According to the New Syllabus and exam format, Jawahar Navodaya Book 2020 contains entire topics on Reasoning, Maths, and English. This book is good for students preparing for JNVST (Jawahar Navodaya Vidyalaya Selection Test). The Class 6 Entrance book for JNV provides simplified preparation material for the students. It contains the JNV 2020 previous year's question paper with its detailed solution. Book for Jawahar Navodaya Vidyalaya Class 6 Entrance provides comprehensive and detailed theoretical information that helps make self-study more relaxed and simpler to comprehend. The book provides clear perspectives on topics along with free video concepts that help to learn more quickly and attain 100% chances of clearing JNVST. It's also perfect for any learner who chooses to practice on their own. Each activity and tricky problem has some clues and suggestions about how to resolve it, and several students have learned significantly from it, in recent years. Along with the right solution, the book also includes an ample number of practice questions that will assist the students to solve several different versions of the question in the book as they appear in the actual test. This book is one hundred percent error-free and easy to understand because it was planned and written under the guidance of Dr. RS Aggarwal, a pioneer of education. JNV is primarily charged with identifying promising children in rural areas of India and supporting them with education similar to the best school system, irrespective of the socio-economic status of their households. Following are the features of Jawahar Navodaya Book 2020 English: Easy to understand the detailed explanation for solutions. Coverage of the entire syllabus for the test. 100 % error-free because of a three-level assessment of the solution. JNV 2020 questions paper with detailed solution. Free concept video to attain more understandability.

SSC General Awareness Book is one of the best preparatory

additional questions of all the chapters mentioned in the textbook. It is strictly based on 2021 Examination Pattern. Recommended for only CBSE students.

According to the defined canons of art technique, a portrait should be, above all, a faithful representation of its model. However, this gallery of 1000 portraits illustrates how the genre has been transformed throughout history, and has proven itself to be much more complex than a simple imitation of reality. Beyond exhibiting the skill of the artist, the portrait must surpass the task of imitation, as just and precise as it may be, to translate both the intention of the artist as well as that of its patron, without betraying either's wishes.

Therefore, these silent witnesses, carefully selected in these pages, reveal more than faces of historic figures or anonymous subjects: they reveal a psychology more than an identity, illustrate an allegory, serve as political and religious propaganda, and embody the customs of their epochs. With its impressive number of masterpieces, biographies, and commentaries on works, this book presents and analyses different portraits, consequently exposing to the reader, and to any art lover, a reflection of the evolution of society, and above all the upheavals of a genre that, over 300 centuries of painting, has shaped the history of art.

This book is the solution of Mathematics (R.S. Aggarwal) class 8th (Publisher Bharti Bhawan). It includes solved & additional questions of all the chapters mentioned in the textbook. It is strictly based on 2021 Examination Pattern. Recommended for only CBSE students.

The revised edition of the series Foundation Mathematics for Classes 6, 7 and 8 is based on the latest curriculum prepared and recommended by the Council for the Indian School Certificate Examinations, New Delhi. The present mathematics curriculum aims to develop a number of Mathematical Skills (like Numerical Calculation, Algebraic Manipulation, Spatial Visualisation, Data Analysis, Measurement, Estimation and Approximation) and Mathematical Processes (like Reasoning, Communication and Connections, Problem solving and Heuristics, Estimation, Technology etc.) among students at these levels. This series has been developed and designed keeping in mind the following objectives of the latest curriculum : Students should :

- Enjoy learning of mathematics.
- Learn important mathematics that is much more than few formulas and mechanical procedures of solving problems.
- Pose and solve meaningful problems.
- See mathematics as something to talk about, to communicate, to discuss among themselves, to work together on.
- Understand the basic structure of mathematics : Arithmetic, algebra, geometry and trigonometry, the basic content areas of school mathematics, all offer a methodology of abstraction, structuration and generalization.
