An introductory guide to the formulation of trading and investment strategy in interest rate markets Fundamental Fixed Income Strategies arms students and practitioners with a thorough understanding of how fixed income markets operate in practice, taking a rigorous approach to the pricing and trading of interest rate instruments within a larger macroeconomic framework. The book begins by considering the supply and demand of credit before examining how central banks set short-term interest rates. It then examines the pricing of money market and derivative instruments and how to use them to implement a preferred strategy. It outlines the empirical behaviour of the yield curve through the business cycle and provides a rigorous treatment of the implementation of strategies in the bond and derivatives markets. Finally, the book outlines a framework for formulating strategy in the corporate bond and credit derivatives markets. Throughout, readers will find examples of spreadsheets and calculators, as well as examples of strategies commonly employed by practitioners. Presents a thorough introduction to fixed income/interest rate markets for traders, asset managers, hedge funds, and institutional investors Written by one of the leading bond strategists in the industry Intended to bridge the gap between finance and

economic texts, analysing trading and hedging strategies through a broad macroeconomic framework

At first glance, one might compare the young Chinese photographer Yang Yong to Nan Goldin or Larry Clark, for he, too creates sexy/abject pictures of marginal urban youth. However, when

one examines Yang Yong's work more closely, one connects it with its larger context, the "model" city of Shenzhen. In this light, Yang Yong's work can be seen as a kind of photo-roman that exposes the specific state of being that is shared by his generation, who have immigrated from all over China to reinvent themselves in this artificially created "Special Economic Zone" that is supposed to be a testing ground for China's new urbanization and modernization. Yang Yong is a sensitive and accurate observer of his generation, though his work is by no means documentary: The scenes he depicts are all directed and set up by the artist himself. Perhaps this is why Yang Yong's work always radiates a certain cinematic flair. This gripping book, which was first published in 1927, preserves a series of letters written by the author, George Eastman, founder of the Eastman Kodak Company. The letters chronicle Eastman's adventures on a hunting trip into the interior of Africa that he made during the summer of 1926 with Daniel E. Pomeroy and Dr. Audley D. Stewart. The party departed New York for the African continent on March 13, 1926. Landing at Mombasa, they proceeded to Nairobi, where they established headquarters, making from there various long trips into the hunting regions of the interior. Stewart and Eastman returned to Rochester on October 24, 1926. During this trip, Eastman also met Martin and Osa Johnson, the American adventurers and documentary filmmaker couple that captured the public's imagination through their films and books of adventure in exotic, faraway lands in the first half of the 20th century. The couple were on a four-year expedition to track the lion across Kenyan veld to his lair, footage of which was later used to make their 1928 black-and-white silent documentary film, Simba: The King of

the Beasts. Beautifully illustrated throughout with photographs taken on the trip.

Every chapter in this guidebook features

numerous color plates that exemplify each aspect described in the text and are drawn primarily from the collections of the Newberry Library in Chicago and the Parker Library of Corpus Christi College, Cambridge."--Book jacket. Originally published in 1974, this is a detailed study of the financial administration of the Chinese government during the Ming dynasty (1368-1644), with particular attention to the sixteenth century, a topic about which very little has been published either in Chinese or any Western language. Professor Huang has worked through an enormous quantity and variety of source material - in particular the 133 substantial volumes of the Ming Veritable Records - and has compared the documents on financial matters with the entries in local gazetteers. The complicated workings of government finance present great difficulties to all specialists in Chinese financial and administrative history and in different branches of local Chinese history from the fifteenth century onwards. Professor Huang's study will provide all such researchers with an authoritative work of reference. Katie's Cabbage is the inspirational true story of how Katie Stagliano, a third grader from Summerville, South Carolina, grew a forty-pound cabbage in her backyard and donated it to help feed 275 people at a local soup kitchen. In her own words, Katie shares the story of the little cabbage seedling and the big ideas of generosity and service that motivated her to turn this experience into Katie's Krops, a national youth movement aimed at ending hunger one vegetable garden at a time. Katie's Cabbage reminds us of how small things can grow and thrive when nurtured with tender loving and care and of how one person, with the support of family, friends, and community, can help make a powerful difference in the lives of so many. Katie's Cabbage was illustrated by Karen Heid, associate professor of art education at the University of South Carolina School of Visual Art and Design. Editorial assistance was provided by Michelle H. Martin, a dedicated gardener and the Augusta Baker Chair in Childhood Literacy at the University of South Carolina School of Library and Information Science.
