To save Egypt from the Hittites, Ramses II must face the might of their powerful army, whose weapons are vastly superior to Egypt's own. War seems inevitable, and it is at Kadesh, the impenetrable fortress of Northern Syria, that the first major battle is to take place. But how can Ramses prepare himself for such a battle when the health of his beloved royal wife, Nefertari, is failing rapidly? And how can he be vigilant at home in Egypt where a pro-Hittite underground network continues to grow? In order to save his dying Queen, Ramses needs to travel South in search of the Stone Goddess, but the imminent battle to save his entire civilization is to the North. Will Ramses' father, now a celestial god, answer his desperate pleas for help and guidance?

First published in the 1940s and widely condemned as obscene, *The Egyptian* outsold every other American novel published that same year, and remains a classic; readers worldwide have testified to its life-changing power. It is a full-bodied re-creation of a largely forgotten era in the world's history: an Egypt when pharaohs contended with the near-collapse of history's greatest empire. This epic tale encompasses the whole of the then-known world, from Babylon to Crete, from Thebes to Jerusalem, while centering around one unforgettable figure: Sinuhe, a man of mysterious origins who rises from the depths of degradation to get close to the Pharaoh...

From the author of the bestselling Ramses series, a new novel about one of the lesser known pharaohs, the Nubian Piankhy who, five centuries after Ramses, sought to restore the country to its former glory.

From early towns to booming metropolises, *The Complete Cities of Ancient Egypt* explores every facet of urban life in ancient Egypt with a leading authority in the field as a guide. Ancient Egyptian cities and towns have until recently been one of the least-studied and least-published aspects of this great ancient civilization. Now, new research and excavation are transforming our knowledge. This is the first book to bring these latest discoveries to a wide audience and to provide a comprehensive overview of what we know about ancient settlement during the dynastic period. The cities range in date from early urban centers to large metropolises. From houses to palaces to temples, the different parts of Egyptian cities and towns are examined in detail, giving a clear picture of the urban world. The inhabitants, from servants to Pharaoh, are vividly brought to life, placed in the context of the civil administration that organized every detail of their lives. Famous cities with extraordinary buildings and fascinating histories are also examined here through detailed individual treatments, including: Memphis, home of the pyramid-building kings of the Old Kingdom; Thebes, containing the greatest concentration of monumental buildings from the ancient world; and Amarna, intimately associated with the pharaoh Akhenaten. An analysis of information from modern excavations and ancient texts recreates vibrant ancient communities, providing range and depth beyond any other publication on the subject.

Presents the life and accomplishments of one of Egypt's greatest pharaohs and describes the time in which he lived.

In the north, the barbaric Hyksos still rule with unimaginable brutality. Queen Ahhotep, meanwhile, has recaptured much of the south -- but at a terrible price: her husband has been killed in combat and her elder son, Kames, was mysteriously poisoned. Ahhotep refuses to be crowned pharaoh and prepares her second son, young Amose, to take power instead. Thanks to her, the Egyptians are now ready for the final battle. They lay siege to Avaris, the Hyksos capital -- and once the city is taken, nothing can stop them. After 100 years of occupation and thousands of violent deaths, it looks as though the Egyptian empire may at last rise from the ashes.

The Oxford History of Ancient Egypt describes the emergence and development of the distinctive civilization of the ancient Egyptians, from their prehistoric origins to their conquest by the Persians, Greeks, and Romans. Included are the most detailed examinations of the three so-called 'intermediate periods' in Egyptian history, which were previously regarded as 'dark ages' but are now beginning to be better understood. A wealth of information on ancient Egypt.

them, of each of which he gives the exact location. His enemy also was drawn up in the same way. But Kadesh is still more instructive, because here we can follow the shrewd maneuvers of the Asiatics, which preceded the battle. No incident in Egyptian history is so impressed upon the mind of the traveler in Egypt as this battle between the forces of Ramses II. And those of the Hittites at Kadesh on the Orontes, in the fourteenth century before Christ. The young king's supreme effort to save himself and his army from destruction is so often depicted and in such graphic pictures upon the walls of the great temples, that no visitor, not even the most blas globe-trotter can ever forget it. Yet this dramatic event, so prominent that it attracts the attention of even the most casual visitor over and over again, has never received any exhaustive study. It is the earliest battle in history, the strategic of which can be largely determined in detail; and yet this has never been done. between their domains, and the first and most important target: a desert city whose name will toll through history. Kadesh! Now that war is here, he at last has the chance to confront his nemesis and have his vengeance. But as the ancient world goes to war, Hattu will learn that the cold, sweet kiss of revenge comes at a terrible price.

