This book will help you answer questions like: What is the impact of our company or organization? What common ground do we share with our customers? Is our company more concerned about enhancing its own value rather than enhancing the value of the people we serve? How can we actually show people what we can do for them, rather than just rely on our advertising and marketing to tell them? What is standing in the way of people responding to us? How is using our product or service better than using a competitor's? What things do we need to be doing right now so we can keep providing the same quality in the future? A great read with discussion questions at the end of each chapter. You can use it for yourself, a team building exercise, or an executive retreat. The book is a great discussion starter for any business!

Using a hands-on approach, Computer Accounting with QuickBooks 2019 integrates understanding accounting with mastery of QuickBooks software. The text provides proven instructional techniques throughout the new edition to make students mastery of QuickBooks as effortless as possible. Access to QuickBooks Accountant 2019 software is included with every text. Connect is available for Computer Accounting with QuickBooks 2019. Connect saves you time by making grading quick and easy. The in-chapter activities, end of chapter exercises and projects found in the text are auto-graded after students enter the answers from their work in QuickBooks into Connect. Doing so allows instructors and students to benefit from Insight, the analytic tools within Connect that provides at-a-glance information regarding class performance and assignment effectiveness.

Offers step-by-step instructions on basic bookkeeping and accounting, and how and when to use specific QuickBooks features. Includes how to set up accounts, track billable time and examine budgets. Customized for the Salem Volcanoes (Minor League Team in Salem Oregon) This book gets rid of all the myths and misunderstandings of the baseball swing. For the first time in 120 years of baseball, we now fully understand the swing from a precise analytical perspective - - and here it is! There are two books: Book 1 (this book) is the stand-alone manual written specifically (in baseball language) for fans, ballplayers, and coaches of all levels, including Little League coaches and their dads. It carefully walks you through the swing telling you what is happening, how, and why. It's unlike anything you have ever seen in the baseball literature. You'll be amazed. For FANS, certain chapters are written specifically for you, so you (1) know what to watch for during a game; (2) how to classify batters into different styles; and (3) the final chapter describes the styles of different Home Run Kings from Babe Ruth to Barry Bonds. You'll learn lots and enjoy the game that much more. Book 2 is Technical Supplements, which are referenced in Book 1, with lots of graphs and tables - - based on our computer model which exactly matches the swing. Book 2 is for coaches, trainers, weight trainers, as well as teachers and students of the swing. Perfect for a college course!

The International Space Station (ISS) is a great international, technological, and political achievement. It is the latest step in humankind's quest to explore and live in space. The research done on the ISS may advance our knowledge in various areas of science, enable us to improve life on this planet, and give us the experience and increased understanding that can eventually equip us to journey to other worlds. As a result of the Station's complexity, few understand its configuration, its design and component systems, or the complex operations required in its construction and operation. This book provides high-level insight into the ISS. The ISS is in orbit today, operating with a crew of three. Its assembly will continue through 2010. As the ISS grows, its capabilities will increase, thus requiring a larger crew. Currently, 16 countries are involved in this venture. The sophisticated procedures required in the Station's construction and operation are presented in Amazing 3D Graphics generated by NASA 104 pages of spectacularly detailed color graphics the Space Station as you've never seen it before!

ÉIf my present reader happens to be a Boy Scout or a scout-master who wants the scouts to build a tower for exhibition purposes, he can do so by following the directions here given, but if there is real necessity for haste in the erection of this tower, of course we cannot build one as tall as we might where we have more time. With a small tower all the joints may be quickly lashed together with strong, heavy twine, rope, or even wire; and in the wilderness it will probably be necessary to bind the joints with pliable roots, or cordage made of bark or withes; but as this is not a book on woodcraft we will suppose that the reader has secured the proper material for fastening the joints of the frame of this signal-tower and he must now shoulder his axe and go to the woods in order to secure the necessary timber. First let him cut eight straight polesÑthat is, as straight as he can find them. These poles should be about four and one half inches in diameter at their base and sixteen and one half feet long. After all the branches are trimmed off the poles, cut four more sticks each nine feet long and two and a half or three inches in diameter at the base; when these are trimmed into shape one will need twenty six or seven more stout sticks each four and one half feet long for braces and for flooring for the platform.

The general journal and the general ledger. Adjustments and the worksheet. Closing entries and the postclosing trial balance....

Here's an inescapable fact: you will need to know how people talk and react to whatever things you say. It is also important on how to choose the words and the how to approach a person to pick up a conversation, be it formal or casual. Conversations are important because they have the ability to resolve conflicts and find solutions to any situation you are in. A person with a good ability to talk and connect with others around him will always be in control in any situation he/she is put in. If you do not develop your conversational skills, you will be let down and ignored in a social circle. The core of a man's knowledge comes from interaction with different kinds of people. You have to possess a specific skill set that allows you to open up with other people and they should be able to give back the same to you.

There is a serious problem with our modern fruits and vegetables! The produce we feed our family members is far less healthy now than at any other time in human history! Does that statement bother you? It should! How and why did this happen? What can we do about it? Most importantly, how can you ensure that you are feeding your family the most healthy, most nutritious fruits and vegetables possible? If you are going to grow a tomato in your garden anyway why not grow the healthiest, most phytonutrient-rich tomato packed with the most lycopene and antioxidants possible? Are you planning to grow lettuce? Why not grow the lettuce that packs the most nutrition into every leaf? These simple questions are at the very heart of the author's concept of "Phytonutrient Gardening." In this first book in a series of three, Joe Urbach, creator and publisher of the popular website www.GardeningAustin.com and creator of The Phytonutrient Blog answers those questions and more while providing gardeners with a wealth of information including which specific varieties of your favorites to grow to get the biggest nutritional bang for your gardening buck! Filled with fascinating details about the state of modern produce and backed by state-of-the-art research and scientific testing, this useful book will change your life by changing how you look at produce. Read just a few pages and you will change the way you garden, the way you buy groceries, the way you store your produce and even the way you cook your meals! Changes all for the better!
