1959 and 1960"--

Among his many books, perhaps none have sparked more outrage than *The Missionary Position*, Christopher Hitchens's meticulous and searing study of the life and deeds of Mother Teresa--and it is now available as a Signal deluxe paperback. A Nobel Peace Prize recipient canonized by the Catholic Church in 2003, Mother Teresa of Calcutta was celebrated by heads of state and adored by millions for her work on behalf of the poor. In his measured critique, Hitchens asks only that Mother Teresa's reputation be judged by her actions--not the other way around. With characteristic elan and rhetorical dexterity, Hitchens eviscerates the fawning cult of Teresa, recasting the Albanian missionary in a light she has never before been seen in.

The first full-length study of printing, writing and reading at a crucial period in Italian and European culture.

A Helen and Kurt Wolff Book

Those Who from Afar Look Like Flies is an anthology of poems and essays that aims to provide an organic profile of the evolution of Italian poetry after World War II. Beginning with the birth of *Officina* and *Il Verri*, and culminating with the crisis of the mid-seventies, this tome features works by such poets as Pasolini, Pagliarini, Rosselli, Sanguineti and Zanzotto, as well as such forerunners as Villa and Cacciatore. Each section of this anthology, organized chronologically, is preceded by an introductory note and documents every stylistic or substantial change in the poetics of a group or individual. For each poet, critic, and translator a short biography and bibliography is also provided.

Juxtaposing religious and secular writings by women and tracing their relationship to the male-authored literature of the period, often surprisingly affirmative in its attitudes toward women, Cox reveals a new and provocative vision of the Italian Counter-Reformation as a period far less uniformly repressive of women than is commonly assumed.

Why did Italo Calvino decide to translate *Les Fleurs bleues* by Raymond Queneau? Was his translation just a way to pay a tribute to one of his models? This study looks at Calvino's translation from a literary and linguistic perspective:

Calvino's *I fiori blu* is more than a rewriting and a creative translation, as it contributed to a revolution in his own literary language and style. Translating Queneau, Calvino discovered a new fictional voice and explored the potentialities of his native tongue, Italian. In fact Calvino's writings show a visible evolution of poetics and style that occurred rather abruptly in the mid 1960s; this sudden change has long been debated. The radical transformation of his style was affected by several factors: Calvino's new interests in linguistics, in translation theory, and in the act of translation. *Translation as Stylistic Evolution* analyses several passages in detail and scrutinizes quantitative data obtained by comparing digital versions of the original and Calvino's translation. The results of such assessment of Calvino's text-consistency suggest clear interpretations of the motives behind Calvino's radical and remarkable change of style that are tied to his notion of creative translation.

Don't Sweat. Don't Laugh. Don't draw attention to yourself. And most of all, whatever you do, do not fall in love with one of them. Gene is different from everyone else around him. He can't run with lightning speed, sunlight doesn't hurt him and he doesn't have an unquenchable lust for blood. Gene is a human, and he knows the rules. Keep the truth a secret. It's the only way to stay alive in a world of night—a world where humans are considered a delicacy and hunted for their blood. When he's chosen for a once in a lifetime opportunity to hunt the last remaining humans, Gene's carefully constructed life begins to crumble around him. He's thrust into the path of a girl who makes him feel things he never thought possible—and into a ruthless pack of hunters whose suspicions about his true nature are growing. Now that Gene has finally found something worth fighting for, his need to survive is stronger than ever—but is it worth the cost of his humanity?

"The book helps fill in the picture of a complex and fascinating man...indispensable for the serious study of the subject."—Edmund Wilson, *The New Yorker* The most influential poet of his age, Yeats eluded the grasp of many who sought to explain him. In this classic critical examination of the poet, Richard Ellmann strips away the masks of his subject: occultist, senator of the Irish Free State, libidinous old man, and Nobel Prize winner.

Don Giovanni is presented here in the C. F. Peters edition and contains the original version, along with later arias, recitatives, and duets added for the Vienna performance. Text in both Italian and German.

"The Devil holds the strings which move us!" (Charles Baudelaire, *The Flowers of Evil*, 1857.) Satan, Beelzebub, Lucifer... the Devil has many names and faces, all of which have always served artists as a source of inspiration. Often commissioned by religious leaders as images of fear or veneration, depending on the society, representations of the

underworld served to instruct believers and lead them along the path of righteousness. For other artists, such as Hieronymus Bosch, they provided a means of denouncing the moral decrepitude of one's contemporaries. In the same way, literature dealing with the Devil has long offered inspiration to artists wishing to exorcise evil through images, especially the works of Dante and Goethe. In the 19th century, romanticism, attracted by the mysterious and expressive potential of the theme, continued to glorify the malevolent. Auguste Rodin's *The Gates of Hell*, the monumental, tormented work of a lifetime, perfectly illustrates this passion for evil, but also reveals the reason for this fascination. Indeed, what could be more captivating for a man than to test his mastery by evoking the beauty of the ugly and the diabolic?

Published on February 11, 1984, *Salvifici Doloris* addresses the question of why God allows suffering. This 30th anniversary edition includes the complete text of the letter plus commentary by Myles N. Sheehan, SJ, MD, a priest and physician trained in geriatrics with an expertise in palliative care. Acknowledgments of recent episodes of violence bring the papal document into a modern context. St. Catherine of Bologna, much venerated in her own city, has been little known outside of her native region but interest in her is now increasing. The outline of her life is clear and her own work, *The Seven Spiritual Weapons*, tells a good deal about her inner experiences and early years in the cloister. The introduction to this translation situates her life in the history of Ferrara and Bologna and studies how the external history of the community impinged on Catherine's own religious experience and how it was interwoven with her successful struggle against depression.

In *The Mystery of Things*, Christopher Bollas takes the reader right to the heart of psychotherapy, examining the mysterious aspects of the self that are revealed by analysis. The method of enquiry at the heart of psychoanalysis, that is, free association, runs contrary to everything that we are taught is the logical, rational, scientific way to acquire data. Yet it is only through using such an apparently illogical and subversive method that the pathological structures in thinking can be penetrated and the self underneath revealed and worked with by the analyst. Christopher Bollas focuses on the nature and effects of the free associative process. Using clinical studies, he highlights how aspects such as mental illness, and creative or artistic acts can reveal much about the self.

"Shocking revelations, bank heists, mysterious gifts, inappropriately tight bodysuits, and an epic firefight will determine the fate of the Aurora Legion's most unforgettable heroes--and maybe the rest of the galaxy as well"--
