Covering over 10,000 idioms and collocations characterized by similarity in their wording or metaphorical idea which do not show corresponding similarity in their meanings, this dictionary presents a unique cross-section of the English language. Though it is designed specifically to assist readers in avoiding the use of inappropriate or erroneous phrases, the book can also be used as a regular phraseological dictionary providing definitions to individual idioms, clichés, and set expressions. Most phrases included in the dictionary are in active current use, making information about their meanings and usage essential to language learners at all levels of proficiency.

This is the first book offering a systematic description of tongue image analysis and processing technologies and their typical applications in computerized tongue diagnostic (CTD) systems. It features the most current research findings in all aspects of tongue image acquisition, preprocessing, classification, and diagnostic support methodologies, from theoretical and algorithmic problems to prototype design and development of CTD systems. The book begins with a very in-depth description of CTD on a need-to-know basis which includes an overview of CTD systems and traditional Chinese medicine (TCM) in order to provide the information on the context and background of tongue image analysis. The core part then introduces algorithms as well as their implementation methods, at a know-how level, including image segmentation methods, chromatic correction, and classification of tongue images. Some clinical applications based on these methods are presented for the show-how purpose in the CTD research field. Case studies highlight different techniques that have been adopted to assist the visual inspection of appendicitis, diabetes, and other common diseases. Experimental results under different challenging clinical circumstances have demonstrated the superior performance of these techniques. In this book, the principles of tongue image analysis are illustrated with plentiful graphs, tables, and practical experiments to provide insights into some of the problems. In this way, readers can easily find a quick and systematic way through the complicated theories and they can later even extend their studies to special topics of interest. This book will be of benefit to researchers, professionals, and graduate students working in the field of computer vision, pattern recognition, clinical practice, and TCM, as well as those involved in interdisciplinary research.

Kastner's Chinese Nutrition Therapy is an excellent introduction to Chinese dietetics for both students and practitioners of Chinese medicine ... I whole-heartedly endorse his book.--Nigel Wiseman For millennia, the Chinese have taught that a healthy, appropriate diet is an integral part of maintaining good health and healing various disorders. Here, the author demystifies Chinese dietetics, one of the pillars of Traditional Chinese Medicine. Joerg Kastner provides an introduction to the principles of Traditional Chinese Medicine and the energetics of foods. Functional foods and nutraceuticals are food products that naturally offer or have been modified to offer additional health benefits beyond basic nutrition. As such products have surged in popularity in recent years, it is crucial that researchers and manufacturers understand the concepts underpinning functional foods and the opportunity they represent to improve human health, reduce healthcare costs, and support economic development worldwide. *Functional Foods and Nutraceuticals: Bioactive Components, Formulations and Innovations* presents a guide to functional foods from experienced professionals in key institutions around the world. The text provides background information on the health benefits, bioavailability, and safety measurements of functional foods and nutraceuticals. Subsequent chapters detail the bioactive components in functional foods responsible for these health benefits, as well as the different formulations of these products and recent innovations spurred by consumer demands. Authors emphasize product development for increased marketability, taking into account safety issues associated with functional food adulteration and solutions to be found in GMP adherence. Various food preservation methods aimed at enhancing the quality and shelf life of functional food are also highlighted. *Functional Foods and Nutraceuticals: Bioactive Components, Formulations and Innovations* is the first of its kind, designed to be useful to students, teachers, nutritionists, food scientists, food technologists and public health regulators alike.

The rough and tumble prose and life of Floyd Salas give body and guts to these poems of love and desperation in *Color of My Living Heart*. Here, the seasoned boxer street dude, ex-hippy and ex-pachuco bares his heart in a genre all but forgotten by today's skeptic and minimalist poets. Here is love in all of its agony deception, disillusionment, glory and sexual euphoria. Here is love and grit, love and sweat, love and heartbreak, love and mending hearts. What Salas has not dared display in his muscular prose works, is here throbbing, uncompromising, vulnerable, and raw.

