On January 14, 1993, a team of scientists descended into the crater of Galeras, a restless Andean volcano in southern Colombia, for a day of field research. As the group slowly moved across the rocky moonscape of the caldera near the heart of the volcano, Galeras erupted, its crater exploding in a barrage of burning rocks and glowing shrapnel. Nine men died instantly, their bodies torn apart by the blast. While others watched helplessly from the rim, Colombian geologist Marta Calvache raced into the rumbling crater, praying to find survivors. This was Calvache's second volcanic disaster in less than a decade. In 1985 Calvache was part of a group of Colombia's brightest young scientists that had been studying activity at Nevado del Ruiz, a volcano three hundred miles north of Galeras. They had warned of the dire consequences of an eruption for months, but their fledgling coalition lacked the resources and muscle to implement a plan of action or sway public opinion. When Nevado del Ruiz erupted suddenly in November 1985, it wiped the city of

Armero off the face of the earth and killed more than twenty-three thousand people -- one of the worst natural disasters of the twentieth century. No Apparent Danger links the characters and events of these two eruptions to tell a riveting story of scientific tragedy and human heroism. In the aftermath of Nevado del Ruiz, volcanologists from all over the world came to Galeras -- some to ensure that such horrors would never be repeated, some to conduct cutting-edge research, and some for personal gain. Seismologists, gas chemists, geologists, and geophysicists hoped to combine their separate areas of expertise to better understand and predict the behavior of monumental forces at work deep within the earth. And yet, despite such expertise, experience, and training, crucial data were ignored or overlooked, essential safety precautions were bypassed, and fifteen people descended into a death trap at Galeras. Incredibly, expedition leader Stanley Williams was one of five who survived, aided bravely by Marta Calvache and her colleagues. But nine others were not so lucky. Expertly detailing the turbulent history of Colombia and the geology of its snow-peaked volcanoes, Victoria Bruce weaves together the stories of the heroes, victims, survivors, and bystanders, evoking with great sensitivity what it means to live in the shadow of a volcano, a hair's-breadth away from unthinkable natural calamity, and shows how clashing cultures and scientific arrogance resulted in tragic and unnecessary loss of life.

Since he first dreamed of a career in photography, Guy Gillette has traveled regularly to his wife's family's ranch, located outside the small town of Crockett, Texas. When Gillette first came to the Porter Place, as the ranch has always been known, he began to photograph the Porter family and their land. Thanks to Gillette's sense of composition, these wonderful black-and-white photographs, dating from the 1940s, led to his career as a magazine photographer. Collected here for the first time, they document small-town life in East Texas, where Guy Gillette's sons, the musical duo the Gillette Brothers, still run cattle. A Family of the Land offers a portrait of a community over a half century during which remarkably little has changed. Midway between Dallas and Houston, the Porter Place is where the South meets the

West. The pastures began as cotton fields carved out of piney woods, and the cowboys use southern curs to control the cattle. One of the photographs presented here, of a boy and his dog at the veterinarian's office, is said to have moved Museum of Modern Art curator Edward Steichen to tears. Gillette also captures cowboys at work and at play, branding and marketing their animals, enjoying a game of dominoes, driving trucks with "2-50" air conditioning—two windows down, fifty miles an hour. "Though photography is often called art," says Gillette, "I have wanted to be artless: to be a documentarian, not an artist. . . . Telling a story was always the attraction of photography for me." The story ends with the outdoor wedding of Guy Porter, one of the Gillette Brothers, at the Porter Place. Family, labor, and land remain, inseparable.
