

Play Smart Early Learning 2

What's the Play Smart secret? Making learning fun! Created by educational experts, the award-winning Play Smart series uses Gakken's unique fun-first method of completing age-appropriate activities that are progressively more challenging, building on small achievements, and fostering an eagerness to learn. Play Smart's philosophy rewards success and builds confidence. The variety of activities leads to creative problem-solving skills and prepares children for the journey of lifelong learning. Play Smart Big Workbook 2+ is packed with 256 pages, over 300 stickers, and a press-out award trophy--all created to get kids prepped for preschool!

Children learn when they're having fun. The Play Smart fun-first philosophy has proven hugely successful with children, parents, and educators. Play Smart Early Math includes more than 60 engaging puzzles that help to hone preschoolers' number sense, counting, and problem-solving skills. Wipe-off pages, and a set of different challenges for every activity make for hours of entertainment. The books are designed so that the puzzles (such as matching games, dot-to-dots, and comparing quantities) get harder as you move through the book, helping to build a sense of independence, and confidence. Lively, colorful art, an erasable marker, practice worksheets, and doodle pages complete the package. These award-winning, kid-tested activities have won over millions of fans around the world.

In this Kids activity book, your child will practice holding a pencil or crayon correctly while playing the games. Improve brain learning, drawing skills and meditation practice for kids. Your child will develop the fine motor control needed for Kindergarten and plus. Your kids would love this book because the book has game on each pages. Idea for funny gifts for Kids.

Gakken's Play Smart GINORMOUS WORKBOOK contains best-selling, research-based, engaging early learning activities to help children develop early learning readiness, fine-motor, and higher thinking skills plus a true love of learning today -- and into the future. Gakken's Play Smart GINORMOUS Workbook pairs our research-based, engaging early learning activities with our "Learning should be fun" philosophy for hours of productive and smart play time while developing thinking skills, observation abilities, focus, confidence, and a love of learning. The Play Smart GINORMOUS Workbook is packed with over 350 pages of fun-first activities including tracing, mazes, matching, sorting, puzzles, dot-to-dot and more. Your child will have hours of fun and they'll be learning and sharpening their skills without even realizing it. Each activity comes with tips for parents to help enhance the experience along with alternate ways to play each game. The Play Smart GINORMOUS Workbook includes 400 adorable stickers, a suitable-for-framing completion certificate and a unique "I DID IT!" crown that allow you to reward your little one for a job well-done and to encourage additional learning.

Get Ready Books teach valuable life lessons with your favorite Nickelodeon characters--and they include over 30 stickers! When Nickelodeon's SpongeBob SquarePants gets sick, he's not sure what to do. Should he listen to his friend Patrick's sill advice, or should he go to the doctor? With over 30 stickers, this funny storybook shows children 3 to 7 that they shouldn't be afraid of the doctor. Featuring popular Nickelodeon characters and fun-filled stories, Get Ready Books teach important social-

emotional lessons. Look for the first book in the series, *You Can Do It!* The Emmy award-winning *SpongeBob SquarePants* is Nickelodeon's longest running series. For nearly twenty years, the joyfully optimistic *SpongeBob* and his friends *Patrick*, *Squidward*, and *Sandy* have entertained fans around the world with their undersea silliness.

Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. *Parenting Matters* identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

What's the Play Smart secret? Learning should be fun! Gakken's Play Smart workbooks and classes have been helping children from ages 2-5 to develop important skills for more than 30 years in Japan. Now this unique, tried-and-true creative learning system is available in North America. *Play Smart 1-2-3 Picture Puzzlers 4+* is packed with 70 fun-first, thoroughly engaging, numbers-based activities designed to enhance number sense and early math skills, reasoning, and problem-solving. The 2020 edition of the Alabama Standards for Early Learning and Development (ASELD) has been developed to support all professionals who interact with young children, birth to age 5. The Standards have been aligned with both national and state program standards and program requirements so that adults who work directly with children in infant-toddler or preschool classrooms, Head Start and Early Head Start programs, child care facilities, home visiting programs, or special education settings will be able to use the document to guide their interactions and instructional practices. Instructors in higher education, high school and career and technical programs are encouraged to introduce pre-service students to the standards through their coursework. Professional development specialists and technical assistance specialists who reference the standards within their training and coaching empower professionals' understanding and use of the ASELDs to cultivate high quality early learning programs. Professionals who write special education plans can use them to specify children's goals. In short, the ASELDs offer one single set of expectations for Alabama's young children that extend across all program types. The ASELDs follow a unique format that includes learning progressions or indicators for children's learning, birth to age 5. Each double page provides a sequence of development for specific strands within the ASELDs' domains. The ASELDs are organized into 4 sections with 8 domains of learning for children and a 9th domain that describes the ways in which professionals and families work together to support children's learning. The eight children's domains portray a comprehensive view of children's learning and are further supplemented through the additional domain of Family and Community Engagement. Each of the eight learning domain segments in the ASELDs has 4 key parts: 1) a domain introductory page; 2) the learning progressions, birth to 5 years or 60 months; 3) recommendations for adaptations and accommodations to support children with unique needs; and 4) foundational practices for professionals. These pages work together to guide all professionals, regardless of the early learning setting, in the design and use of age, culturally, and linguistically appropriate learning standards for all young children, birth to age 5.

