Strong math skills are essential to success in school and life. Math Practice Simplified - Pre-Algebra provides practice activities that help students become proficient in working with signed numbers, numbers and expressions with exponents, square numbers, and square roots. Proficiency with these concepts is an essential prerequisite skill for higher mathematics. Integers appear in the first part of the book with rational numbers and irrational numbers to follow. Throughout, the numbers have been kept simple so that the emphasis remains on the pre-algebraic concept. This eBook is designed for students in grades 6, 7, and 8. Students using Math Practice Simplified—Pre-Algebra can build a solid foundation for mathematics, increase self-esteem, and improve performance on standardized tests. The exercises are placed on the pages so that adequate workspace is available with few visual distractions to interfere with concentration. Answers are provided at the back of the book.

Intermediate Algebra offers a practical approach to the study of intermediate algebra concepts, consistent with the needs of today's student. The authors help students to develop a solid understanding of functions by revisiting key topics related to functions throughout the text. They put special emphasis on the worked examples in each section, treating them as the primary means of instruction, since students rely so heavily on examples to complete assignments. The applications (both within the examples and exercises) are also uniquely designed so that students have an experience that is more true to life--students must read information as it appears in headline news sources and extract only the relevant information needed to solve a stated problem. The unique pedagogy in the text focuses on promoting better study habits and critical thinking skills along with orienting students to think and reason mathematically. Through Intermediate Algebra, students will not only be better prepared for future math courses, they will be better prepared to solve problems and answer questions they encounter in their own lives.
