The International Conference of Electronic Engineering and Information Science 2015 (ICEEIS 2015) was held on January 17-18, 2015, Harbin, China. This proceedings volume assembles papers from various researchers, engineers and educators engaged in the fields of electronic engineering and information science. The papers in this proceedings

Oswaal CBSE Sample Question Papers Class 12 (Set of 3 Books) Physics, Chemistry, Mathematics (For Reduces Syllabus 2021 Exam)

- Strictly as per the Term wise syllabus & Sample Question Paper released on 2nd Sept., 2021
- Exam-Targeted, 5 solved & 10 Self-Assessment Papers
- All Types of MCQs—Assertion-reason & Case-based
- Answers with Explanations & OMR Sheets after each Sample Question Paper
- Academically important (AI) Questions for Board Exam
- Learn more with 'Mind Maps' • 'On-Tips Notes' for Quick Revision
- For detailed study, scan the QR code

Oswaal CBSE Sample Question Papers Class 12 (Set of 3 Books) Physics, Chemistry, Biology (For Reduces Syllabus 2021 Exam)

Oswaal CBSE Sample Question Papers Class 12 (Set of 5 Books) Physics, Chemistry, Mathematics, English, Computer Science (For Reduces Syllabus 2021 Exam)

Educational Assessment in a Time of Reform provides background information on large-scale examination systems more generally and the South African examination specifically. It traces the reforms in the education system of South Africa since 1994 and provides a description of the advances in modern test theory that could be considered for future standard setting endeavours. At the heart of the book is the

debate on whether the current standard of education in Africa is good enough . If not, then how can it be improved? The aim of this book is to provide a point of departure for discussions on standard-setting, quality assurance, equating of examinations and assessment approaches. From this point of departure recommendations for practices in general and the exit-level (Grade 12) examination results in particular can be made. This book is ideal reading for principals, teachers, academics and researchers in the fields of educational assessment, measurement, and evaluation.

Oswaal CBSE Sample Question Papers + Question Bank (Set of 6 Books) Physics, Chemistry, Biology (For Reduce Syllabus 2021 Exam)

Professor Sathe is a great gift, a passionate teacher who cares deeply about the life arc of each individual student. In his vibrant classroom, he translates strategic management into a personal discipline—and here in these pages, he brings to you and me the benefits of his wise mentorship. —Jim Collins, author of *Good to Great* This book gives the reader the keys to survival and success as his or her career progresses from one job to the next in the same, or a different, organization—be it for-profit, non-profit, government, or volunteer. It is designed to help the reader avoid the many traps and pitfalls encountered along his or her career path and to help facilitate increased personal effectiveness during all three stages of the job cycle—interviewing, new hire, and long-term employment. Whether preparing to enter the workforce for the first time or in early, middle, or later career stages, this book will show the reader how to avoid jobs and organizations that are not a good fit. It will also go beyond survival and show how to achieve success by doing the job well and making other contributions to the organization in ways that improve job performance, satisfaction, happiness, and personal and professional growth. The keys this book provides will work whether the reader is an independent contributor, a manager responsible for the work of others, or an executive responsible for the enterprise. Organizational leaders, human resource professionals, career coaches, and mentors can also utilize this book to educate and train employees to be more productive at work and happy in their worklife.

The book is about all aspects of computing, communication, general sciences and educational research covered at the Second International Conference on Computer & Communication Technologies held during 24-26 July 2015 at Hyderabad. It hosted by CMR Technical Campus in association with Division – V (Education & Research) CSI, India. After a rigorous review only quality papers are selected and included in this book. The entire book is divided into three volumes. Three volumes cover a variety of topics which include medical imaging, networks, data mining, intelligent computing, software design, image processing, mobile computing, digital signals and speech processing, video surveillance and processing, web mining, wireless sensor networks, circuit analysis, fuzzy systems, antenna and communication systems, biomedical signal processing and applications, cloud computing, embedded systems applications and cyber security and digital forensic. The readers of these volumes will be highly benefited from the technical contents of the topics.

Exam-target, 5 Solved & 5 Self-Assessment Papers, All CBSE-specified typologies of questions including comprehension questions, Perfect Answers with Board Marking Scheme and specified word limit.

The field of SMART technologies is an interdependent discipline. It involves the latest burning issues ranging from machine learning, cloud computing, optimisations,

modelling techniques, Internet of Things, data analytics, and Smart Grids among others, that are all new fields. It is an applied and multi-disciplinary subject with a focus on Specific, Measurable, Achievable, Realistic & Timely system operations combined with Machine intelligence & Real-Time computing. It is not possible for any one person to comprehensively cover all aspects relevant to SMART Computing in a limited-extent work. Therefore, these conference proceedings address various issues through the deliberations by distinguished Professors and researchers. The SMARTCOM 2020 proceedings contain tracks dedicated to different areas of smart technologies such as Smart System and Future Internet, Machine Intelligence and Data Science, Real-Time and VLSI Systems, Communication and Automation Systems. The proceedings can be used as an advanced reference for research and for courses in smart technologies taught at graduate level.

