NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. “A brilliant and thoroughly modern guide to learning new languages.”—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn’t learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he’s discovered. Starting with pronunciation, you’ll learn how to rewire your ears and turn foreign sounds into familiar sounds. You’ll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you’ll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you’ll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.

Up-to-date volume, organized for quick access to phrases related to greetings, transportation, shopping, emergencies, other common circumstances. Over 700 entries include terms for modern telecommunications, idioms, slang. Phonetic pronunciations accompany phrases.

Case studies are a powerful pedagogical tool for illuminating constructs and models in real-life contexts. Covering a wide range of teaching-learning contexts and offering in-depth analyses of ESL/ELT language curriculum design issues, this casebook is distinctive and unique in that each case draws on and is clearly linked to a single model presented in Nation and Macalister's *Language Curriculum Design* (www.routledge.com/9780415806060), giving the book a high degree of coherence. A short commentary by the editors after each case highlights features of note and/or issues arising from it. This is a versatile text, designed to work as a companion to *Language Curriculum Design* (adding meaning and depth to the model presented there by relating it to a range of applications), as a stand-alone text, or as a resource for language teacher trainees, teacher educators, practicing teachers, program administrators, and materials writers in the

Language Assessment: Principles and Classroom Practices is designed to offer a comprehensive survey of essential principles and tools for second language assessment. Its first and second editions have been successfully used in teacher-training courses, teacher certification curricula, and TESOL master of arts programs. As the third in a trilogy of teacher education textbooks, it is designed to follow H. Douglas Brown's other two books, Principles of Language Learning and Teaching (sixth edition, Pearson Education, 2014) and Teaching by Principles (fourth edition, Pearson Education, 2015). References to those two books are made throughout the current book. Language Assessment features uncomplicated prose and a systematic, spiraling organization. Concepts are introduced with practical examples, understandable explanations, and succinct references to supportive research. The research literature on language assessment can be quite complex and assume that readers have technical knowledge and experience in testing. By the end of Language Assessment, however, readers will have gained access to this not-so-frightening field. They will have a working knowledge of a number of useful, fundamental principles of assessment and will have applied those principles to practical classroom contexts. They will also have acquired a storehouse of useful tools for evaluating and designing practical, effective assessment techniques for their classrooms.

Basics of Biblical Hebrew Video Lectures provides 36 easy-to-follow lessons introducing the grammar and language of the Hebrew Bible. Integrated for use with today's bestselling Hebrew text, it is an ideal resource for traditional students in need of additional instruction; for professors, who can now utilize precious classroom time for discussion and exercises--and have students watch lectures at home; and for self learners and homeschoolers with an interest in learning Hebrew on their own. Each lesson is approximately half an hour and is taught by experienced teacher Miles V. Van Pelt using a logical and simple method of learning biblical Hebrew, an approach he's refined over more than 20 years of studying and instructing students in biblical languages. Focused on the structural pattern of biblical Hebrew instead of tedious memorization, each video session will give students in formal language classes and self-learners alike the basic understanding they need to begin studying the Hebrew Scriptures.

Spanish speakers can learn Brazilian Portuguese much more rapidly than any other language, and thousands of students have used Antônio Simões's text/workbook *Com licença: Brazilian Portuguese for Spanish Speakers* to make the transition between the two languages.

Recognizing the need for a text that incorporates current

cultural references and the latest language pedagogy, Simões now offers *Pois não: Brazilian Portuguese Course for Spanish Speakers, with Basic Reference Grammar*. *Pois não* contrasts Portuguese and Spanish, which accomplishes two main goals. It teaches the equivalent of one year of college Portuguese in one semester, three times a week, to Spanish speakers who also have a solid understanding of English. Additionally, the book serves as a basic reference guide to Brazilian Portuguese for the same audience. *Pois não* can be used by students in the classroom or by independent learners. Users of the book may focus on the drills alone, concentrate on both the explanations and drills, or use the book as a reference for consultation only. Answers to all of the exercises are included in the book. A CD containing recordings by native Brazilian speakers of dialogues that appear in the book is included.

Michel Thomas's approach to language learning aims to provide in a few hours a functional working knowledge of a language without books, note-taking or conscious memorizing. This CD pack provides an eight-hour course in German plus a 2-CD review course.

F. Lowenthal Universite de l'Etat a Mons 24 rue des Dominicains 7000 Mons Belgium series of "Language and Language Acquisition" conferences The was born in Mons in 1977. One day the Dean said to me: "You are doing research in that field, why don't you try to organize a small conference?". I thought about it, tried to contact people, received several answers and finally told the Dean: "There will be so many participants and I need so much money to organize the conference". His answer was a short one: "I told you to organize a **SMALL** conference". I do not know what he did, but he succeeded in working a miracle: the funds were found and the conference took place. This miracle has been repeated twice: once in Mons (1980) and once in Ghent (1983). The group of people interested in these conferences has become bigger, but the aim of the organizers is still the same: to bring together people working in different fields such as mathematics, philosophy, linguistics, logic, computer, science, education, psychology, medicine, ••• and to give them the possibility to have long discussions even if the time devoted to the presentation of papers has to be reduced. JANET W. LERNER This timely volume explores issues pertinent to the emerging subject of college education for adults with learning disabilities. The inspiration for the book was a conference held at Barat College in Lake Forest Illinois on April 7, 1990, entitled College Students with Learning Disabilities: Reviewing the '80s and Planning for the '90s. The occasion was the celebration of the tenth anniversary of Barat College's program for college students with learning disabilities. Papers presented at this conference, plus several additional invited chapters, and those of the co editors are included in this much needed publication. Only a few years ago, college was out of the question for most adults with learning disabilities. It is heartening to note that this situation has changed substantially over the last 15 or so years, with great strides in opportunities for adults with learning disabilities to acquire a college level education. From a slow beginning with programs such as the one at Barat College, there are today programs and support services in a variety of settings at a growing number of colleges and universities. Many individuals with learning disabilities can look forward to experiencing college and better preparing themselves for the future. The collection of papers in this book offers a comprehensive review of this exciting and challenging field. three generations of women who struggle to find freedom and happiness in their small Midwestern college town. *A Cloud in the Shape of a Girl* is a poignant novel about three generations of the Wise family—Evelyn, Laura, and Grace—as they hunt for contentment amid chaos of their own making. We see these women and their trials, small and large: social slights and heartbreaks; marital disappointments and infidelities; familial dysfunction; mortality. Spanning from World War II to the present, Thompson reveals a matrilineal love story that is so perfectly grounded in our time—a story of three women regressing, stalling, and yes, evolving, over decades. One of the burning questions she asks is: by serving her family, is a woman destined to repeat the mistakes of previous generations, or can she transcend the expectations of a place, and a time? Can she truly be free? Evelyn, Laura, and Grace are the glue that binds their family together. Tethered to their small Midwestern town—by choice or chance—Jean Thompson seamlessly weaves together the stories of the Wise women with humanity and elegance, through their heartbreaks, setbacks, triumphs, and tragedies. “Thompson’s new novel draws the reader in with character and plot...but what ultimately holds the reader enthralled is...her ability to capture the nuance of individual moments, thoughts, and reactions. No one writing today is better at this...[an] extraordinary novel” (Washington Independent Review of Books).