Winner of the International Lannan Literary Award for Nonfiction *Animal tracks, word magic, the speech of stones, the power of letters, and the taste of the wind* all figure prominently in this intellectual tour de force that returns us to our senses and to the sensuous terrain that sustains us. This major work of ecological philosophy startles the senses out of habitual ways of perception. For a thousand generations, human beings viewed themselves as part of the wider community of nature, and they carried on active relationships not only with other people with other animals, plants, and natural objects (including mountains, rivers, winds, and weather patters) that we have only lately come to think of as "inanimate." How, then, did humans come to sever their ancient reciprocity with the natural world? What will it take for us to recover a sustaining relation with the breathing earth? In *The Spell of the Sensuous* David Abram draws on sources as diverse as the

philosophy of Merleau-Ponty, Balinese shamanism, Apache storytelling, and his own experience as an accomplished sleight-of-hand of magician to reveal the subtle dependence of human cognition on the natural environment. He explores the character of perception and excavates the sensual foundations of language, which--even at its most abstract--echoes the calls and cries of the earth. On every page of this lyrical work, Abram weaves his arguments with a passion, a precision, and an intellectual daring that recall such writers as Loren Eiseley, Annie Dillard, and Barry Lopez.

The Common Flesh is Alison Croggon's third full-length collection of poetry. It is a compelling work in which the often very personal subject-matter of the poems is expressed, as the poet says, to create a quality of tension between raw emotional immediacy and a formal poetic aesthetic.... With their structural delicacy, emotional impact and archetypal resonances, these are powerful and enduring poems.

Online version of Common Errors in English Usage written by Paul Brians.

Throughout history, most dictionaries have served the purpose of preserving the purity of the language, usually preferring the erudite vocabulary of the affluent upper classes to the salty, constantly evolving slang of their working-class counterparts. That began to change in the early modern period, when several innovative lexicographers began publishing collections of slang terms used by particular subcultures, such as criminals. According to scholars, Francis Grose's Dictionary of the Vulgar Tongue is one of the most important and complete of these early slang dictionaries. Spend some time with this fascinating volume to learn the slang definitions of words and phrases like "poisoned" (pregnant), "shooting the cat" (vomiting after excess alcohol consumption), and "snoozing ken" (a brothel).

Slip-Slidin' Down Gold Mountain is an edgy historical fiction novel, an American wu-jia action-adventure story of how heroes and villains from three cultures (Native Peoples, Chinese, Anglo) collide violently as they struggle to survive the raw, quickly-changing frontier society of the California Gold Rush. Notably, California was unique in being the first place in North America where the state officially sanctioned extermination of a race. This story of people seeking better choices than beheading, hanging or slavery at the hands of the governing elite is not new. Slip-Slidin' Down Gold Mountain recounts a story of cultural myopia and its paradigm that have goose-stepped us up to the edge of self-extinction. What this novel does not have/does not do: -This novel doesn't merely recount events. -There's no great emphasis on love scenes, none of the sappy soap opera romances, nor fortuitous sex. -It doesn't have the "smart, snappy, with-it voice" of the modern man or woman. -It's not a piece of the normal commercial literature built around vapid, untested characters, contrived dilemmas, and elitist world views. -It is not substantiated by "official," politically correct revisions of history as presented in schools and universities. What this novel does offer: -True accounts of events-not politically-correct propaganda-that moved men and women of the mid-to-late-1800's. -An understanding of the value systems generating the acts of individuals within historical events, their differing mind-sets and behavior. -No-holds barred accounting of what went down between the dominant Euro-Americans and people of color-their sludge-like mentality, their subsequent actions during the Gold Rush, the events that led up to it, and the resulting paradigms that continue to present day America. -The story-line is even more extensive in that it weaves in influences from the ancient Silk Road, the Ching Dynasty, the American Revolution, and the Civil War. -It examines such issues as class warfare, cross-cultural gender models and manipulations, and inter-generational expectations. -It shows that the impact of History lies forever with us in our daily moments.

