Whether you have been experiencing manipulation for years, or if this is something entirely new, psychological manipulation can be tricky to decipher. Mostly because the manipulators themselves are true masters of emotional disguise. More often than not, their sweet talking covers their self-serving, dishonest, and, on the whole, sinister intentions. On top of this confusing mismatch of words and actions, they often try to evoke in their interlocutor powerful feelings of guilt or sympathy, so as to make them more susceptible to manipulation. It is the center of every human being's thinking, their deeds, and socialization. Therefore, Dark Psychology is basically the phenomenon through which human beings apply manipulation, persuasion, and mind control techniques to fulfill their intentions. In dark psychology, there is the 'Dark Psychology Triad' which is one of the easiest predictors of

manipulator's behavior, collapsed relationships, and also being problematic. The Dark Psychology Triad includes: The narcissists - These kinds of people are filled with ego, grandiosity, and have no empathy or sympathy. The Machiavellians - These kinds of people use manipulation, persuasion, and mind control to exploit and lure people. In addition to this, they are always immoral. The psychopathy - They are friendly and always charming, impulsive, selfish, lack empathy, and are not remorseful. No one in this world would wish to be a victim of manipulation even though it happens whether you are conscious or unconscious of it. In the case you fall under manipulation, it is not necessarily someone in the Dark Psychology Triad, but you will face persuasion on a daily basis. Manipulation tactics always manifest themselves in regular commercials, Internet advertisements, sales tactics, and in your workplaces. If you are a parent, you must have come across these tactics in your everyday life since children tend to experiment with tactics so that they can get what they want. Dark Psychology is used by people who you genuinely love or trust. In Dark Psychology, the manipulators use the following tactics: They flood their targets with love, compliments, and buttering up to acquire what they want. They lie too much, exaggerate things, tell untruths or even tell partially true stories. They deny their love to those they are targeting through withholding their attention. They give some choice routes that distract you from the choice you do not want them to make. They apply reverse Psychology, which involves doing something which motivates their victim to do the opposite, which turns out to be what they wanted. They use words assumed to have the same definition, but later tell you they meant something else throughout the conversation. This book gives a comprehensive guide on the following: -What is dark psychology-How dark psychology is used in the world-

Do you desire to have an idea of what dark persuasion means? Do you want to know who a dark persuader is ? Through the content of this book, you will understand that persuading someone simply means convincing someone to do or accept as true, using a variety of methods to give advice or discuss. The dissimilarity between belief and dark conviction is intention. A persuader could try to convince someone to do something without thinking about certain tactics or motives, or a real understanding of the person they are trying to persuade.
