"Now I am become Death, destroyer of worlds." Dr. Grace Llewellyn quotes Oppenheimer as her creation takes its first breath. Moments later, a US military strike team hits her laboratory in suburban Maryland. Markus Stebbings is hiding terminal brain cancer, hoping to remain alive and a part of Delta long enough to die for something that matters. The mission to destroy a domestic terrorist cell in possession of a nuclear bomb sounds like the opportunity he is looking for, until he realizes that his targets are not terrorists, and that what they have is something infinitely more dangerous than a bomb. On the run with Grace and the device she calls Prometheus, Markus finds himself pitted against the full might of US intelligence and military forces as they mount the biggest manhunt ever conducted on American soil. He quickly learns that Prometheus represents a technological advancement so profound that it can alter the course of history. What he doesn't know is that there is another such device already in play, and that he, Grace and Prometheus are all that stand between it and the end of human civilization as we know it. Zardonne, Master of the Dark Rift, has ripped a hole in the fabric of Tellaron and invaded with an army of hideous demons. Oblivious to the dangers and evil brewing beyond the borders of the quiet Ardis Valley where she lives, nineteen year old Tenya toils through a life of dreary loneliness and drudgery, plagued by strange, disturbing visions, yearning desperately for the

beautiful mother she had not seen since she was three. Her life is abruptly turned upside down when she is abducted in the middle of the night and sent on a perilous journey that will test her courage and the fledgling powers buried deep within her. For not only does she discover that her missing mother, Elea, is a powerful sorceress able to control the forces of the wind, Tenya also learns that she herself possesses a singing power that manifests itself as white fire throughout her body. Can she find her mother, and the strength to use her own powers, in time to save Tellaron from the evil Demon Master? Her world depends upon it.

When Edy Phelps falls hard for her best friend, she knows nothing can come from it. Forget actual chemistry, or the fact that she cherishes his mother more than her own; centuries of tradition say that Hassan Pradhan will grow up, marry the girl his parents select, and think nothing of his best friend: the dancer with the bursting smile. Except he can't. He won't. In a world erupting with possibilities for the boy with a body of steel and dreams of the NFL, everything seems promised while nothing at all is; when he's denied the girl he wants most. Two hearts. Two families devoted through generations of friendship. Could Edy and Hassan really risk all that? And yet ... how could they not?

What if you had just learned that your days are about to come to an end? Would you quietly accept your destiny, or would you fight this one final battle? And what if the demons of your past disturb the delicate reconciliation you thought you had found? These are the questions facing John Kadel in "If only I could...", a simple story

Where does a fire escape lead? Can it really save lives? Is it, in fact, a way out of danger? These questions are at the heart of the 17 episodes in *The Fire Escape Stories, Volume II*, a coming-of-age collection set in the early 1960s that builds upon the nine tales in *The Fire Escape Stories, Volume I*, which are set in the 1950s. In Volume I, cousins Sally-Boy Boccanera and Mike Burns, are born one-minute apart on the same day in the same Brooklyn Hospital in 1948. The fire escape is the safe shared space where the two youths talk, play, and try to understand the world that is emerging. In Volume II, the fire escape transforms into a different space. It is where teenagers Sally-Boy and Mike share stolen beers, swap stories, take girls, and confront one another. In Volume II, life starts to change significantly for the boys.
