A New York Review Books Original Hav is like no place on earth. Rumored to be the site of Troy, captured during the crusades and recaptured by Saladin, visited by Tolstoy, Hitler, Grace Kelly, and Princess Diana, this Mediterranean city-state is home to several architectural marvels and an annual rooftop race that is a feat of athleticism and insanity. As Jan Morris guides us through the corridors and quarters of Hav, we hear the mingling of Italian, Russian, and Arabic in its markets, delight in its famous snow raspberries, and meet the denizens of its casinos and cafés. When Morris published Last Letters from Hav in 1985, it was short-listed for the Booker Prize. Here it is joined by Hav of the Myrmidons, a sequel that brings the story up-to-date. Twenty-first-century Hav is nearly unrecognizable. Sanitized and monetized, it is ruled by a group of fanatics who have rewritten its history to reflect their own blinkered view of the past. Morris's only novel is dazzlingly sui-generis, part erudite travel memoir, part speculative fiction, part cautionary political tale. It transports the reader to an extraordinary place that never

was, but could well be.

Annals of Buffalo Valley, Pennsylvania, 1755-1855 by John Blair Linn, first published in 1877, is a rare manuscript, the original residing in one of the great libraries of the world. This book is a reproduction of that original, which has been scanned and cleaned by state-of-the-art publishing tools for better readability and enhanced appreciation. Restoration Editors' mission is to bring long out of print manuscripts back to life. Some smudges, annotations or unclear text may still exist, due to permanent damage to the original work. We believe the literary significance of the text justifies offering this reproduction, allowing a new generation to appreciate it.

It takes an obsessive mind to know one. And Daniel Clark knows the elusive killer he's been stalking. He's devoted every waking minute as a profiler to find the serial killer known only as Eve. He's pored over the crime scenes of sixteen young women who died mysterious deaths, all in underground basements or caverns. He's delved into the killer's head and puzzled over the twisted religious overtones of the killings. What Daniel can't possibly know is that he will be Eve's next victim. He will be the killer's first Adam. After sixteen hopeless months, the case takes a drastic turn on a very dark night when Daniel is shot and left for dead. Resuscitated after twenty minutes of clinical death, Daniel finds himself haunted by the experience. He knows he's seen the killer's face, but the trauma of dying has obscured the memory and left him with crushing panic attacks. Nothing--not even desperate,

dangerous attempts to reexperience his own death--seems to bring him closer to finding the killer. Then Eve strikes again, much closer to home. And Daniel's obsession explodes into a battle for his life . . . his sanity . . . his very soul. Enter a world of death and near death that blurs the lines between fiction and reality in a way that will leave you stunned. "The detail is stunning, pointing to meticulous research in FBI methods, forensic medicine, and psychological profiling. We have to keep telling ourselves that this is fiction. At the same time, we can't help thinking that not only could it happen, but that it will happen if we're not careful." David M. Kiely and Christina McKenna, authors of *The Dark Sacrament*

Spectroscopy is the study of electromagnetic radiation and its interaction with solid, liquid, gas and plasma. It is one of the widely used analytical techniques to study the structure of atoms and molecules. The technique is also employed to obtain information about atoms and molecules as a result of their distinctive spectra. The fast-spreading field of spectroscopic applications has made a noteworthy influence on many disciplines, including energy research, chemical processing, environmental protection and medicine. This book aims to introduce students to the topic of spectroscopy. The author has avoided the mathematical aspects of the subject

as far as possible; they appear in the text only when inevitable. Including topics such as time-dependent perturbation theory, laser action and applications of Group Theory in interpretation of spectra, the book offers a detailed coverage of the basic concepts and applications of spectroscopy.

A treatment of the evolution of Christian thought from the birth of Christ, to the Apostles, to the early church, to the great flowering of Christianity across the world. The first volume introduces the central figures and debates culminating in the Councils of Nicea and Chalcedon among which the theologies of the early church were hammered out. Volume 2 #9781426721915 Volume 3 #9781426721939

Movies do more than tell a good story. Filmspotting co-host Josh Larsen brings a critic's unique perspective to how movies can act as prayers—expressing lament, praise, joy, confession, and more. When words fail, the perfect film might be just what you need to jump-start your conversations with the Almighty.

The only textbook bearing the imprimatur of the American College of Surgeons, ACS Surgery 7 provides a comprehensive reference work across all stages of surgical training and practice, from resident to experienced practitioner. ACSS7 covers thoroughly medical knowledge and patient care, as well as other competencies- professionalism, interpersonal communication, systems-based practice, and practice-based learning and improvement. The illustrations, diagrams, tables, and algorithms enhance and clarify

concepts outlined in the text. In addition, monthly updating online means the work is continually renewed and current on an ongoing basis.

"The best thing to happen to Bing Crosby since Bob Hope," (WSJ) Gary Giddins presents the second volume of his masterful multi-part biography Bing Crosby dominated American popular culture in a way that few artists ever have. From the dizzy era of Prohibition through the dark days of the Second World War, he was a desperate nation's most beloved entertainer. But he was more than just a charismatic crooner: Bing Crosby redefined the very foundations of modern music, from the way it was recorded to the way it was orchestrated and performed. In this much-anticipated follow-up to the universally acclaimed first volume, NBCC Winner and preeminent cultural critic Gary Giddins now focuses on Crosby's most memorable period, the war years and the origin story of *White Christmas*. Set against the backdrop of a Europe on the brink of collapse, this groundbreaking work traces Crosby's skyrocketing career as he fully inhabits a new era of American entertainment and culture. While he would go on to reshape both popular music and cinema more comprehensively than any other artist, Crosby's legacy would be forever intertwined with his impact on the home front, a unifying voice for a nation at war. Over a decade in the making and drawing on hundreds of interviews and unprecedented access to numerous archives, Giddins brings Bing Crosby, his work, and his world to vivid life--firmly reclaiming Crosby's central role in American cultural history. A New York Times essayist shares her journey from a

self-destructive college student to a devoted family woman and teacher while illuminating the importance of trusting in a higher power and being truthful about life's challenges.

A collection of striking and intimate photographs of Michelle Obama—many never before seen—coupled with personal reflections and behind-the-scenes stories from Official White House Photographer Amanda Lucidon, presented in a deluxe format. Michelle Obama is one of the most admired First Ladies in history, known for her grace, spirit, and beauty, as well as for the amazing work she did during her tenure to promote girls' education, combat childhood obesity, and support military families. In *Chasing Light*, former White House photographer Amanda Lucidon, who spent four years covering the First Lady, shares a rare insider's perspective, from documenting life at the White House to covering domestic and overseas travel. This collection of 150 candid photos—many previously unreleased—and Amanda's narrative reflections reveal just what makes Mrs. Obama so special. From an affectionate moment with her daughters atop the strikingly empty Great Wall of China to exuberant moments with schoolchildren and quiet moments between the First Lady and President Obama, the photos are a vibrant, candid, and beautiful celebration of the First Lady, capturing the qualities and strengths that have made Mrs. Obama so beloved.

Some actions are forever... Gruff and straight-forward, Broc McFadden has always had one passion. To be on the sea. And then he meets the sister-in-law of his former captain Derek. He wouldn't have met her if he hadn't agreed to help Derek by traveling to a land where he was wanted, which puts him in the clutches of a mortal enemy. Fierce and loyal, Beatrice cannot sit idly by and watch the Highlander man

who's captured her heart punished unjustly. And yet, she's betrothed to the Lord Randall a man whose handsomeness rivals his cruelty.