Studying Ramesses IIa (TM)s Dedicatory Inscription in detail allows one to connect it with the development of the Solar-Osirian theology postdating the Amarna Period of Egypt. This study thus links the historical background of the pharaoh (TM)s visit to Abydos at the very beginning of his first regnal year with the religious aspects of early Dynasty XIX.

Of all the enormous monuments throughout Egypt and Nubia that Ramesses II (the Great; ca. 1279-1212 BCE) left behind, his temple at Abydos, built early in his reign, stands as one of his most elegant monuments, with its simple architectural layout and dramatic and graceful painted relief scenes. Though best known for its dramatic reliefs depicting the battle of Kadesh, the temple also offers a wealth of information about religious and social life in ancient Egypt. It reflects, for example, the strenuous efforts of

the early Ramessides to reestablish the Osiris cult in Egypt-and particularly at Abydos-in the aftermath of the Amarna period. Over a seven-year period, the authors of The Temple of Ramesses II in Abydos conducted a field project with the aim of producing an up-to-date and comprehensive architectural, photographic, and epigraphic record of the temple. This lavish volume, the second of two documenting their results, presents miscellaneous elements of the temple, including the pillars, as well as translations of the inscriptions found in the temple. Volume 1, "Wall Scenes," contains more than two hundred detailed line drawings-accurately rendered according to modern epigraphical standards-of the temple's carved relief scenes, placed alongside their corresponding full-color photographs. The result is a masterpiece of modern epigraphic research and publication.

"Ramses II was one of the greatest pharaohs to rule ancient Egypt. Taking the throne in his early 20s and leading Egypt for 67 years, he was one of the longest-ruling pharaohs. Known for his strategic military skills, Ramses displayed his military might at the Battle of Kadesh, which set up an alliance with Egypt's sworn enemy. He was also an extraordinary builder. Throughout his reign as pharaoh, he ordered the construction of more temples and monuments than any other ruler. His accomplishments and long-lasting reign earned him the title of Ramses the Great."

In The Books behind the Masks Anthony Spalinger continues his work on the warrior kings of pharaonic Egypt. Here is covered their actual war records from the perspective

of literature and the contemporary court-based society, especially with the eulogies. This dissertation examines the packaging and presentation of the Battle of Kadesh as a meaningful Event to both a local Egyptian and a wider Near Eastern audience at pivotal moments in time. In 1275 BCE the Egyptian pharaoh, Ramses II, faced off against the Hittite king, Muwatalli, at the northern Levantine citadel of Kadesh along the border between the two great empires. This confrontation remains one of the most well studied battles of pre-classical times as a result of the lavish attention with which Ramses II commemorated it upon his temple walls in Egypt. Still visible today at Abu Simbel, Abydos, Karnak, Luxor, and the Ramesseum are the monumental reliefs depicting Ramses II charging into the chaotic fray of combat on his chariot. All around him Egyptian troops attack the Hittite army beside the Orontes River, which circumscribes the fortified citadel of Kadesh. Event is capitalized in this dissertation to refer to the ongoing construction and understanding of the Battle of Kadesh as embedded within specific social contexts. Such an approach emphasizes the temporal duration of Events, arguing that a crucial component of Events is their continued resonance in the material (archaeological and/or historical) record. This dissertation focuses upon three encounters with the Battle of Kadesh reliefs through time to demonstrate the Battle's Event-status: The initial carving of the Battle of Kadesh reliefs on the temple walls of the Ramesseum during the reign of Ramses II; the later addition to the Ramesseum of the Egyptian-Hittite peace treaty negotiated in the twenty-first year of Ramses II's reign;