All previous Biblical Hebrew lexicons have provided a modern western definition and perspective to Hebrew roots and words. This prevents the reader of the Bible from seeing the ancient authors' original intent of the passages. This is the first Biblical Hebrew lexicon that defines each Hebrew word within its original Ancient Hebrew cultural meaning. One of the major differences between the Modern Western mind and the Ancient Hebrew's is that their mind related all words and their meanings to a concrete concept. For instance, the Hebrew word "chai" is normally translated as "life", a western abstract meaning, but the original Hebrew concrete meaning of this word is the "stomach". In the Ancient Hebrew mind, a full stomach is a sign of a full "life". The Hebrew language is a root system oriented language and the lexicon is divided into sections reflecting this root system. Each word of the Hebrew Bible is grouped within its roots and is defined according to its original ancient cultural meaning. Also included in each word entry are its alternative spellings, King James translations of the word and Strong's number. Indexes are included to assist with finding a word within the lexicon according to its spelling, definition, King James translation or Strong's number.

'Metamorphoses' demonstrates, with a wealth of examples and close readings, how poetry itself is a form of metamorphosis, raw materials being transformed and realised through literary expression and technique.

The Tongue and Quill has been a valued Air Force resource for decades and many Airmen from our Total Force of uniformed and civilian members have contributed their talents to various editions over the years. This revision is built upon the foundation of governing directives and user's inputs from the unit level all the way up to Headquarters Air Force. A small team of Total Force Airmen from the Air University, the United States Air Force Academy, Headquarters Air Education and Training Command (AETC), the Air Force Reserve Command (AFRC), Air National Guard (ANG), and Headquarters Air Force compiled inputs from the field and rebuilt The Tongue and Quill to meet the needs of today's Airmen. The team put many hours into this effort over a span of almost two years to improve the content, relevance, and organization of material throughout this handbook. As the final files go to press it is the desire of The Tongue and Quill team to say thank you to every Airman who assisted in making this edition better; you have our sincere appreciation!

In this strikingly original collection, Leontia Flynn writes about Belfast and the north of Ireland with a precision and tenderness that is completely fresh. While her subject matter ranges from memories of childhood to the instabilities of adulthood, and from the raw domestic to the restless pull of "elsewhere," her theme throughout is a search for physical and mental well-being, and for a way to live a life. A number of exquisitely moving poems about her father highlight her extraordinary gifts—her exact ear, her heightened, filmic sensibility, her bittersweet tone—all of which combine to produce works that are accessible but not obvious, witty and serious, delicate but tough, and always surprising. Hey, what do you have a hold of, man? Yes, yes you should start at the fl ipside of this book, for you are here, a married man, atop anniversaries with your true love. Are you ready, having been through all this before, to once again tread the unbeaten path to marital bliss?

