Once headed out to sea, however, the work grew simpler, and the captain had time to observe what was going on. As he strolled on the forward deck, he saw a man turning a big wheel, now this way, now that.

Glen House, MD, was a typical twenty-year-old, college student when he suffered a skiing accident that paralyzed him. But he never pitied himself, he was never angry and he never wavered in his faith. Instead, he pushed forward with often nothing but sheer determination to sustain and motivate himself and went on to become a doctor, inventor, businessman, husband and father who now daily touches the lives of others facing physical difficulties. This is not a story of his disability; this is a story of Glen's success-ability. Glen House may sit much of the day in a wheelchair, but he does not sit still. He's a bundle of energy, helping other people navigate their new world following life-changing injury. The key influences that Glen credits for his own journey are faith, family, and friends. I believe you will be inspired by Glen's story, as powerfully told by his devoted sister,

Shelly Templin. ~ Don Simpson, coauthor with Dallas Willard of *Revolution of Character* When you get the call from an ER telling you that your 24-year-old daughter is barely alive after a ski accident, you hope and pray that the right people will be put in your path. Dr. House was that person for us. His firsthand knowledge, compassion, and experience told us we were in great hands. Four months later, our daughter walked out of the hospital on her own. ~ Reg and Barb Francklyn, parents of Sally Francklyn, Adventurer, Traumatic Brain Injury Survivor

Excerpt: ...a man who stands very high in the community, who is king in his specialty, was called upon to give his opinion upon the matter under consideration, and he got up and trembled and stammered and could scarcely say his soul was his own. He could not even make a decent appearance. He had power and a great deal of experience, but there he stood, as helpless as a child, and he felt cheap, mortified, embarrassed, and probably would have given anything if he had early in life trained himself to get himself in hand so that he could think on his feet and say with power and effectiveness that which he knew. At the very meeting where this strong man who had the respect and confidence of everybody who knew him, and who made such a miserable failure of his attempt to give his opinion upon an important public matter on which he was well posted, being so confused and self-conscious and "stage struck" that he could say scarcely anything, a shallow-brained business man, in the same city, who hadn't a hundredth part of the other man's practical power in affairs, got up and made a brilliant speech, and strangers no doubt

thought that he was much the stronger man. He had simply cultivated the ability to say his best thing on his feet, and the other man had not, and was placed at a tremendous disadvantage. A very brilliant young man in New York who has climbed to a responsible position in a very short time, tells me that he has been surprised on several occasions when he has been called upon to speak at banquets, or on other public occasions, at the new discoveries he has made of himself of power which he never before dreamed he possessed, and he now regrets more than anything else that he has allowed so many opportunities for calling himself out to go by in the past. The effort to express one's ideas in lucid, clean-cut, concise, telling English tends to make one's everyday language choicer and more direct, and improves one's diction generally. In this and other ways...

Orison Swett Marden's *Pushing to the Front* is a classic of the literature of personal motivation that remains startlingly relevant today. A phenomenal bestseller when it was first published in 1894, it was greatly expanded by popular demand to two volumes in 1911. Marden explores a wide range of issues that hold us back from success in all areas of our lives. Presented here as one combined volume, Marden discusses: Choosing a vocation Success under difficulties The habit of happiness The power of suggestion Why some succeed and others fail And much more... "Nearly all great men, those who have towered high above their fellows, have been remarkable above all things else for their energy of

will," Marden notes... and shows us how to cultivate our energy of will, too. American writer and editor ORISON SWETT MARDEN (1850-1924) was born in New England and studied at Boston University and Andover Theological Seminary. In 1897, he founded Success Magazine.

A daring young woman risks everything to pursue a career as a doctor on the front lines in France during World War I, and learns the true meaning of hope, love, and resilience in the darkest of times. When Eleanor Atherton graduates from medical school near the top of her class in 1917, she dreams of going overseas to help the wounded, but her ambition is thwarted at every turn. Eleanor's parents insist she must give up medicine, marry a respectable man, and assume her proper place. While women might serve as ambulance drivers or nurses at the front, they cannot be physicians--that work is too dangerous and frightening. Nevertheless, Eleanor is determined to make more of a contribution than sitting at home knitting for the troops. When an unexpected twist of fate sends Eleanor to the battlefields of France as the private doctor of a British peer, she seizes the opportunity for what it is--the chance to finally prove herself. But there's a war on, and a casualty clearing station close to the front lines is an unforgiving place. Facing skeptical commanders who question her skills, scores of wounded men needing care,

underhanded efforts by her family to bring her back home, and a blossoming romance, Eleanor must decide if she's brave enough to break the rules, face her darkest fears, and take the chance to win the career--and the love--she's always wanted.

FOREWORD This revised and greatly enlarged edition of "Pushing to the Front" is the outgrowth of an almost world-wide demand for an extension of the idea which made the original small volume such an ambition-arousing, energizing, inspiring force. It is doubtful whether any other book, outside of the Bible, has been the turning-point in more lives. It has sent thousands of youths, with renewed determination, back to school or college, back to all sorts of vocations which they had abandoned in moments of discouragement. It has kept scores of business men from failure after they had given up all hope. It has helped multitudes of poor boys and girls to pay their way through college who had never thought a liberal education possible. The author has received thousands of letters from people in nearly all parts of the world telling how the book has aroused their ambition, changed their ideals and

aims, and has spurred them to the successful undertaking of what they before had thought impossible. The book has been translated into many foreign languages. In Japan and several other countries it is used extensively in the public schools. Distinguished educators in many parts of the world have recommended its use in schools as a civilization-builder. Crowned heads, presidents of republics, distinguished members of the British and other parliaments, members of the United States Supreme Court, noted authors, scholars, and eminent people in many parts of the world, have eulogized this book and have thanked the author for giving it to the world. This volume is full of the most fascinating romances of achievement under difficulties, of obscure beginnings and triumphant endings, of stirring stories of struggles and triumphs. It gives inspiring stories of men and women who have brought great things to pass. It gives numerous examples of the triumph of mediocrity, showing how those of ordinary ability have succeeded by the use of ordinary means. It shows how invalids and cripples even have triumphed by perseverance and will over seemingly insuperable difficulties. ...
