One of the 20th century's enduring works, *One Hundred Years of Solitude* is a widely beloved and acclaimed novel known throughout the world, and the ultimate achievement in a Nobel Prize–winning career. The novel tells the story of the rise and fall of the mythical town of Macondo through the history of the Buendía family. It is a rich and brilliant chronicle of life and death, and the tragicomedy of humankind. In the noble, ridiculous, beautiful, and tawdry story of the Buendía family, one sees all of humanity, just as in the history, myths, growth, and decay of Macondo, one sees all of Latin America. Love and lust, war and revolution, riches and poverty, youth and senility -- the variety of life, the endlessness of death, the search for peace and truth -- these universal themes dominate the novel. Whether he is describing an affair of passion or the voracity of capitalism and the corruption of government, Gabriel García Márquez always writes with the simplicity, ease, and purity that are the mark of a master. Alternately reverential and comical, *One Hundred Years of Solitude* weaves the political, personal, and spiritual to bring a new consciousness to storytelling. Translated into dozens of languages, this stunning work is no less than an accounting of the history of the human race.

Tackling relationships, career, and family issues, John Kim, LMFT, thinks of himself as a life-styledesigner, not a therapist. His radical new approach, that he sometimes calls “self-help in a shot glass” is easy, real, and to the point. He helps people make changes to their lives so that personal growth happens organically, just by living. Let’s face it, therapy is a luxury. Few of us have the time or money to devote to going to an office every week. With anecdotes illustrating principles in action (in relatable and sometimes irreverent fashion) and stand-alone practices and exercises, Kim gives readers the tools and directions to focus on what's right with them instead of what's wrong. When John Kim was going through the end of a relationship, he began blogging as The Angry Therapist, documenting his personal journey post-divorce. Traditional therapists avoid transparency, but Kim preferred the language of "me too" as opposed to "you should." He blogged about his own shortcomings, revelations, views on relationships, and the world. He spoke a different therapeutic language —open, raw, and at times subversive — and people responded. The Angry Therapist blog, that inspired this book, has been featured in The Atlantic Monthly and on NPR.

Offering a new template for future exploration, Susan Greenwood examines and develops the notion that the experience of magic is a panhuman orientation of consciousness, a form of knowledge largely marginalized in Western societies. In this volume she aims to form a "bridge of communication" between indigenous magical or shamanic worldviews and rationalized Western cultures. She outlines an alternative mythological framework for the latter to help develop a magical perception, as well as giving practical case studies derived from her own research. The form of magic discussed here is not fantastic or virtual, but ecological and sensory. Magical knowledge infiltrates the body in its deepest levels of the subconscious, and unconscious, as well as conscious awareness; it is felt and understood through the connection with an inspirited world that includes the consciousness of other beings, including those of plant, animal and the physical environment. This is anthropology from the heart rather than the head, and it engages with the messy area of emotions, an embodiment of the senses, and struggles to find a common language of listening to one another across a void of differences. The aim is to provide a non-reductive structure for the creative interplay of both magical and analytical modes of thought. Passion is a motivator for change, and a change in attitude to magic as an integrative force of human understanding is the main thread of this work.