CBSE Curriculum was most recently updated on 29th March 2019 for Academic year 2019 – 2020. There were major changes observed which will have direct impact on the Question Paper design for Board Examinations 2019. Keeping this in mind Oswaal Sample Question Papers have been thoroughly updated as per the latest Board guidelines. This makes them extremely relevant for Exam oriented study. **IMPORTANT FEATURES OF THE BOOK:** Self-Study Mode Ten Sample Question Papers covering important concepts from an examination perspective (1-5 solved and 6-10 for Self-Assessment) . Exam Preparatory Material Answers from the CBSE Marking Scheme upto March 2019 Exam with detailed explanations as per the word limit for exam-oriented study. Answering Tips & Commonly Made Errors for clearer thinking. . On Tips Notes On tips notes, Mind Maps & Grammar charts facilitate quick revision of chapters **WHAT THIS BOOK HAS FOR YOU:** Latest CBSE Curriculum Strictly based on the latest CBSE curriculum issued on 29th March 2019 for Academic Year 2019-2020, for classes 9 to 12 following the latest NCERT Textbook. Latest Typology OF Questions Objective Type Questions included as per the latest design of the question paper issued by CBSE. Most Likely Questions ‘Most likely questions’ generated by our editorial Board with 100+ years of teaching experience. About Oswaal Books: Oswaal Books strongly believes in Making Learning Simple. To ensure student-friendly, yet highly exam-oriented content, we take due care in developing our Panel of Experts. Accomplished teachers with 100+ years of combined experience, Subject Matter Experts with unmatched subject knowledge, dynamic educationists, professionals with a keen interest in education and topper students from the length and breadth of the country, together form the coveted Oswaal Panel of Experts. It is with their expertise, guidance and a keen eye for details that the content in each offering meets the need of the students. No wonder, Oswaal Books holds an enviable place in every student’s heart!

Exam Preparatory Material Answers from the CBSE Marking Scheme up to March 2020 Exam with detailed explanations as per the word limit to score full marks in exam. Answering Tips & Commonly Made Errors for clearer thinking. Self-Study Mode Fifteen Sample Question Papers covering important concepts from an examination perspective (1-5 solved and 6-15 for Self-Assessment) All-in -One On tips notes, Mind Maps & Grammar charts facilitate quick revision of chapters NCERT videos for digital learning. Latest CBSE Curriculum Strictly based on the latest & reduced CBSE for Academic Year 2020-2021, for class 12th following the latest NCERT Textbook Latest Typology

OF Questions Objective Type Questions & latest Visual Case Study based Questions included as per the latest design of the question paper 2020 issued by CBSE on 9th October 2020. • Exam-targeted, 5 solved & 5 Self-Assessment papers with Hints • All CBSE-specified typologies of questions • Answers follow Board Marking Scheme and word limit • Polish concepts with 'Answering Tips' • Learn more with 'Mind Maps' • Clarify doubts with 'Oswaal Grammar Charts' • QR codes for quick revision on mobiles/tablets

Exchange of information and innovative ideas are necessary to accelerate the development of technology. With advent of technology, intelligent and soft computing techniques came into existence with a wide scope of implementation in engineering sciences. Keeping this ideology in preference, this book includes the insights that reflect the 'Advances in Computer and Computational Sciences' from upcoming researchers and leading academicians across the globe. It contains high-quality peer-reviewed papers of 'International Conference on Computer, Communication and Computational Sciences (ICCCCS 2016), held during 12-13 August, 2016 in Ajmer, India'. These papers are arranged in the form of chapters. The content of the book is divided into two volumes that cover variety of topics such as intelligent hardware and software design, advanced communications, power and energy optimization, intelligent techniques used in internet of things, intelligent image processing, advanced software engineering, evolutionary and soft computing, security and many more. This book helps the perspective readers' from computer industry and academia to derive the advances of next generation computer and communication technology and shape them into real life applications.

The main problems that prevent fast and high-quality document processing in electronic document management systems are insufficient and unstructured information, information redundancy, and the presence of large amounts of undesirable user information. The human factor has a significant impact on the efficiency of document search. An average user is not aware of the advanced option of a query language and uses typical queries. Development of a specialized software toolkit intended for information systems and electronic document management systems can be an effective solution of the tasks listed above. Such toolkits should be based on the means and methods of automatic keyword extraction and text classification. The categorization (or classification) of texts into predefined categories has witnessed a booming interest in the last 10 years due to the increased availability of documents in digital form and the ensuing need to organize them. Thus, research on keyword extraction, advancements in the field, and possible future solutions is of great importance in current times. Developing a Keyword Extractor and Document Classifier: Emerging Research and Opportunities presents an information extraction mechanism that can process many kinds of inputs, realize the type of text, and understand the percentage of the keywords that has to be stored. This mechanism then supports information extraction and information categorization mechanisms. This module is used to support a text summarization mechanism, which leads—with the help of the keyword extraction module—to text categorization. It employs lexical and information retrieval techniques to extract phrases from the document text that are likely to characterize it and determines the category of the retrieved text to present a summary to the users. This book is ideal for practitioners, stakeholders, researchers, academicians, and students who are interested in the development of a new keyword extractor and document classifier method.

This Handbook presents both a theoretical and practical approach to conducting social science research on, for, and about women. It develops an understanding of feminist research by introducing a range of feminist epistemologies,

methodologies, and emergent methods that have had a significant impact on feminist research practice and women's studies scholarship. Contributors to the Second Edition continue to highlight the close link between feminist research and social change and transformation. The new edition expands the base of scholarship into new areas, with 12 entirely new chapters on topics such as the natural sciences, social work, the health sciences, and environmental studies. It extends discussion of the intersections of race, class, gender, and globalization, as well as transgender, transsexualism and the queering of gender identities. All 22 chapters retained from the first edition are updated with the most current scholarship, including a focus on the role that new technologies play in the feminist research process.
