Here's an inescapable fact: you will need to know how people talk and react to whatever things you say. It is also important on how to choose the words and the how to approach a person to pick up a conversation, be it formal or casual.

Conversations are important because they have the ability to resolve conflicts and find solutions to any situation you are in. A person with a good ability to talk and connect with others around him will always be in control in any situation he/she is put in. If you do not develop your conversational skills, you will be let down and ignored in a social circle. The core of a man's knowledge comes from interaction with different kinds of people. You have to possess a specific skill set that allows you to open up with other people and they should be able to give back the same to you.
