Studies in the Contract Laws of Asia provides an authoritative account of the contract law regimes of selected Asian jurisdictions, including the major centres of commerce where until now, limited critical commentaries have been available in the English language. In this new six part series of scholarly essays from leading scholars and commentators, each volume will offer an insider's perspective into specific areas of contract law, including: remedies, formation, parties, contents, vitiating factors, change of circumstances, illegality, and public policy, and will explore how these diverse jurisdictions address common problems encountered in contractual disputes.

Concluding each volume will be a closing discussion of the convergences and divergences throughout each across the jurisdictions, and comparisons with European jurisdictions from which Asians well as an overview of the common themes found throughout each jurisdiction. contract law derive. Volume I of this series examines the remedies for breach of contract in the laws of China, India, Japan, Korea, Taiwan, Singapore, Malaysia, Hong Kong, Korea, and Thailand. Specifically, it addresses the

readiness of each legal system in their action to insist that parties perform their obligations; the methods of enforcing the parties' agreed remedies for breach; and the ways in which monetary compensation are awarded. Each jurisdiction is discussed over two chapters; the first chapter will examine the performance remedies and agreed remedies, while the second explores the monetary remedies. A concluding chapter offers a comparative overview.

Testament is a collection of photographs and writing by late photojournalist Chris Hondros spanning over a decade of coverage from most of the world's conflicts since the late 1990s, including Kosovo, Afghanistan, the West Bank, Iraq, Liberia, Egypt, and Libya. Through Hondros' images, we witness a jubilant Liberian rebel fighter exult during a firefight, a U.S. Marine remove Saddam Hussein's portrait from an Iraqi classroom, American troops ride confidently in a thin-skinned unarmored Humvee during the first months of the Iraq war, "the probing eyes of an Afghan village boy," and "rambunctious Iraqi schoolgirls enjoying their precious few years of relative freedom before aging into more restricted adulthoods." Hondros was not just a front-line war photographer, but also a committed observer and witness, and his work humanizes complex world events and brings to light shared human experiences. Evident in his writings, interspersed throughout, Hondros was determined to broaden our understanding of war and its consequences. This unyielding determination led Hondros to take dozens of trips to Iraq and Afghanistan, even as the news turned elsewhere. During these "routine" trips, Hondros examined and observed daily life in these war-torn societies. His inventive Humvee picture series frames the ever-changing landscapes of these countries, offering a glimpse into the daily lives of those most affected by conflict. "One of the ongoing themes in my work, I hope, and one of the things I believe in, is a sense of human nature, a sense of shared humanity above the cultural layers we place on ourselves [which don't] mean that much compared to the human experience." —Chris Hondros As a photographer working in the world's most difficult and dangerous places, Chris Hondros had the distinctive ability to connect his viewers with people embroiled in far-flung and sometimes obscure conflicts. He recognized the shared humanity among those affected by war, regardless of culture or beliefs, and he was determined to share their challenges to the wider world in the hope of provoking thought, raising awareness, and fostering understanding. In the introduction to the book, Getty Images Co-founder and CEO Jonathan Klein writes, "Chris believed that his work could and would make a difference. He dedicated and ultimately lost his life in pursuit of that belief. I have no doubt that Chris was correct. Images can and do influence public opinion, galvanize people and societies, and force governments to change. They bring much-needed focus and attention to the suffering of people who are otherwise unable to communicate their plight." Inspired by his life, work, and vision—The Chris Hondros Fund endeavors to bring light to shared human experiences by supporting and protecting photojournalists. Through their generous support, Getty Images' proceeds from the sale of the book will be donated to the Fund. In this 1950s and 1960s, most African countries gained independence from their respective colonial power. Architecture became one of the principal means by which the

newly formed countries expressed their national identity. Parliament buildings, central banks, stadiums, convention centres, universities and independence memorials were built, often to heroic and daring designs. At the same time, these buildings exemplify also the difficulties, contradictions and dilemmas these countries experienced in their nation-building process. This book investigates the relationship between architecture and nation building in Ghana, Senegal, Kenya, Côte d'Ivoire, and Zambia.

"An impressive combination of diligence and verve, deploying Ackerman's deep stores of knowledge as a national security journalist to full effect. The result is a narrative of the last 20 years that is upsetting, discerning and brilliantly argued." —The New York Times "One of the most illuminating books to come out of the Trump era." —New York Magazine An examination of the profound impact that the War on Terror had in pushing American politics and society in an authoritarian direction For an entire generation, at home and abroad, the United States has waged an endless conflict known as the War on Terror. In addition to multiple ground wars, it has pioneered drone strikes and industrial-scale digital surveillance, as well as detaining people indefinitely and torturing them. These conflicts have yielded neither peace nor victory, but they have transformed America. What began as the persecution of Muslims and immigrants has become a normalized, paranoid feature of American politics and security, expanding the possibilities for applying similar or worse measures against other targets at home. A politically divided country turned the War on Terror into a cultural and then tribal struggle, first on the ideological fringes and ultimately expanding to conquer the Republican Party, often with the timid acquiescence of the Democratic Party. Today's nativist resurgence walked through a door opened by the 9/11 era. Reign of Terror will

show how these policies created a foundation for American authoritarianism and, though it is not a book about Donald Trump, it will provide a critical explanation of his rise to power and the sources of his political strength. It will show that Barack Obama squandered an opportunity to dismantle the War on Terror after killing Osama bin Laden. That mistake turns out to have been portentous. By the end of his tenure, the war metastasized into a broader and bitter culture struggle in search of a demagogue like Trump to lead it. A union of journalism and intellectual history, *Reign of Terror* will be a pathbreaking and definitive book with the power to transform how America understands its national security policies and their catastrophic impact on its civic life. The content of this course covers the IDPFR-specified topics for the 15 Hour - Applied Real Estate Principles Course (AREP) as prescribed in The Real Estate License Act of 2000. Our AREP course contains six chapters. Each chapter begins with an informative text narrative summarizing key points of required content. Subsequently, participants will be given interactive quiz questions and a variety of interactive case study demonstrations, "what if" case studies, and situational case study examples. Students will be required to participate by answering problem-solving questions and situations. The overarching purpose of the 15-hour Applied Real Estate Principles course is to expose students to more real-life applications of Illinois real estate principles and laws, including: how to list and sell properties how to comply with agency and disclosure requirements how to gear your practice to comply with anti-discrimination laws how to work with sales contract provisions and escrow funds how to value and price properties Finally, the last chapter summarizes other key job-related duties and obligations such as teams, compensation, advertising, and a review of activities requiring licensure. For students looking for an Illinois principles textbook for the 60-hour broker course, we have *Principles of Real Estate Practice in Illinois*

In *Will They Escape?*, Daniel Huiet reveals the teamwork lessons he has decoded from behind the scenes of his escape room business. Covering observations ranging from the classic

differences such as age and gender, all the way down to the small words people use that create a big impact. But it is not only how the teams functioned as a whole, but how the individual affected the group with their attitude: the superstars who went unnoticed, know-it-alls, an interesting first date, and even a ghost! Huiet analyzed thousands of people and the methods they used to work through his escape rooms and noticed the behaviors of teams that succeeded and the patterns of teams that collapsed. How people used words or what actions they took could either uplift a group to success or tear the group down. Under pressure, even the most trained among us can burst like a frozen pipe and the people you least expect can rise to the occasion and win in record-breaking fashion. Light-hearted tales interspersed with lessons, this unique perspective on human interaction and cooperation is an insight into how each individual action leads to escape...or failure.