THE BEST GIFT IDEA | ACTIVITY BOOK FOR KIDS A perfect learning activity workbook for toddlers, either boys or girls for their fun & exciting learning In this Kids activity book, your child will practice holding a pencil or crayon correctly while playing the games. What's the Play Smart secret? Learning should be fun! Fun-first activities—an engaging mix of picture puzzles, number games, mazes, and crafts—keep kids thoroughly entertained while they build reasoning skills, vocabulary, and creativity. Notes to parents on every page offer suggestions for enhancing school skills and life skills as kids play their way through the book.

The activities get progressively harder, helping little ones to build a sense of confidence as they progress. And more than 80 adorable stickers add to the excitement: kids choose a reward sticker after finishing each challenge. A wipe-off activity board completes the package. Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well.

Transforming the Workforce for Children Birth Through Age 8 explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. *Transforming the Workforce for Children Birth Through Age 8* offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

Prepare opportunities for purposeful play with students in grades PK-K using *Let's Learn and Play!* This 160-page book is a comprehensive resource for creating purposeful play centers that help students solve problems, experiment, navigate social situation

Notes to parents on every page provide helpful directions for extending the learning. Plus, this unique workbook comes with 80+ stickers which are used in certain activities, and as rewards for a job well-done

The hidden brain is the voice in our ear when we make the most important decisions in our lives—but we're never aware of it. The hidden brain decides whom we fall in love with and whom we hate. It tells us to vote for the white candidate and convict the dark-skinned defendant, to hire the thin woman but pay her less than the man doing the same job. It can direct us to safety when disaster strikes and move us to extraordinary acts of altruism. But it can also be manipulated to turn an ordinary person into a suicide terrorist or a group of bystanders into a mob. In a series of compulsively readable narratives, Shankar Vedantam journeys through the latest discoveries in neuroscience, psychology, and behavioral science to uncover the darkest corner of our minds and its decisive impact on the choices we make as individuals and as a society. Filled with fascinating characters, dramatic storytelling, and cutting-edge science, this is an engrossing exploration of the secrets our brains keep from us—and how they are revealed.

Educator, parent, and toddler approved--200+ fun, educational toddler activities to establish key learning skills at each developmental milestone. When you play with your toddler they learn essential skills that they don't learn alone. That's why former teacher turned stay-at-home mom, Angela Thayer, filled The Play & Learn Toddler Activities Book with more than 200 toddler activities specifically meant for you and your little one to play and learn together. With toddler activities that reinforce critical skills for each stage of learning, your toddler will learn to make connections, solve problems, and practice language skills while spending meaningful time with you. The Play & Learn Toddler Activities Book includes: An overview of toddler development to help you determine your child's level of readiness for particular toddler activities Over 200 fun toddler activities for children ages 12 months to 3 years, divided by learning category and complete with materials lists, activity times, prep times, and messiness ratings Activity classification icons to quickly identify which type of learning is associated with each of the toddler activities From making bubble wrap art to growing a garden in a bag, The Play & Learn Toddler Activities Book will provide hours of educational fun that both you and your toddler will enjoy.

Plus, this unique workbook comes with 80+ stickers which are used in certain activities, and as rewards for a job well-done.

From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of The No Asshole Rule and The Asshole Survival Guide “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of Broke Millennial: Stop Scraping By and Get Your Financial Life Together
