IS YOUR REVIEW PROCESS PERFORMING BELOW EXPECTATIONS? Fix the Performance Review with the Wisdom of Crowds! If you're like most employees and managers, you dread the annual performance review. It's outdated and frozen in time. It's a relic of the way business used to work and doesn't capitalize on the way business works today. Can it be saved? Today's most successful companies are transforming their predictable "one-way" review processes into

dynamic, collaborative systems that apply the latest social technologies. Instead of a one-time annual evaluation of performance, managers and employees receive collective feedback from everyone across their company. It's all achieved through crowdsourcing, and it generates more accurate, actionable results than traditional methods. With The Crowdsourced Performance Review, you'll create a review system that gathers the feedback of many, so you can make better, more informed decisions. And this new model is simpler than you think. It's based on three innovations: CROWDSOURCING: Applying the same techniques that companies like Apple, Angie's List, and Zagat use to inform customers, you can gather the same kind of data to inform managers. SOCIAL MEDIA TECHNOLOGIES: The most revolutionary communication tools since the telephone, these technologies have singlehandedly created a new language of business. ORGANIZATIONAL CULTURE: When managed well, it's one of the most effective tools for building and maintaining a competitive advantage. These three assets come together for the purpose of evaluating performance in the practice of social recognition--a system in which all employees recognize each other's great work on a daily basis. Social recognition creates engagement, energy, and even happiness in a company--leading to the ultimate goal of a Positivity-Dominated Workplace. The Crowdsourced Performance Review provides the key to seizing your company's competitive edge with a new ground-breaking performance management system. Apply the techniques in The Crowdsourced Performance Review to make your processes exceed expectations. PRAISE FOR THE CROWDSOURCED PERFORMANCE REVIEW: "Take advantage of the technology and data available to you and turn the dreaded performance review into a powerful force for decision-making and culture-building by using the methods outlined in this clear and clever guide." -- DANIEL H. PINK, author of To Sell Is Human and Drive "Social technologies aren't just changing how people interact, they're fundamentally changing how businesses must engage with people inside and outside their organization. In THE CROWDSOURCED PERFORMANCE REVIEW, Mosley shows HR and business leaders why a 'groundswell' approach for employee recognition is the key to driving better employee performance. This is one of the most innovative enterprise uses of crowdsourcing I've seen." -- CHARLENE LI, founder of Altimeter Group, author of Open Leadership, and coauthor of Groundswell "In what is easily the most comprehensive and provocative Globoforce book to date, Mosley lays out a clear vision for how modern recognition systems can be integrated with performance management. This is one of the most interesting, innovative, and potentially important new approaches to performance management that I have seen in many years of working on this topic." -- GERALD LEDFORD, Senior Research Scientist, Center for Effective Organizations, Marshall School of Business, University of Southern California "THE CROWDSOURCED PERFORMANCE REVIEW should be at the top of every HR professional's reading list. It shows convincingly why the traditional performance review doesn't work and how social recognition is the key to a performance system that actually makes an impact." -- KEVIN KRUSE, Forbes Leadership columnist and bestsellin

The performance review. It is one of the most insidious, most damaging, and yet most ubiquitous of corporate activities. We all hate it. And yet nobody does anything about it. Until now... Straight-talking Sam Culbert, management guru and UCLA professor, minces no words as he puts managers on notice that -- with the performance review as their weapon of choice -- they have built a corporate culture based on intimidation and fear. Teaming up with Wall Street Journal Senior Editor Lawrence Rout, he shows us why performance reviews are bogus and how they undermine both creativity and productivity. And he puts a good deal of the blame squarely on human resources professionals, who perpetuate the very practice that they should be trying to eliminate. But Culbert does more than merely tear down. He also offers a substitute -- the performance preview -- that will actually accomplish the tasks that performance reviews were supposed to, but never will: holding people accountable for their actions and their results, and giving managers and their employees the kind of feedback they need for improving their skills and to give the company more of what it needs. With passion, humor, and a rare insight into what motivates all of us to do our best, Culbert offers all of us a chance to be better managers, better employees and, indeed, better people. Culbert has long said his goal is to make the world of work fit for human consumption. "Get Rid of the Performance Review!" shows us how to do just that.

Rethink, Redesign, Reboot. Most people associate performance management with the annual review, which is universally dreaded by employees, management, and HR professionals alike. It's a cookie-cutter, fear-based, top-down approach that emphasizes negatives over positives and stifles healthy career conversations. It's never been shown to motivate anyone to do anything but try to avoid it, but nobody feels like they have any alternative. Tamra Chandler has one—and it works. Actually, Chandler doesn't offer a single alternative—she offers an infinite number of them. Each organization that uses her Performance Management Reboot is able to develop its own unique version since it doesn't make a lot of sense for organizations with different cultures, in different industries and sectors, to do things exactly the same way. Grounded in the latest scientific findings about motivation, it's a transparent, employee-driven process that values collaboration over competition and rewards people for acquiring new skills and increasing their contribution instead of hitting arbitrary benchmarks. Chandler lays out the general principles and then walks you through each step in creating a performance management process that employees will actually embrace rather than avoid and that will help you meet the three objectives of great performance management: developing your people, rewarding them equitably, and driving your organization's performance. It's the first comprehensive, step-by-step guide to creating a performance management solution that's tailored to your organization's needs and goals and that places the emphasis squarely on your greatest asset: your

people.

Acclaimed church leader, blogger, founder and chief strategic officer of The Unstuck Group, Tony Morgan unpacks the lifecycle of a typical church, identifies characteristics of each phase, and provides practical next steps a church can take to move towards sustained health. Think about your church for a moment. Is it growing? Is it diminishing? Is it somewhere in between? Acclaimed church leader, blogger, and founder and chief strategic officer of The Unstuck Group, Tony Morgan has identified the seven stages of a church's lifecycle that range from the hopeful and optimistic days of launch, to the stagnating last stages of life support.

Regardless of the stage in which you find your church, it carries with it the world's greatest mission—to "go and make disciples of all the nations . . ." With eternity at stake the Church should be doing most everything within its power to see lives changed forever.

The Church should strive for the pinnacle of the lifecycle, where they are continually making new disciples and experiencing what Morgan refers to as "sustained health." In *The Unstuck Church*, Morgan unpacks each phase of the church lifecycle, and offers specific and strategic next steps the church leader can take to find it's way to sustained health . . . and finally become unstuck. *The Unstuck Church* is a call for honest an assessment of where your church sits on the lifecycle, and a challenge to move beyond it.
