Editorial assistance was provided by Michelle H. Introduced in 1961, the Gibson SG is Gibson's biggest-selling guitar of all time, and is synonymous with Angus Young (AC/DC lead guitarist), Tony Iommi (Black Sabbath) and Robby Krieger (The Doors). The SG was originally produced as a more easily manufactured 'mass-production' version of the Les Paul, sales of which were diminishing at the time, but the solid-bodied SG ('Solid Guitar') soon became a revered instrument in its own right. Superbly illustrated and designed, this manual includes case studies of key models – everything from a vintage SG 'Les Paul' to a 2011 SG 50th Anniversary model – but also gives appropriate attention to today's affordable Epiphone versions, Specials, Juniors and Melody Makers.

Life can be cruel. People can be ruthless and evil. The world can be cold and uninviting. No one knows these things better than Josephine Geroux. By her own definition, she is a twenty-five year old "nobody with nothing," and she is content to stay that way. Growing up an orphan has made her tough and indifferent to the people around her until she meets a strangely familiar man with a face that haunts her for reasons she can't understand. Despite the pain that will inevitably ensue, she makes it her mission to discover what parts of her tragic puzzle she is missing. On her journey to discovering why she feels an alarming connection to an absolute stranger, her greatest fear is reawakening the demons and darkness from the past that will surely overtake her if she lets her guard down. Little does

Josephine know that the past should be the least of her worries. She is toying with a man who has already broken her heart once. She just doesn't realize it. Although she makes it a point to avoid interactions with others, Josephine's life becomes entangled with the enigmatic stranger. Before she realizes it, she has given herself over to the one person who is close enough to wreck her.

In *Mordin On Time*, Nick Mordin sets out his method for answering the most fundamental question facing punters in any race, namely: which is the fastest horse? He was timing the sections of races with a stop watch, estimating wind strength and direction, adjusting for movements of running rails, using projected times and calculating average times years before the best-selling American books on speed rating were published. This new edition incorporates much new material, including standard times for all Irish racecourses (plus the major French ones). *Mordin On Time* enables the reader to construct their own speed ratings wherever they live.