You are about to delve into the most cryptic corners of your sexual psyche, perhaps a deniable venture, difficult to confront, because owning up to raw desires and true feelings may conjure immense, emotional hurdles. Odd as it may seem, all this happening, after you've taken the committed, marital plunge! All those months, years of courtship, trick is the marriage, true love, eh my dear husband? In their own subtle, mysterious way, wives convey to you daily, of their wants, needs, preferences, dislikes, demands, desires and/or lack of desires, that is, lack of sexual desire! Acceptability becomes the pattern. Mr. Galatoboureko does not enjoy seeing you in an emotional void and the emptiness it creates in anyone's committed, lifelong relationship, not deserving toward either sex. This truly bothers Stephonus G, he has a sincere empathy for you. Following his years of mental suffering, lustful errors, poor decisions and the pain they cause, he has become a proponent of fulfilling, highly charged sexual monogamy! In a sincere marriage of mutual love and desire! In the *Creeping Hand Book, Men*, he reveals for the first and perhaps only time, the deepest, untold, yet attainable secrets of the sexual psyche, mind and flesh. This mesmerizing, almost mystical volume beckons the reader to relish his instinctive sexual needs, with dignity and forthrightness never plotted in any marriage manual. Mr. Galatoboureko views marriage as a union of hearts and souls, asking that no couple shelve the best years of their sexual lives. It may seem, at times, Mr. Galatoboureko stretches the realms of marital expectations, but he would never lie to you. He asks that you journey with him, bearing through his quirks and whims, even some rants and raves, as in a marriage, you must take the bitter with the sweet! His real name might be Saint, but he's a monster. His heart—if he even has one—is coated in ice. Dark. Like the blood under his fingernails. Saint "Glacier" Nordin is the enforcer for the Alpha Wolves Motorcycle Club and sin for sin, he's an outlaw among outlaws. But even monsters want to be accepted and there's a place in the club for someone like him, a man that paints with blood instead of oils. Glacier, he's the stuff nightmares are made of. But I love him. Even if he's thirty and I'm only seventeen, even if the looks he gives me are cold hell. I want all of him: his body, his heart ... and his monster. *GLACIER is a stand-alone MC romance by bestselling author C.M. Stunich writing as Violet Blaze, with a sexy tattooed badass, a strong and capable heroine, and a dark but riveting love story. This book is a spin-off of the completed "Bad Boys MC Trilogy" starting with "Raw and Dirty" but can be read entirely on its own.*

This volume continues the Dialects of English series, and complements Irish English volume 1: Northern Ireland, by Karen Corrigan. Focusing on Irish English in the Republic of Ireland, the book starts by exploring the often oppositional roles of national language development and globalisation in shaping Irish English from the earliest known times to the present. Three chapters on the lexicon and discourse, syntax, and phonology focus on traditional dialect but also refer to colloquial and vernacular Irish English, the use of dialect in literature, and the modern "standard" language, especially as found in the International Corpus of English (ICE-Ireland). A separate chapter examines the internal history of Irish English, from Irish Middle English to contemporary change in progress. The book includes an extended bibliographical essay and a set of sample literary texts and texts from ICE-Ireland. Continuing themes include the impact on Irish English of contact with the Irish language, the position of Irish English in world Englishes, and features which help to distinguish between Irish English in the Republic and in Northern Ireland.

In selecting this dazzling first collection of poems as winner of the 1994 Walt Whitman Award, Robert Pinsky praised Jan Richman for the "rowdy, restless intelligence" of her work. Indeed, all of the poems in *Because the Brain Can Be Talked Into Anything* are the result of a compulsive, unflinching inquisitiveness - a desire to make some sense of modern life by scrutinizing the paradoxes and contradictions inherent in our world. Ultimately, among the surprising turns of language, the hard edges and twisted aphorisms of an outspoken narrator, the sense of personal history re-emerges as haunting and essential. The book offers no formula for self-knowledge; it winnows and rummages and, finally, finds truth in irony. This satiric/sincere dualism comes brilliantly through in "Why I'm the Boss". As in all Richman's poems, the wise-cracking, urban-hip tone gives way to an extremely personal world view, and the raw emotional underpinnings are finally revealed. These poems announce a fresh and powerful new voice.

Author Paul Rodney Turner the "food yogi" takes you on a journey of rediscovering food and its importance in our spiritual evolution. FOOD YOGA not only offers practical guidance on how to live a healthy and happy life by reconnecting with nature, but also introduces the reader to the power of food as a uniter and a medium for expressing our love for the divine. Food yoga springs from the belief that the kind of food we eat affects our consciousness and subsequent behaviours. All the world's great spiritual traditions have elaborate food offering rituals carefully designed to expand consciousness and all use food as a means to represent or please the Divine and to expand the consciousness of their followers. Food yoga is, in essence, a discipline that honors all spiritual paths by embracing their core teaching - that food in its most pure form is divine and therefore an excellent medium for spiritual purification.
