Elias Fort was born before 1646 and died in 1677/1678. Traces the story of the MacIvey family of Florida from 1858 to 1968.

This examination of the organization, leadership, and performance of the 1st Battalion Georgia Sharpshooters, considered to be "one of the best-drilled and most-efficient batalions in the service," follows their wartime experiences and devotes considerable attention to individual soldiers. Excerpt from Saturday Night Sketches: Stories of Old Wiregrass Georgia The great mountain peaks and the broad roll ing plains do not alone make all the earth. The little foot-hills and valleys and vales form an essential part of the globe. The sayings and deeds of great men alone are not all of history. The humbler folk often speak and do things which are the heart and center of real world events. As the little tributaries rising out of the neglect ed and unknown nooks and corners of the land ?ow into and make up the mighty river, so out of the obscure places of earth often come those tiny rivulets of life that give volume, force, and majesty to the deep and broad stream of human history. The books in the Florida and the Caribbean Open Books Series demonstrate the University Press of Florida's long history of publishing Latin American and Caribbean studies titles that connect in and through Florida, highlighting the connections between the Sunshine State and its neighboring islands. Books in this series show how early explorers found and settled Florida and the Caribbean. They tell the tales of early pioneers, both foreign and domestic. They examine topics critical to the area such as travel, migration, economic opportunity, and tourism. They look at the growth of Florida and the Caribbean and the attendant pressures on the environment, culture, urban development, and the movement of peoples, both forced and voluntary. The Florida and the Caribbean Open Books Series gathers the rich data available

BY: Folks Huxford, Pub. 1943, reprinted 2021, 702 pages, Index, soft cover, ISBN #978-1-63914-030-5. Brooks county is located in the southern portion of the state while sharing a border with Florida. This are of Georgia is often times referred to as the Wiregrass Region. This monumental history of an area with rich and varied heritage begins with the creation of the Irwin County from Indian lands ceded to Georgia in 1818. From Irwin emerged Lowndes and Thomas counties and ultimately Brooks County in 1858. The book contains vivid accounts of the Indian wars and is replete with lists of early settlers. A complete U.S. census for Brooks County in 1860 is given, as well as portions of earlier census reports for the parent counties. Extensive treatment of the Civil War period includes muster rolls of every unit from Brooks in the Confederate or State service and deaths of individual soldiers are indicated. Military units of the Spanish-American War and World War I and II are provided. Topics discussed include professional life, agriculture, religious and fraternal organizations, educational and cultural activities, and the development of Quitman and county industries. This volume contains extensive lists of county officers, residents and soldiers. It concludes with approximately 200 pages of family history covering 65 Brooks County families and their connections: Allbritton, Avera, Baum, Bennet (2), Bower, Branch, Brice, Clower, Creech, Davidson, Davis, Denmark, Dukes, Duncan, Edmondson, Gaulden, Groover-Gruber,

Masterpiece offers a detailed discussion of the nature of the earth's terrestrial environment, and a method of subdividing and studying it. 1941 edition.

Experience the entire Civil War through the eyes of the soldiers-North and South. Fast paced, this very human story reads like you're watching a movie.

"During wartime, soldiers never know the whole picture. Tracing the surprising parallel lives of childhood friends and kinsmen, Elisha Hunt Rhodes of the 2nd R. I. Regiment and James Rhodes Sheldon of the 50th Georgia Regiment, amidst the background of the Civil War from beginning to end, Les Rolston has shed new light from primary and secondary sources and added a poignant human touch to history." Robert Hunt Rhodes-editor of ALL FOR THE UNION: THE CIVIL WAR DIARY AND LETTERS OF ELISHA HUNT RHODES as featured in the PBS-TV series THE CIVIL WAR by Ken Burns.

ninety million acres across the Southeast. The Art of Managing Longleaf documents the sometimes controversial management system that not only has protected Greenwood's "Big Woods" but also has been practiced on a substantial acreage of the remnant longleaf pine woodlands in the Red Hills and other parts of the Coastal Plain. Often described as an art informed by science, the Stoddard-Neel Approach combines frequent prescribed burning, highly selective logging, a commitment to a particular woodland aesthetic, intimate knowledge of the ecosystem and its processes, and other strategies to manage the longleaf pine ecosystem in a sustainable way. The namesakes of this method are Herbert Stoddard (who developed it) and his colleague and successor, Leon Neel (who has refined it). In addition to presenting a detailed, illustrated outline of the Stoddard-Neel Approach, the book—based on an extensive oral history project undertaken by Paul S. Sutter and Albert G. Way, with Neel as its major subject—discusses Neel's deep familial and cultural roots in the Red Hills; his years of work with Stoddard; and the formation and early years of the Tall Timbers Research Station, which Stoddard and Neel helped found in the pinelands near Tallahassee, Florida, in 1958. In their introduction, environmental historians Sutter and Way provide an overview of the longleaf ecosystem's natural and human history, and in his afterword,

After killing a man in a duel, Louis Francois was forced to flee Florence and his privileged life of a nobleman. He started over in the French colony of St. Domingue (Haiti). He married, took on the Richards surname of his extended family, started his own family and a successful plantation. The Slave Revolt of 1791 forced them to flee. They made their way to Florida, a Spanish colony. Despite enduring the privations of pioneer life and Indian attacks, the Richards survived and even prospered. During the Patriot War of 1812, Georgian rebels devastated the area and forced the Richards to abandon their plantations. Francis Jr. returned and operated a sawmill plantation. He fathered 11 children with his slaves; educated, and provided for them all. Raising 15 children on his plantation during the "Seminole Wars," brother John Charles became the progenitor of a long line Florida Richards. While most members of the "Richard Clan" were prominent citizens, quite a few were of dubious character, and met violent deaths.