and lastly, the Neo-Assyrian army's encounter with this corpus on their campaign in the Theban region during the seventh century BCE. This dissertation argues that the physicality of the reliefs has the effect of creating (as opposed to reflecting) the Battle of Kadesh. In asking how the internal elements of the reliefs communicate with one another and how the reliefs communicate with their surrounding environment, this study demonstrates that meaning is constantly negotiated through the broader social, ideological, and physical world. In so doing, it recognizes the role the reliefs play as active participants in various social and temporal settings, and it evaluates their efficacy as imperialistic and diplomatic tools utilized during the reign of Ramses II and the reigns of the Neo-Assyrian kings in constructing royal ideologies. Chapters 5-7 of this dissertation landscape the reliefs at the aforementioned moments in time in order to examine their shifting resonances. This includes a description of the permanent changes to the physical landscape of the Ramesseum (such as the addition of the Silver Tablet Treaty to the temple walls or the weathering of the stone surfaces), as well as the appearance of temporary objects (such as festival accouterment) that would impact how the reliefs mean to different audiences. Likewise each chapter describes the cultural and political expectations of each audience in order to demonstrate that Events comprise the encounter between both the landscape of the relief corpus and the different audiences that visit them. These diverse encounters reveal precisely how much an Event's meaning can change through time, highlighting how modern historical

reconstructions of the Battle of Kadesh are just one more stage in the Event's making. Despite the tremendous shock of the Battle of Kadesh, Ramses has not managed to bring the formidable Hittite might to its knees. Rather than continue the struggle, he decides to engage in negotiation. But more important than anything to Ramses is the love he bears the Great Royal Consort, and he decides to offer Nefertari the most fabulous of gifts: at Abu Simbel two temples will be built - symbols of their eternal love. Meanwhile shadows are gathering, from Nubia to the sovereign's own capital of Pi-Ramses and Ramses must come face to face with Moses, the childhood friend whom he had lost sight of for so many years: Moses, who has returned to Egypt to demand the exodus of the Hebrew people.

Caius Zip, the young time traveller, will learn the wisdom of Ancient Egypt with the great Pharaoh Ramses II. The main architect of the Pharaoh, plus the Greek scholar who visited Egypt for studying geometry, and the pharaoh's main wife, the beautiful Nefertari, will teach Caius the principles of geometry. After an impressive narration on the effort of the Egyptians in the building of their great monuments, Caius will participate in this effort, with the calculations of area and volume of the pyramids. In the famous battle of Kadesh, an important location in present day Syria, between the two largest eastern powers of that period, the time traveller will help the great pharaoh to win the battle against the Hittite army. How? Aiding in the construction of traps, where he will use his newly acquired knowledge of geometry. More than acquiring knowledge,

this book is also about a young person acquiring maturity, 'growing', in the true essence of the word.

Everyone has heard of Ramesses the Great - but what is the truth behind the legend? Joyce Tyldesley's lively book explores the life and times of Egypt's greatest king. Ramesses II was the archetypal Egyptian pharaoh: a mighty warrior, an extravagant builder and the father of scores of children. His monuments and image were to be found in every corner of the Egyptian empire. This is his amazing story.

Christian Jacq, author of the international sensations Ramses and The Stone of Light, continues his epic Queen of Freedom trilogy as the fiercely determined Queen Ahhotep struggles to save her people -- and reclaim her own legacy. The barbaric Hyksos have taken possession of the whole of Egypt, imposing their harsh rule with unimaginable cruelty. Only Queen Ahhotep has yet to succumb. Not far from Thebes, the only city that retains its independence, she has established a secret military base to train her loyal fighters. Even when her husband is killed, Ahhotep refuses to yield, turning instead to her eldest son, Kames, who must take his father's place as pharaoh. Leading an increasingly powerful army, Ahhotep steals victory after victory -- despite the treachery that threatens Egypt from within. Slowly, the Egyptians are recovering their honor, growing stronger by the day -- and the brutal invaders no longer seem invincible. Unless Queen Ahhotep and her followers are being lured into an elaborately designed trap that may seal their doom.... Combining historical fact with a vivid imagination, Christian Jacq tells the enthralling true story of the Ancient Egyptian warrior-queen Ahhotep -- without whose valiant courage the Valley of the Kings and the glorious treasures of the pharaohs, including Ramses the Great, would never have existed.
