Reminiscent of old whaling stories, *Four-Day Planet* follows the story of Walter Boyd, a scrappy 17-year-old reporter working for his father at the Port Sandor Times. Walt gets tied up in the adventures of the sea-monster hunters on Fenris—a barely-habitable planet with a 2,000-hour day. The prized-and only-commodity on Fenris is tallow-wax, a miraculous material harvested from the dangerous seas of the planet. While being set in a grand sci-fi universe, the book packs in more about intrigue, betrayal, and the grit required to survive on a backwater planet of the Federation. The book was later re-published as a “two-for-one” with *Lone Star Planet* (originally titled *A Planet for Texans*). This book is part of the Standard Ebooks project, which produces free public domain ebooks.
