The pleasure of your company is requested at Warbury Park. Four lovely ladies will arrive... but only one can become a duchess. James, the scandalously uncivilized Duke of Harland, requires a bride with a spotless reputation for a strictly business arrangement. Lust is prohibited and love is out of the question. Four ladies. Three days. What could go wrong? She is not like the others... Charlene Beckett, the unacknowledged daughter of an earl and a courtesan, has just been offered a life-altering fortune to pose as her half-sister, Lady Dorothea, and win the duke's proposal. All she must do is: * Be the perfect English rose [Ha!] * Breathe, smile, and curtsy in impossibly tight gowns [blast Lady Dorothea's sylph-like figure] * Charm and seduce a wild duke [without appearing to try] * Keep said duke far, far from her heart [no matter how tempting] When secrets are revealed and passion overwhelms, James must decide if the last lady he should want is really everything he needs. And Charlene must decide if the promise of a new life is worth risking everything . . . including her heart.

Her distraught family forced her to name her first lover; and her twin brothers announced their intention to murder Santiago Nasar for dishonoring their sister. El previsible futuro trajo consigo imprevisibles avances tecnológicos, la previsible codicia humana se deshizo para convertirse en justicia y bondad. Las guerras se hicieron intensas y la gente cesó de luchar para parar la locura humana. La Tierra se convirtió en un paraíso cuando todos los defectos humanos cesaron. La paz, la armonía, la equidad y todo lo bueno gobernaba en los países de la Tierra. Pero entonces llegaron ellas, las Artemis. Unas mujeres conocidas como "brujas" cuyos poderes pseudomágicos no se vieron antes en el planeta Tierra. Las Artemis son un grupo de mujeres que comienzan una cruzada por la dominación mundial, gracias a sus poderes estas brujas consiguen dar golpes de estado y hacerse con el control de los países. Las Artemis controlan grandes extensiones de mundo bajo sus mandatos dictatoriales y someten a ejércitos enteros y civiles bajo su poder de opresión. Las Artemis tienen un único punto débil, las armas tradicionales, ellas pueden detener las balas y evadir casi cualquier proyectil, por lo que los ejércitos armados son inútiles, no obstante una mísera flecha de madera o una espada podría detener a una Artemis. Algunos países se revelan constantemente contra las Artemis, Japón, Nueva España, Italia y Grecia logran abatir a sus respectivas dictadoras, En Nueva España se ha creado una corporación llamada "Hades" donde se entrenan soldados de élite para enfrentarse a las Artemis. Al no tener España una Artemis gobernando, Boadi, la Artemis francesa, ve aquello como signo de debilidad y decide conquistar el país para añadirlo a su territorio controlado. La corporación Hades envía a su nuevo y recién nombrado capitán, Cid, el cuál tendrá la importante misión de detener a Boadi y cumplir una importante misión que tornará la política de Nueva España. Este es solo el inicio de las aventuras de Cid, que tendrá que enfrentarse a varios obstáculos hasta encontrar el sentido de sus acciones. Vive una historia de temática retrofuturista en un ambiente Ciberpunk en una compleja trama política llena de corrupción y secretos, sigue al capitán Cid en sus apasionantes luchas a capa y espada contra enemigos impensables y sorprendentes. Disfruta de las apasionantes batallas a bordo de las modernas naves de la humanidad. Prepárate para ver una historia llena de guerra, sangre, traición y sorpresas. ¡Sigue al capitán Cid en su primera misión!

How did Cuba's long-established sugar trade result in the development of an agriculture that benefited consumers abroad at the dire expense of Cubans at home? In this history of Cuba, Louis A. Perez proposes a new Cuban counterpoint: rice, a staple central to the island's cuisine, and sugar, which dominated an export economy 150 years in the making. In the dynamic between the two, dependency on food imports—a signal feature of the Cuban economy—was set in place. Cuban efforts to diversify the economy through expanded rice production were met with keen resistance by U.S. rice producers, who were as reliant on the Cuban market as sugar growers were on the U.S. market. U.S. growers prepared to retaliate by cutting the sugar quota in a struggle to control Cuban rice markets. Perez's chronicle culminates in the 1950s, a period of deepening revolutionary tensions on the island, as U.S. rice producers and their allies in Congress clashed with Cuban producers supported by the government of Fulgencio Batista. U.S. interests prevailed—a success, Perez argues, that contributed to undermining Batista's capacity to govern. Cuba's inability to develop self-sufficiency in rice production persists long after the triumph of the Cuban revolution. Cuba continues to import rice, but, in the face of the U.S. embargo, mainly from Asia. U.S. rice growers wait impatiently to recover the Cuban market.

The siege of Malta: A brutal combat. A test of courage. A battle that will change history. Previously published as CLASH OF EMPIRES: THE GREAT SIEGE. 1565: a small island in the middle of the Mediterranean stands gatekeeper between East and West. It is about to become the scene for one of the most powerful stories of bravery, battle and bloodlust: the siege of Malta. Formed in the Holy Land in the 11th century, a small band of knights had long sought a home. Driven from their lands by Ottoman might, they came to rest in Malta from where they watched the Turks and corsairs raid the Spanish empire. As word came from Constantinople that Malta was in the sights of the Ottoman Empire, all of Europe watched a force of over 30,000 men besieged the island - peopled by 500 knights and a few thousand local soldiers. On that small rock an epic struggle will be played out - the story of individual men, warriors and slaves, but also the story of two worlds colliding.

"This book proposes a different perspective and shows, through a knowledge historical approach and several case studies, that the School of Salamanca has to be considered both an epistemic community and a community of practice that cannot be fixed to any individual place. Instead, the School of Salamanca encompassed a variety of different sites and actors throughout the world and thus represents a case of global knowledge production"--
